

Britain Backs India Prisoner Plan; U. S. Reported Satisfied

By FRANCIS W. CARPENTER
UNITED NATIONS, N. Y. (AP)—Britain threw its support Thursday to an Indian plan designed to solve the prisoner of war issue in Korea. The United States also believes the plan is basically satisfactory, informed sources said, but may insist upon certain changes.

Britain made known her approval—with some questions—when Anthony Eden, foreign secretary, spoke soon after he conferred with President-elect Eisenhower.

Both the United States and French delegations were reported to agree with Eden's stand, but officially the U.S. delegation merely called the British declaration "constructive." Russian bloc sources said it was "too early" to react.

Eden spoke for 12 minutes to the U.N. Political Committee. He brought into the open Britain's position which had been stated in several meetings of a subcommittee of Western delegations studying Korean resolutions. He did not refer to or comment on the talk with Eisenhower.

Objections Solved
There had been reports that the United States had insisted in private talks with Western delegations on having the Indian resolution spell out in detail provisions for repatriation of prisoners of war and eventual disposition of those still in camps 90 days after an armistice.

Apparently these difficulties were solved for, after Eden's speech, informed sources said the U.S. position was almost identical with that of Britain.

Eden, speaking slowly and with great emphasis, said the Indian resolution, presented by V. K. Krishna Menon, should not be viewed too legalistically.

"This resolution is, in my view, a timely and constructive attempt to resolve this deadlock," Eden said. "Progress at Panmunjom
