

What's so different about this service?

Union Oil is generally credited with having the finest service station system in America. One reason for this reputation could be the importance we attach to every detail of service. For example, take our method of cleaning windshields. It's different for two reasons:

1. We use a unique glass cleaner that cuts right through the oily film caused by exhaust smoke, dust and moisture.

2. We use an exclusive Minute Man towel—an unusually soft, absorbent paper that won't scratch or leave lint. A fresh towel is used on each car. You never get a "secondhand" cleaning.

See for yourself: the difference a *truly clean* windshield can make—in added safety and enjoyment. Just drive in at the sign of the orange and blue *Seventy-six*.
