These are just a few of the features that make Howell the "best known name in chrome!"

How This Special Sale Came About

Twice yearly the Howell Co. clears its warehouses of any one-of-a-kind chrome sets, discontinued models or sets with hairline imperfections . . . Woodry's, ever alert for values that bring you "the very best buys," purchased, in one lot, over one hundred new chrome dinettes at these wonderful low prices, which we are passing on to you. Now a one-inch hair-line scratch is enough to cause sharp-eyed Howell inspectors to reject a piece, but you'll agree when you see them, your pride of ownership will not be "dented" one bit.
