

# Taft Asserts Ike to Oust New Dealers

By ROGEF D. GREENE  
WASHINGTON (AP) — Sen. Taft (R-Ohio) said Monday President Eisenhower is getting ready to sweep out high gear policy-making officials whom Taft described as "New Deal thinkers" left over from the Truman administration.

At the same time, the Eisenhower administration doused cold water on any move to revive the controversial health insurance program of the Truman regime, dubbed "socialized medicine" by its opponents.

These developments came as the new Republican administration began to shift into high gear its drive to get its own team and its own policies into operation.

Emerging from a White House conference, Taft told newsmen he expects Eisenhower to issue an executive order within a few days stripping away the Civil Service status that has protected the jobs of numerous policy-making officials.

Several administration leaders have complained that Democratic blanketting of many key jobs under Civil Service has made it impossible for them to name even

their own top assistants in some cases.

Taft and House Speaker Martin (R-Mass.), who also attended the White House parley, both indicated that a thorough "house cleaning" is in the offing.

It was not immediately disclosed what departments or agencies would feel the brunt of the shake-up.

However, Martin said Eisenhower expects to announce a plan late this week to reshuffle the Agriculture Department. Martin said this plan does not call for any "violent changes," but seeks to improve the department's efficiency in organization.

Congressional leaders who sat in on the regular Monday morning White House session said Mobilization Director Arthur S. Flemming explained the projected executive order dealing with Civil Service.

Taft commented it was so complicated that he didn't understand it fully himself.

## Conscientious Tax Objectors Refuse to Pay Up

PHILADELPHIA (AP) — Twelve Philadelphia area residents said Monday they will not pay any part of their 1952 income tax — not because of the money involved, but because they object to the way the money may be spent.

The tax objectors said they cannot help provide the weapons with which men will destroy other men. One of the signers of the statement said he will contribute an equivalent amount to the Fellowship of Reconciliation, a group reportedly working for world peace.

# U.S. Rushes Sabre Jets To Germany

WIESBADEN, Germany (AP) — The U. S. Air Force rushed some fast new Sabre jet fighters from England Monday as an answer to Communist shooting attacks which have brought down an American fighter plane and a British bomber.

The Air Force said last week, after two Soviet-designed MIG 15 fighters of the Czechoslovak Air Force had shot down a U.S. Thunderjet, that 25 Sabres were being sent to Germany from the United States "very soon."

The announcement Monday said "a number" of F86 Sabres, newer and faster than the F84 Thunderjets stationed in Germany, had been brought in from the 81st Fighter-Bomber Wing stationed in England.

Apparently the Air Force decided it would not wait for the Sabres to arrive from America.

It was embarrassing to the Americans that neither the destroyed Thunderjet nor its companion got in a single shot in the attack by two MIGs near Regensburg in the American Zone last Tuesday.

But the Sabre has proved a match for the MIG in Korea.

The Air Force said the Sabres were being stationed at Fuerstentfeldbruck on "temporary duty," and "may be used as required supplement other aircraft available in the performance of the normal mission of the 12th Air Force."

It added, "the investigation of unidentified aircraft flights over the U.S. Zone of Germany is a standing operating procedure of the 12th Air Force."

American pilots have orders to fire back if attacked but to take no aggressive action such as firing on unidentified aircraft without provocation, even if they are encountered over the U.S. Zone.

Poppy seeds are grown in France to produce salad oil rather than narcotics.

**Flow of Mail Heavy To Income Tax Office**  
PORTLAND (AP) — Another big batch of mail was expected at the Internal Revenue office here Tuesday as last-minute taxpayers send in their 1952 federal income tax returns. Thirty-two sacks of mail were received Monday.

Because March 15 was on a Sunday this year, taxpayers had until midnight Monday to send in their returns.

# Taxpayer Loses His Shirt at U.S. Revenue Office

PHILADELPHIA (AP) — A taxpayer lost his shirt — several of them — at the U. S. Bureau of Internal Revenue Monday.

He called the bureau to say he'd accidentally left his laundry bundle while filing his tax return a short while earlier. Had the clerks seen it?

A harried employe said he didn't have time to find out.

