Fluoridation Hearing Set For Thursday

Some 300 Marion county organizations and interested individuals have been invited to send representatives to a meeting on fluoridation of water supplies to be held at the Senator Hotel Thursday at 8 p.m.

The discussion program is sponsored by the Marion County Health Council, whose president, Irwin Weddle, will preside. The meeting is in response to public interest in the fluoridation issue, and an attempt to counter reports about fluorides and their effect on the teeth and general health will be made.

Date to be Cited
The recent statement by Dr. Harold Erickson, state health officer, in support of fluoridation of drinking water will be cited. In his explanation of the State Board of Health's approval of the program, he noted that "misunderstanding has led some people to refer to water fluoridation as 'medication.' Fluorides might be considered a dietary element, as they are found naturally occurring in water supplies in many areas."

Another misconception, Erickson said, is that not enough time has passed to study the possible harmful effects of fluoridation. Many communities have for generations been using water naturally endowed with more fluorides than the amount recommended in fluoridation and no cases of injury have been found, he said. "Injury impossible"

He explained that it would be impossible with the type of equipment and operation required by the Board of Health—to inject enough fluorides into a water supply to injure anyone.

Fluoridation costs between 5 and 20 cents per person per year, and it reduces decay in children's teeth up to 65 per cent, Erickson said. He added that these organizations have endorsed fluoridation "after thorough study." American Dental Association, American Dental Association, U. S. Public Health Service, Oregon Medical and Dental Associations, Marion County Health Council, Portland Chamber of Commerce.

Salem Man Named to Fire Control Post

Assignment of Earl Pepper of Salem to fill the post of technical assistant to District Warden Hal Ogle of the Klamath Forest Protective Association at Klamath Falls, was announced over the week end by State Forester George Spaur.

Pepper is a June graduate of the forestry school at Oregon State College and holds a degree in technical forestry. Prior to his Klamath Assignment, Pepper served as a leader in the 20-man fire fighting camps at Buck Springs and in Lincoln county during 1948 and 1949. In his new job, he will work on fire control and forest management.

He fills the vacancy created when Ralph Voris was promoted to field inspector for the Klamath district last year.

Spring Rains Cut Forest Fire Damage

Wettest spring season in Oregon for many years caused a great decrease in number of early forest fires, according to Vance Morrison of the state forestry department.

In May, a total of 24 forest fires were reported, burning over 102 acres of woodlands. In 1952, 60 fires burned over 333 acres of lands protected by the state forester and patrol associations during the same period.

With Oregon's forests showing the lushest green for some seasons by reason of the rainfall, the water had a reverse effect upon logging. In many areas, muddy roads had bogged down trucking and operations were 25 days behind schedule. Some mills reported they were closing down because of lack of logs. Other mills reported stockpiles in good shape, with some inventories pegged at over 30 million board feet.

In spite of the heavy rains, the Northwest district reported five lightning fires in Clatsop County in a 72 hour period Thursday and Friday. Lightning strikes were also reported in other protection districts in Western Oregon.

About 4/5 of the bicycle fatalities in the United States involve collisions with automobiles.

Announcing

Summer Term Starting June 15
Because of the steady demand for trained office help and our inability to fill all employment calls—we are now starting new classes on June 15. Others will be starting with you—some who expect to attend college, others who had just postponed making definite plans. No age limit.

New Classes Will Be Started in the Following Subjects:

Shorthand, Beginning
Shorthand, Review
Business English
Business Math
Accounting
Salesmanship

Speedwriting
Typing, Beginning
Typing, Review
Office Machines
Bookkeeping
Personal Typing

Complete Courses Offered

Which include the above subject classes: Secretarial, stenographic, Business Administration and Management, Pace & Pace Accountancy, Salesmanship.

Free Placement Service

Our placement service receives many more attractive offers from business firms than can be filled. Government and state offices, also, urgently need stenographers and other office workers.

