On Etiquette

By ROBERTA LEE

Q. Is it true that women shake hands more than they formerly did?

A. Although society still does not require it, women are shaking hands more than they used to—and I'm all for it. Nothing can take the place of a sincere hand-clasp when meeting a friend or acknowledging an introduction.

Q. If the list of wedding guests is so small as to make engraved invitations unwarrantable, how should the invitations be extended?

A. In this case, the bride may write personal notes of invitation.

Q. Is it correct for a woman who is traveling alone to use the prefix "Miss" or "Mrs." when registering at a hotel?

A. Yes; so that the hotel employees know how to address her.
