

Horse Show Plans Made

SILVERTON — With Charles Mason, chairman, committees for the Chamber of Commerce's horse show parade are laying the groundwork for what they hope will be the best one yet held.

This part of the seventh annual Western Horse Show will be seen Saturday afternoon, Aug. 1, at 2 o'clock and precedes the big performance of the evening starting at 8 o'clock.

Mason in talking about the parade Monday said that "we want to make our parade typify the old west as much as possible. Anyone in the community with a horse-drawn rig, back wagon or the popular surrey with the fringe on top is invited to add to the color and interest of the event."

All who desire to take part in the parade are asked to get in touch with Mason right away in the Style Shop.

Main body of the horse show parade will comprise the participating riders of the big night show, led by the Silvertown Saddle Club.

New School: New Belfry For Old Bell

By FLORENCE MATTHES LAKE LABISH—The Old Bell of Lake Labish has seen 42 years of service. It called many who are now on the Golden Shore! Many who listened to its deep harmonious tone are now in the four quarters and the Seven Seas.

When Prof. W. F. Rogers taught here 40 years ago it was installed. It could be heard to Brooks, to Clear Lake to Hayesville. That was because the Old Stage Road with its wagon and pedestrians was not as noisy (or as efficient) as the present mile-a-minute traffic!

The Grand Old Bell was taken this week to Labish Village where it will be installed at the church and will continue to mark time for one of the finest neighborhoods in Oregon! (Of course, everybody knows we have a \$42,000 new school.)

Ill Report Improvement

SILVERTON—Mrs. Joe Edison is reported as steadily regaining her strength at the local hospital where she is recuperating from her sixth operation. The last operation, performed a week ago took three hours to complete. Some visitors were permitted during the week-end.

Louis Dreiler returned to his home Sunday at 222 N. James Ave., after spending two weeks convalescing at the home of his son-in-law and daughter, Mr. and Mrs. Leonard Nash, in Portland. Dreiler suffered a heart attack in April and spent five weeks in the Silvertown Hospital.

Joe Marty, who has been confined to the Good Samaritan Hospital in Portland since late May, following major surgery, returned to his home on Paradise Alley Sunday. Marty, a noted apiarist, will visit cousins in the Keizer district a few days later this week, for further rest.

Services for Mrs. J. M. Nelson To Be Wednesday

SILVERTON—Funeral services for Mrs. Joyce M. Nelson, 25, will be held from the Memorial Chapel of the Ekman Funeral home Wednesday at 2 p.m. with interment in Riverside cemetery, Albany. The Rev. J. A. Luthro of Trinity Lutheran Church will officiate.

Mrs. Nelson, who was born June 17, 1928 in Reedsport, died at the Silvertown Hospital shortly before midnight Sunday. Stricken with cancer, she had been ill for several months.

Survivors are the widower, John, a member of the Silvertown police force, two small daughters, Anita Anne and Carolyn; her father, Joseph Shoemaker of Coos Bay; a brother, Philip Shoemaker, Tioga, N.D.; two sisters, Mrs. Herbert Olson and Miss Janet Shoemaker, Albany.

Girl Foresters To Picnic Today

MT. ANGEL—The annual picnic for Girl Foresters will be held at Silvertown Park, Tuesday, with former members as well as active invited. Bus transportation will be provided for all who want to go; the bus will leave the corner at the Mt. Angel bank at 5 p.m.

Girls whose last names begin with A to Z should each bring 12 sandwiches; F through I, a salad; J through N, one bag of potato chips; O through S, a dozen or more cookies, and T through Z, a jar of pickles. Ice cream and a beverage will be provided.

Knights of Pythias Set Joint Picnic

SILVERTON — The Silvertown Knights of Pythias Lodge, represented by Ernest Edman, Chancellor Commander will be host, July 28, to the Willamette Valley lodges at Coolidge & McClaine park, Silvertown.

Guests will meet at 10 a.m. in the park, coming from Oregon City, Aurora, Hubbard, Salem, Dallas and other districts. The picnic no-host dinner will be held at noon. L. C. Eastman is in charge of arrangements for the picnic and the afternoon entertainment will include games and swimming for the children, softball and horse shoe pitching for the men.

Mrs. Bennett Funeral Today

FALLS CITY — Funeral services will be held in Dallas Tuesday for Mrs. Marion Bennett, 81, who died Saturday night at her Falls City home after a stroke. She had been bedfast 6 1/2 years.

