

**MODEL OF NEW OPERA HOUSE**—This is model of glass-front opera house in Hamburg, Germany, to replace one wrecked in last war. It will be completed in 1954 costing \$1,100,000.

**MOVING JOB**—Floating mining plant of Freeport Sulphur Co., to extract mineral from marshlands, is towed in bayou country, on a 65-mile trip from Grande Ecaille to Bay Ste. Elaine, La.

**SPLENDOR FOR PALACE**—American GPs and others admire work of regilding with 22-carat gold leaf the royal coat of arms on center gateway at London's Buckingham Palace.

### Too Many TV Dealers

**NEW YORK** — Awarding TV franchises to almost every type of retail dealers in newly opened transmitter areas can undermine public confidence, warned the National Appliance and Radio-TV Dealers Association.

Mort Farr, president, cited Denver as a new market where practically everyone is selling television sets. He said paint shops, drug stores and antique shops, among others, were offering sets to the public.

Farr said most of these display samples only and practically none were equipped to inspect, install or service sets. He said there were more than 500 television dealers in Denver, or one for every 650 inhabitants.

### Wood Chips Show Coloring of Stains

**CHICAGO** — The difficulty of showing the exact colors of wood stains as they will appear on various woods has been solved by a Chicago paint and stain manufacturer (Martin-Senour) by publishing a color folder containing 60 individual wood chips stained in various colors.

The different effects obtained by the same color stain on typical interior woods in contrast to exterior cedar is shown by duplicating 20 of the colors on the two types of wood.

The cost of preparing the eight-page advertising folder was so great that it is sold for \$1.50 per copy.

### COP'S CAR COPPED

**CHICAGO** — Patrolman Robert C. Woodward parked his automobile across the street from the New City police station, 1700 W. 47th Street. When he completed his tour he found his car gone and thought at first fellow bluecoats had removed it for a joke. Brother officers crossed their hearts, however, and helped him fill out an auto theft report.

### School Building Sites Now Bigger

**SAVANNAH, Ga.** — The present trend in building schools is to lose the building in a large tract of land, according to Savannah delegates to the southeastern conference of the American Institute of Architects at Atlanta.

The group said the average school built last year was located on 20 acres — three or four times the size of elementary and high school tracts of the past.

The architects recommend structures spread over a comfortable area, connected by side corridors, with related activities housed together.

One-story schools are safest, ar-

chitects said, and 85 per cent of school buildings constructed last year were without basements.

### MAKE 'INDIAN' GOODS

**MOOSE JAW, Canada (AP)** — A Chinese firm is trying to sell North America native novelties to storekeepers here. In a letter from Hong Kong, the local Chamber of Commerce was advised that K. S. Lau and Co., are the manufacturers of all kinds of Indian beaded belts as well as jewelry, moccasins, novelties, etc. The company said it had been handling this line for years, establishing a good name throughout the United States.

There were about 200,000 college-level teachers in the United States in 1951.

## RICHER MILK LOWER PRICES

**Oregon Producer-Distributors Ass'n (small dairymen) says:** "Milk control has consistently lowered the butterfat content of our milk supply while increasing the price the consumer pays." "A low test milk has been marketed not by popular demand but by law."
