

Small Boys 'Patched Up' by First Aidmen

It was patch up small boys day in Salem Monday for first aidmen.

Four youngsters, ranging in age from one and a half to four, managed to do everything from falling out of a tree to cutting a finger in a lawnmower.

One little tyke came back for treatment twice—for the same cut.

David Robe, 1½, of 2370 Claude St., cut the tip off his index finger in a lawnmower about 11:45 a.m.

Back for double treatment was Charles Cochran, 2, of 695 S. 18th St. He fell down about 1:30 p.m. and cut his forehead.

Trackmen's Rites Tuesday

ESTACADA (AP) — Last rites will be held Tuesday in the high school auditorium here for two members of the Estacada High School track team who were killed in an automobile accident near Eugene Friday.

The victims were Carl H. Guldenschopf, 16, and Hugh N. Holbrook, 16.

The track coach and four other members of the team were hurt in the accident. They were en route to the Hayward Relays at the University of Oregon.

Eisenhower Favors Justice Bureau Change

WASHINGTON (AP) — President Eisenhower proposed a new order of succession in the Justice Department Monday in a reorganization plan submitted to Congress.

The President wants the attorney general to be succeeded by the deputy attorney general in case of absence of disability, or if a vacancy occurs.

Herbert Brownell of New York is attorney general. His deputy is William P. Rogers, 38, a graduate of Colgate and Cornell who has served as chief counsel for several Senate investigating committees.

Since 1870 the law has provided that the solicitor general is second in command in the Justice Department.

But the President pointed out the primary function of the solicitor general now is to represent the United States before the Supreme Court, and "thus, he is not likely to be the officer of the department whose regular duties best prepare him to assume the occasional responsibility of guiding the affairs of the entire department in the capacity of acting attorney general."

Eisenhower also wants the attorney general to be authorized to prescribe the order of succession after deputy attorney general.

Under the reorganization act of 1939, the President's changes will go into effect in 60 days unless the Senate or House votes against them.

BOMBER CRASHES

HALIFAX, N.S. (AP) — A Royal Air Force bomber from Greenwood crashed Monday near Centreville in Nova Scotia's Annapolis Valley, killing six men. One survivor was taken to a hospital.

LISTEN, LADIES!

A Make's-Eye View On Feminine Follies by Mark Beebe

WE LOVE long, weeping, seductive lashes—but we also love a natural, not overly artificial, look. Wear false eyelashes if you wish, gals, but keep the fact from being too obvious

Scouts to Study Flight Program On 'Career Day'

The Willamette University Air Force Reserve Officer Training program and related flight study will be studied Saturday by Explorer Scouts during their "Career Day" beginning at 9 a. m. on campus.

Boy Scout and Air Force officials estimated Monday that about 200 participants were expected to attend.

The program is to be arranged so that one-third of the attending scouts will be in C-47 transport planes from the Portland Air Base will be on display. The scouts will be schooled in aircraft familiarization and flying procedure and

some indoctrination flights are being planned. On the Willamette campus three different classes will each pursue three different phases of study.

Study planning is under the direction of the Explorer Council, the Air Force ROTC staff and the Willamette University staff.

The miles that come in cans

Not too long ago, you took "pot luck" when you bought oil for your car. It all came out of a big drum. Whether you got the right weight and grade was often a matter of luck.

Today, there are hundreds of separate types of lubricants. Each is engineered to do a specific job in your car. Each is identified clearly for you in an attractive, tamper-proof can.

Oil, of course, isn't the only automotive product that comes in cans today. There are anti-freezes, windshield cleaners, tire-repair kits, nuts and bolts for minor repair jobs. Also waxes and car wash. These are just a few of the products that fill the millions of cans used in Oregon every year.

All are important contributions to the miles of happy motoring you enjoy. Moreover, they bring to American life economic benefits you probably

never even thought of. Thousands of jobs, for example, are created. Purchasing power is increased. New businesses are able to get started.

It's true of any business in America—people working together make miracles happen. Consumers, workers and investors have made it possible for the American Can Company to do great things in the past, and to promise even greater ones for the future.