Mrs. Bennett was born August 12, 1872, in Alpena, Mich., and was married to George Albert Bennett in Seattle, Wash., Dec. 30, 1902. A lifelong member of the Third Baptist Church in Portland, Mrs. Bennett moved to Falls City 38 years ago and attended the Christian and Free Methodist churches there.

Mrs. Bennett is survived by a daughter, Mrs. Marion Hope Leterman of Falls City, and four grandchildren.

Services will take place Tuesday at 2 p.m. at the Dallas cemetery under auspices of the Bolman funeral home.

Valley Briefs

BROOKS — The Brooks Garden Club will be guests of Mrs. E. W. Brutka, Thursday, with Mrs. A. P. Sidebottom co-hostess.

KUENZI BUYS BULL — SILVERTON — Edward G. Kuenzi, Guernsey sire, Lamina Farm, from August J. Minke Jr., Mt. Angel. This young bull is out of the well-bred cow Cla-ore Monopoly's Lass, that was once classified Very Good for Type, and has a production record of 10,000 pounds of milk and 513 pounds of butterfat, made as a junior two-year-old, in the Herd Improvement Register. He is sired by Bonneville Pedro.

Dog Fast as Young Master At Scout Meet

DOYLESTOWN, Pa. — Allegretta won't eat, can't play and her heart is breaking. Her master has gone off to the Boy Scout National Jamboree in California and until he returns it looks as if Allegretta is being faithful in her fashion.

Her faithfulness entirely suits her breed for Allegretta is a black German shepherd dog whose entire two-year life has been wrapped up in her master, 16-year-old Ed Rauss.

Her sadness befits her name for it was taken from the musical term Allegretto which is not brisk as allegro, but sad and sweet and gentle.

Left on Train — The dog's rejection of any interest in life began last July 9 when Mr. and Mrs. Edward F. Rauss, loaded their son, Ed Jr., and all his gear and Allegretta into the family station wagon to take Eddie to the train for his journey to California.

When the Rausses returned, Gretta leaped from the station wagon and ran wildly through the house, sniffing and whining. Finally she gave up her search and then refused to leave the house or eat.

In Station Wagon — Two days later, Mrs. Rauss set off on an errand in the station wagon and when she returned Allegretta climbed into the vehicle and refused to leave it. Since that day the dog has refused to quit the station wagon and has nibbled only half-heartedly at two dog biscuits.

A veterinarian prescribed forced feeding and vitamin pills but Allegretta is losing weight steadily. Eddie, who heard of his pet's seige of melancholy slipped away from the activities at Jamboree City long enough to telephone Sunday night to ask if he should hurry home.

Urged to Stay — His mother said: "It's up to you son, but I think it's all right if you stay."

Later she said: "We're hoping to keep Allegretta alive with the doctor's prescription until Eddie comes home — we hope by July 30."

At the jamboree, Eddie remarked: "She did the same thing last year when I took a trip to Michigan for a month, but was as good as new when I got back."

"I miss Allegretta, but I know my folks are taking the best care of her. She'll be okay when I get home."

Eddie said he is having "the time of my life" at the Boy Scout conclave.

Hells Canyon Irrigation Plan Attacked

By JOHN KAMPS

WASHINGTON — Idaho Power Co. Monday sought to show that the proposed federal Hells Canyon Dam would prevent future irrigation development and operate inefficiently in the Northwest Power Pool.

Mark Kulp, Idaho state reclamation engineer, testified at a power commission hearing on Idaho Power's applications to build three dams in the Snake River, that upstream irrigation rights have priority in state permits granted for the projects.

He declared however, the proposed 400 million dollar federal dam — near one of the power company's sites along the Idaho-Oregon border — would impound water needed for future irrigation.

Kulp said Idaho has more than 2 1/2 million acres of land under irrigation, most of it along the Snake River, and the total should eventually be doubled. The proposed federal project, he declared, does not make allowance for stream depletion for normal increases in reclamation.

Acree to Increase — Kulp predicted the number of acres put under water along the Snake River in Idaho will increase about 30,000 annually during the next 30 or 40 years.

His testimony was substantiated by Harry M. Dewey, Twin Falls, Idaho, engineer, who testified as to results of a survey he made for Idaho Power in the past nine months on the irrigation potential of the Snake Valley above the Hells Canyon Dam site.

