Withholding Tax Collections Jump 10.7%

Employees' deductions of withholding taxes for the 1951-52 fiscal year aggregated \$15,919,832, an increase of 10.7 per cent when compared with the previous year, the State Tax Commission reported here Wednesday.

Tax commissioners said the increase was due largely to the many additional personal income tax returns. These taxes increased from \$35,945,614 in 1950-51 to \$42,824,849 in 1951-52. The commission said it received 169,633 returns in the 1951-52 fiscal year as compared to 115,964 returns in the 1950-51 fiscal year.

Increase in the number of returns was attributed to the increasing number of concerns operating in the state and the activities of the commission's collection department. A total of \$2,306,246 was refunded in the last fiscal year.

More withholding tax revenues were expected during the current fiscal year when federal employees in Oregon will be subject to the withholding tax. Withholding federal employees tax probably will start soon after January 1; under an agreement now being worked out between Ray Smith, in charge of the State Income Tax Division, and federal officials.
