Laryngitis in the 'Voice'

The "Voice of America" seems to be suffering from a bad case of laryngitis. Its (cost) glands are badly swollen; and what comes out doesn't sound good to congressional critics. Dr. Wilson Compton, its short-time director, has resigned. The "Voice" has had a rough time ever since

ituwas set up after the war to deliver propaganda about the USA to counteract Communist belching on the air. But when the "Voice" tried to tell the truth it got into trouble from communities that didn't like the brand of truth poured over the airwaves. Others have criticized it as too insipid and ineffectual; and of course it was under suspicion as a peddler of stuff with a pro-Red slant so long as it was administered by the State department. Senator McCarthy is aiming at this in his current inquiry.

No matter what the home bleacher-coaches have had to say the fact remains that Russia throws all the baling wire and tomcat choruses and boiler factory noises it can into the air to break up reception in the USSR and satellite counties. Even listening to the "Voice" is an offense. And "neutral" countries complain because they are subject to propaganda barrages from both Russia and the United States and perhaps other countries.

It is doubtful if we can ever succeed very well with a propaganda "Voice." A democratic country can't very well tell all the truth about itself, nor can it safely warp and twist the truth as can the totalitarian powers. We just can't possibly match the devilish ingenuity of Herr Goebbels who set the modern pattern for radio propaganda. In might be just as well to wind up the

"Voice" and give up the attempt to get peoples of other countries to think nice thoughts about us. The present laryngitis may be fatal to the "Voice": but it shouldn't be fatal to our standing over the world. Surely it isn't necessary for us to be telling the world how good we are.

Changing Taft-Hartley Law

Senator Taft has offered his proposals for amending the Taft-Hartley law. The CIO condemns them and calls for repeal and reenactment of the Wagner act. This is just a gesture motion because the CIO knows the Congress will do no such thing. What may materialize into something worth while is the advisory committee of 15 which Secretary of Labor Durkin has named to consider T-H changes and other matters in labor relations which may come up. This committee includes representatives of labor, management and the public.

Currents on the bar at the mouth of the Umpgu River are chewing away at land behind the jetty and moving the sand for deposit in front of the Coast Guard boathouse launchway. Installation of jetties has an effect on currents and may have contributed to the resulting erosion at both sections of the coastline.

Portland Out of Step

The people of Oregon voted by a large majority to fix standard time as the official time for the state. Down at Portland however efforts are being made again to get that community to overrule the state majority. The Retail Trade bureau has voted to recommend fast time for stores

Stores can fix such hours as they choose for opening and closing. What causes trouble is when a community tinkers with the clock. When that results in having clock-time differences confusion results. It would seem that Portland interests could be satisfied by deciding not to call for a "voluntary" shifting of the hour-hand on clocks but moving forward by an hour or half-hour the times for opening and closing of stores and offices.

If dual time results the real sufferer will be the retail stores in Portland-they will lose the last hour's business of people from the country. Why shouldn't Portland accept the popular verdict of the state and forget about the whole DST business?

The Chinese Communist army in Korea is trying to attract Koreans to desert by promising them jobs and assuring them they will not have to return at the war's end. But repatriation of prisoners was the rock on which negotiations at Panmunjom broke, the Reds demanding repatriation to the last man. The present offer shows how insincere the Reds were in the truce talks and in rejecting the United Nations resolution. Sincerity to them, however, is just a bourgeois, imperialist, capitalistic device not to be borrowed in the Communist dispensation! -----

Today's Question: When and

why was Asieria restored to the

In the Treaty of Ghent at the close of the War of 1812 there

was a clause stating that all ter-

ritory or places taken by one

nation from the other during the

war should be restored without

delay. Fort Astoria, or Fort George, as it had been renamed

by the British, came under this

provision for, as was stated in a

previous article, Captain Black

took possession of the fort dur

ing the war. For various reasons

it was two years after the Treaty

of Ghent was signed before the

United States was in a position

to send a naval vessel to the

Pacific to re-assert American rights. In September, 1817, how-

ever, Captain John Biddle was

ordered to proceed to the mouth of the Columbia in the sloop-of-

war Ontario. He was to be ac-

companied by John B. Prevost as agent of the government to

"assist the claim of the United

States to the sovereignty of the

adjacent territory, in a friendly

and peaceful manner, and with-

out the employment of force."

"Sir Charles Bagot", the British Minister in Washington was

much disturbed when he learned

of the action, and he reported it

to his home government. Fortu-nately, the British government

was not inclined to become ex-

cited over the matter and after

some discussion it was decided

ment will hardly have the appeal to them that it does to Kremlis

of "warmonger" propa

ties.

The San Francisco Chronicle had a reporter get himself sentenced to jails in surrounding cities. Then he came out with a series of stories about the terrible conditions of those jails. In this state grand juries have been taking a hand. One in Lane County condemned the county jail there and the sheriff has made other arrangements for care of prisoners. The Coos County jury was very critical of jails at North Bend and Myrtle Point. It takes periodic investigations to keep jails decent.

In spite of all the reported pressure for tax reduction we believe the majority of Americans prefer to get a balance in our budget and to quit rolling up the deficits which inevitably result in inflation and higher prices. This probably means that the excess profits tax should be continued another year. Certainly it would be political suicide for the Congress to grant tax relief to corporations and none to individuals.

Lawrence Harvey may have quite a bit on his mind for Salem, since he apparently plans to be here most of next week . . . Joseph Brenner, Beverly Hills, attorney and personal representative, also to be here ... chamber of commerce been offering assistance in any Harvey plans abrewing, which include operation of Ray-O-Vac plant (former alumina-from-clay) on Cherry Avenue as well as TV Channel 24 ... no known plans jelled for studio ... second floor downtown site very available but Brenner told Televine he doesn't like studio being off ground-level . . . if you're a non-TV-owner, have you noticed how your TV hosts and hostesses try to pry out of you what you think of their set compared to others you've seen?