Twenty minutes later the unidentified taxpayer showed up. He searched the block-long office with two deputy collectors but the laundry, mostly shirts, couldn't be found.

**Klamath D.A. Sends Warning To Gamblers**

KLAMATH FALLS (AP) — Warning letters were sent Monday to 57 places in Klamath County which District Attorney Frank Alderson suspects of gambling.

Alderson gave the places 10 days to stop any gambling, saying all slot machines, handbooks, punchboards and card games would be banned. He said violators would be prosecuted, and that he was acting on Attorney General Robert Thornton's recent policy statement against gambling and vice.

The district attorney also gave Sheriff Murray Britton four warning letters to be delivered to what Alderson described as houses of prostitution.

# Navy Jets to Match MIG's

WASHINGTON (AP) — The Navy announced Monday it is sending two new types of jet fighters to Korea capable of matching the Russian-built MIG-15.

Vice Adm. Ralph Ofstie, new chief of naval air operations, told a Pentagon news conference that squadrons equipped with F-8F Corsairs and F-4J Furies are being formed on the West Coast to join Task Force 77 off Korea's East Coast.

He said both planes are expected to equal the performance of the U.S. Air Force's F-86 Sabre jets, which have been shooting down MIGs along the Korea-Manchurian border.

# West Europe To Admit Spain To 'Green Pool'

By JOSEPH DYNAN  
PARIS (AP) — The ministers of 16 West European nations voted Monday to admit Spain to their deliberations on a proposed "green" pool, an agricultural scheme similar to the Schuman Plan for coal and steel.

A Spanish representative will join the session Tuesday, making a total of 17 countries engaged in the attempt to draft a plan to wipe out national frontiers in the production and marketing of a limited range of farm products.

If the plan works as the Schuman Plan is intended to work, trade barriers would be wiped out and European agriculture would be encouraged to produce for a mass market.

Camille Laurens, French agriculture minister, said plans thus far drafted would restrict the initial operations of the pool to key products such as wheat and cereals, tobacco, fruits and vegetables, sugar, milk, meat and possibly wine.

Experts from several countries have been studying the project for the past year. The sessions are expected to last four or five days.

The invitation to Spain came on a request made by the Spanish government itself, a French official said.

The decision was described as "almost unanimous," but officials declined to say what nations were in opposition.

A spokesman said some of the ministers were in favor of bringing in Spain at a later stage of the pool's development.

# Gen. Clark on Indochina Trip

TOKYO (AP) — Gen. Mark Clark, commander of U.N. forces fighting Communists in Korea, left Tokyo by plane Tuesday for a look at another war against Reds — the fight in Indochina.

He planned to spend about five days there, inspecting French and Vietnamese forces fighting Communist led Vietminh rebels. The trip is being made at the invitation of M. Jean LeTourneau, minister for the associated states and high commissioner of France in Indochina.

Clark will stop at Manila en route to Saigon. He also may visit Headquarters Island.

# ACORNS FROM THE Oak Rooms WITH DEL MILNE

I was confronted with a very talkative railroad man last Saturday but of course I wouldn't mention the name of the railroad he is with for anything.

"Say, Del, are you trying to steal our stuff? You know that the Great Northern is the home of the big baked potato. We've spent thousands of dollars advertising that fact and now you come along with your Oak Room and serve baked potatoes that make mine seem like peanuts. Besides you throw in a chunk of butter as big as a mother's love for her nineteenth child and if it weren't for the wonderful charcoal broiled steaks I'd be real angry with you but Del, my boy, I love you and I love even more those delicious, tender, melt-in-your-mouth charcoal broiled steaks. More power to you boy and keep right on serving those big baked potatoes."

# SP Opposes Plan For Stockholder Regional Meetings

SAN FRANCISCO (AP) — The Southern Pacific Railway management said Monday it opposes a proposal that stockholders' meetings be held on a regional basis.

It said the proposal was made by two stockholders, Lewis D. Gilbert and John J. Gilbert, both of New York City.

The SP management said it considered Wilmington, Del., where the annual meetings are held, as reasonably accessible to many stockholders. The meeting is May 13. The company said its shareholders reside in every state but that about 76 per cent are east of the Mississippi.
