By ELIZABETH HILLYER GOOD NEWS ABOUT LAMPS Some of the best advance home furnishings fashion news for fall is about lamps. Nearly ready now is a bumper crop of well-designed lamps that fit modest incomes. The complaint used to be that when it came to lamps, the choice was far too often between what you didn't like and what you couldn't afford. Something should be done about it, said the budgetbound, and it has been. One lamp maker alone plans nothing for fall to sell in stores for more than \$30 and is turning out many for half that much and less. The lamps will be wrought iron with linen over parchment shades, handturned pottery basses with shades in matching colors and special pottery lamps with textured and patterned shades. Here are some soon-to-be-seen ideas expressed in black, brown and bright colors on white hand-cast pottery. Two shades repeat the design from the base on linen over parchment, two are rattan and plastic and one shade is parchment covered with fabric.
