American Camp Week Slated

American Camp Week, April 20-26, calls attention to the slogan "Let's Go Camping." Five million boys and girls will gather during their school vacations in the ten thousand summer camps which dot the lakes, mountains and seashores of our country. Under the leadership and guidance of camp directors and counselors, who are professionally trained for their work with children, these campers will work, play and learn amid America's great natural resources.

Organized camping in America, under the leadership of the American Camping Association, has come to be recognized as one of the most effective means of conditioning young people for life in our free society. Educators are turning their attention to summer camps as a supplementary means of strengthening the work of the schools.

Children go to summer schools primarily for fun and release from the regimentation of city and school life. Here they find greater freedom of expression, closer companionship, and the opportunity to learn new skills, which in turn gives them greater self-reliance and a feeling of independence.

Children in this area will have an opportunity to attend several youth camps. The Santiam Area Girl Scout Council conducts Smith Creek Camp in the Silver Creek Falls recreational area each summer. All Brownies and Girl Scouts of this Area may attend a n opportunity to attend is offered to Girl Scouts outside of this area and non-Scouts at some of the sessions. The first session will start on June 28 with sessions running throughout July and August.