Sen. Knowland Honored

LOS ANGELES — Sen. William Knowland (right), (R-Calif.), who delivered the commencement address at the University of Southern California's 70th annual commencement exercises (June 13), received an honorary degree of Doctor of Laws from President Fred D. Fagg Jr. They are pictured in Dr. Fagg's office just before the degree was conferred. (AP Wirephoto to The Statesman.)

4-H Group Leaves For U. S. Capital

PORTLAND (AP)—Four members of the Oregon 4-H Club left here for Washington, D.C., Sunday to attend the national 4-H Camp June 17-24.

The four, who won the expense-paid trip for outstanding records in scholarship, leadership, 4-H achievement and community service, are Marilyn Bradshaw, Albany; Marilyn Bohnert, Central Point; John Belton, Canby, and Bill Gardner, Canyon City.

Anne Bergholz, Marion County 4-H agent, now on leave of absence at Columbia University, will join the group in Washington.

Woman's Body Found in River

OREGON CITY (AP)—The body of a woman found in the Sandy River Saturday was identified Sunday as that of Miss Margaret Newlands, 42.

Miss Newlands was reported missing five weeks ago. Her sister, Mrs. John Lake, Rhododendron, said the woman was fond of taking long walks and presumably fell into the river.

The body was found by three fishermen below the Portland General Electric Dam near Marot.

NAM Names Salem Men to Committees

NEW YORK — (Special) — Headquarters of the National Association of Manufacturers announced here today the selection of two local business executives to serve on important policy committees during the ensuing year.

They are Robert C. Paulus, president of the Paulus Brothers Packing Company, Salem, who will serve on the Federal Subsidies Committee; and George F. Chambers, president of the Valley Packing Company, Salem, on the Industrial Relations Committee. The Federal Subsidies Committee checks on the effects of federal subsidies on the free enterprise system, while the Industrial Problems Committee checks on the flow and supply of industrial capital.

Through these and other committees which meet during the year, states the NAM, "management is able to explore its problems and crystallize its views on questions of a national character." The committees formulate policy recommendations on economic and industrial issues for action by the association as a whole.

Representatives of large and small industry throughout the country were selected for positions on the various committees.

Country Builds Up Match Industry

GOA, Portuguese India (AP)—Goa's first match factory hopes to reach a target of 1,000 boxes per day gross output soon and plans exports to Pakistan, Portuguese East Africa, and British East Africa.

Launched by M. B. Shaf, formerly of Zanzibar, the venture followed Shah's 1950 visit to Japan. He purchased machinery from the Toa Seiki firm, for \$210,000. Two hundred workers are now employed.

Club Formed For Fruitful Berry Raisers

A Five Ton Strawberry Club is being organized in Marion County — provided there are strawberry growers in the county who average five tons or more in an acreage of five or more.

Sponsor of the club is the Oregon-Washington Strawberry Council, which was formed recently by representative growers, processors, sales agencies and members of the state colleges. The council's broad objective is to maintain this region's place as the nation's No. 1 producer of frozen strawberries.

Purpose of the club, as explained by Council Chairman Joe J. Fisher, retiring general manager of the Gresham Berry Growers Association, is to give special recognition to growers who have increased their yields and to enable other growers to learn of the cultural practices used.

The rapid development of the strawberry industry in California, where average yields per acre exceed five tons, makes it imperative for Oregon-growers to increase the present 1 1/2 ton average here, Fisher said.

Bible School Draws Many At Jefferson

JEFFERSON — Attendance at the first day of Daily Vacation Bible school Monday was very good, 60 children being present. Wednesday was the high mark of the week with 79 children reporting. The school will continue through this week.

The theme for study is "Crusades for the King." The study books for the three age groups are Children of the King, Friends of the King and Knights of the King, exemplified in study and handiwork.

Solicitation Of Willamette Fund Begins

General solicitation of Salem area in the Willamette University \$1,000,000 challenge fund was officially launched Saturday after a captains meet on campus.

Pres. G. Herbert Smith announced that \$65,500 had been pledged to date by Salem residents.

