Dulles, Nehru Hold Private Conference

By SELIG HARRISON
NEW DELHI, India (AP)—Secretary of State Dulles and Prime Minister Nehru sat down Wednesday night for their first private talk on Asian and world problems. Authoritative sources said the Korean truce deadlock was topic No. 1.

Some 40 guests invited by Nehru to dinner in Dulles' honor discreetly drifted away after the last course and left the two statesmen alone in Nehru's air-conditioned study to begin their discussions.

They will meet again Thursday for another private talk in an effort to come to common understandings on the positions of the two nations in a world made tense by East-West differences. The United States is the acknowledged leader of the Western powers. India seeks neutrality while calling for Asian peace.

Dulles and Harold Stassen, foreign aid director, arrived in New Delhi Wednesday on a fact-finding tour of Middle East and South Asian countries. A half hour before their arrival, Indian security police arrested 200 Communists

attempting to stage an anti-Dulles demonstration near the airport. The Reds, who were carrying black flags and placards saying "warmonger Dulles, go back," were confined to a prison for several hours and then were forced to walk 10 miles back to New Delhi through blazing heat and stinging dust storms whipped by 52-mile-an-hour winds.

There was a disturbance also in Bombay. Five persons, including a policeman, were injured in a police clash there with 2,500 Communists marching to a previously selected site where they intended to burn a portrait of the American secretary. The portrait was torn in the struggle as demonstrators tried to beat off the police with sticks.

Dulles and Stassen paid a 20-minute courtesy call on Nehru immediately after their arrival by plane from Dhalran, Saudi Arabia field headquarters of the Arabian American Oil Company.

The main subject of conversation was scientific aspects of the fierce dust and sand storms now sweeping the region. The land around New Delhi is semi-desert. The Americans laid a wreath at the site of Mohandas Gandhi's cremation. Then they conferred with Indian financial and economic experts.

SACRAMENTO, Calif. (AP)—California's acreage of peas planted for freezing has been steadily expanding in recent years. The 1953 acreage of 9,200 was a new record high.

Seed Growers Unable to Get Price Supports

LA GRANDE (AP)—Representatives of grass seed growers in three counties telephoned Rep. Sam Coon Wednesday, protesting that they were unable to get sup-

port loans on 225,000 pounds of alta fescue seed.

They said they had understood their seed met government requirements, but learned too late that it didn't because it contained too much cheat grass seed.

The seed was grown in Umatilla, Baker and Union counties.