First report date for team captains has been scheduled for June 18.

The Salem goal in Willamette's million dollar building drive is \$200,000 or 20 per cent of the entire fund. Two contingent gifts, totalling \$500,000, have been pledged to the development program. Both challenge gifts will be available upon the raising of the balance of \$500,000.

The entire million dollars will be used in Salem to erect an auditorium-fine arts building and a women's residence hall on the campus. Construction of the new buildings will be the first step in a \$5,000,000 long-range program.

Team captains in the Salem university drive, under the chairmanship of Tinkham Gilbert, are: William Phillips, Sr., Charles A. Sprague, Robert L. Elstrom, Loyal Warner, Otto J. Wilson, Robert Gormson, William Phillips, Jr., Dr. Robert M. Gatke, Maurice V. Brennen, H. Gordon Carl, Dr. Robert W. Fenix.

Peter Gunnar, Dean Mark O. Hatfield, Charles A. Paeth, Maurice Cohn, Ellis von Eschen, Dr. Robert D. Gregg, Dean Melvin H. Geist, Mrs. P. H. Brydon, Theodore Ogdahl, John Lewis, Dr. Howard W. Runkel, Dr. Hejen Pearce and Freeman Holmer.

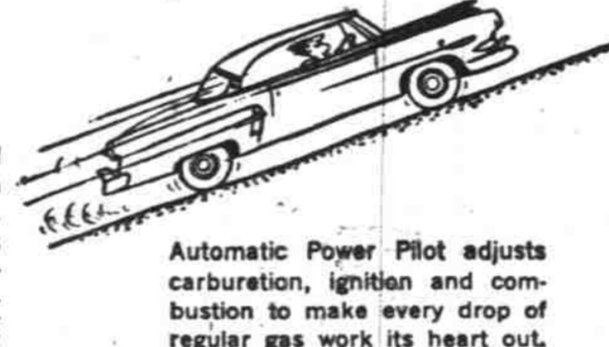

New helpers reporting, this week were Mrs. Francis Phelps, Linda Cobb, Sandra Dawson, Mrs. Gilbert Looney and Mrs. Hart Barnes.

It's our 50th "birthday" but you get the happy returns

Ford's New Wonder Ride
Test Drive a '53 Ford on the roughest road you know—and you'll think it's been "re-paved!" Ford proves for all time that a car need not have gas-eating weight and hard-to-park length to give you the smooth, easy ride you want.

Choice of Power
Ford alone in the low-price field offers you the smooth power of a V-8 engine... or so modern a Six. And both Ford's Strato-Star V-8 and Mileage Maker Six deliver this hill-leveling "go" on regular—and not much of that! Ford's

Crestmark Bodies
There's real "build" beneath the style-setting beauty of Ford's Crestmark Bodies. And where you'd expect to find rust-catching cracks—you'll find smooth, welded seams. Weather and dirt don't have an "in" anywhere in the new Ford! Then, too, extensive sound insulation lets you ride in relaxing quiet.

Suspended Pedals
Suspended from above to work easier and make foot space of the entire floor space, suspended brake and clutch pedals also are a "no entrance" sign to dirt and drafts... and they make the floor much easier to keep clean.

Fordomatic Drive
Ford gives you the fast "up-and-away" start of automatic gears plus the amazing smoothness of a torque converter—for Fordomatic is a blend of both. And with Fordomatic you can easily "rock out" of spow and mud.

Center-Fill Fueling
Another "Worth More" feature that many more costly cars still don't have! It saves fill-up time and trouble, ends "hose strafe" on fenders. And a short fill-pipe gives you extra luggage space.

Full-Circle Visibility
Ford gives you the "wide open" view you need for today's faster moving traffic. A curved, one-piece windshield, car-wide rear window and big side windows really "let in the scenery," help you drive safely and easily.

With 41 "Worth More" features, Ford's worth more when you buy it... worth more when you sell it!

Come in and See us!
We're having Open House!

Fifty Years Forward
on the American Road!