Dewey said information for his survey was obtained from Idaho Power Co., Utah Power and Light Co., Army Engineers and the federal Reclamation Bureau. He is a former employe of the Army Engineers in the Reclamation Bureau.

During 70 Years — Dewey traced the development of irrigation in Idaho during the past 70 years. He said acreage under water increased from 200,000 in 1880 to more than 2,800,000 in 1950.

Lester Cowgill of Portland, Ore., coordinating engineer for the Northwest Power Pool, testified that some large reservoirs do not operate at capacity in the production of power because they are "hard to fill."

He said he was not familiar with the federal Hells Canyon proposal, but that Hungry Horse and Canyon Ferry reservoirs in Montana are examples of projects in the "hard-to-fill" category.

Hungry Horse dam is in the Flathead River and Canyon Ferry is in the Missouri.

Reservoir Not Filled — Cowgill said there hasn't been enough water in the Flathead to fill Hungry Horse reservoir during any year in the past 22 years.

Addition of more "hard-to-fill" reservoirs in the Pacific Northwest would increase the margin of error made in trying to regulate reservoirs operated in the power pool, Cowgill said.

He explained that such reservoirs cannot be emptied, but must be kept at high level for use in critical periods since river flow isn't adequate to fill them.

Idaho Power contends the vast 90-mile-long Hells Canyon reservoir, which would contain four million acre feet, could not possibly be filled annually and at the same time satisfy upstream irrigation needs.

Cowgill said the Northwest Power Pool considers all power facilities, federal and private, in setting up operation patterns in advance.

Peaks Provide Scenery for Young Hikers

A moment of a week-long hike along the rim of the Cascades by two Salem boys is this picture taken by Richard Richardson, 16, son of Mr. and Mrs. H. J. Richardson. It shows his hiking companion, Chester (Sam) Cushing, 17, son of Mr. and Mrs. Chester Cushing, standing on Grizzly Peak above Lake Pamela with snow-covered Mt. Jefferson in the background.

Seventh Day Adventists to Build School

GLADSTONE — The town of Milo east of Canyonville in Southern Douglas County has been selected as the site for a million-dollar Seventh-day Adventist school, church officials reported Sunday.

About \$200,000 already has been spent on the 447-acre tract to install a water system and a dairy with several barns. Dr. Andrew Nelson, told the Adventists' annual camp meeting here.

Nelson, who is president of the Philippine Union College, said the church has \$344,000 to begin construction this fall of two dormitories and other buildings. Each dormitory will accommodate 150 students, he said.

The academy is to be a preparatory boarding school for students through the 9th to 12th grades, he said.

late reservoirs operated in the power pool, Cowgill said.

He explained that such reservoirs cannot be emptied, but must be kept at high level for use in critical periods since river flow isn't adequate to fill them.

Idaho Power contends the vast 90-mile-long Hells Canyon reservoir, which would contain four million acre feet, could not possibly be filled annually and at the same time satisfy upstream irrigation needs.

Cowgill said the Northwest Power Pool considers all power facilities, federal and private, in setting up operation patterns in advance.

Thornton Slates Talks With DAs

Attorney General Robert Y. Thornton is slated to spend Tuesday in Hood River and The Dalles where he will confer with district attorneys and member of The Dalles city council with relation to law enforcement problems.

Thornton will address The Dalles Lions Club at noon and a group of Wasco County Democrats at night.

Truck, Train Wreck Fatal

EUGENE — Jerry Lou Eanes, 15, was injured fatally Monday in a truck-train collision at a crossing 36 miles southeast of here.

Another occupant of the truck, Mrs. Mabel E. Napier, 25, was taken to Oakridge Clinic in critical condition.

The collision happened at Westfir a community about two miles from Oakridge. The train was the northbound Klamath, No. 20.

Seaman Hurt As Line Parts

SEATTLE — A Coast Guard plane from Port Angeles is flying a Seaside, Ore., merchant seaman, Howard Loveland, to Seattle for treatment of injuries received when a mooring line parted on the freighter, California.

The Coast Guard plane picked him up at Coos Bay, Ore. Loveland will be taken to the Public Health Service hospital here.

No Opposition Heard to Milk Marketing Change

PORTLAND — A proposal to reduce the number of control zones in the state from 31 to 19 and to place seven counties in the Portland zone was presented at a state milk marketing administration hearing Monday.

The Portland control zone would comprise Multnomah, Clackamas, Columbia, Marion, Polk, Yamhill and Washington counties.

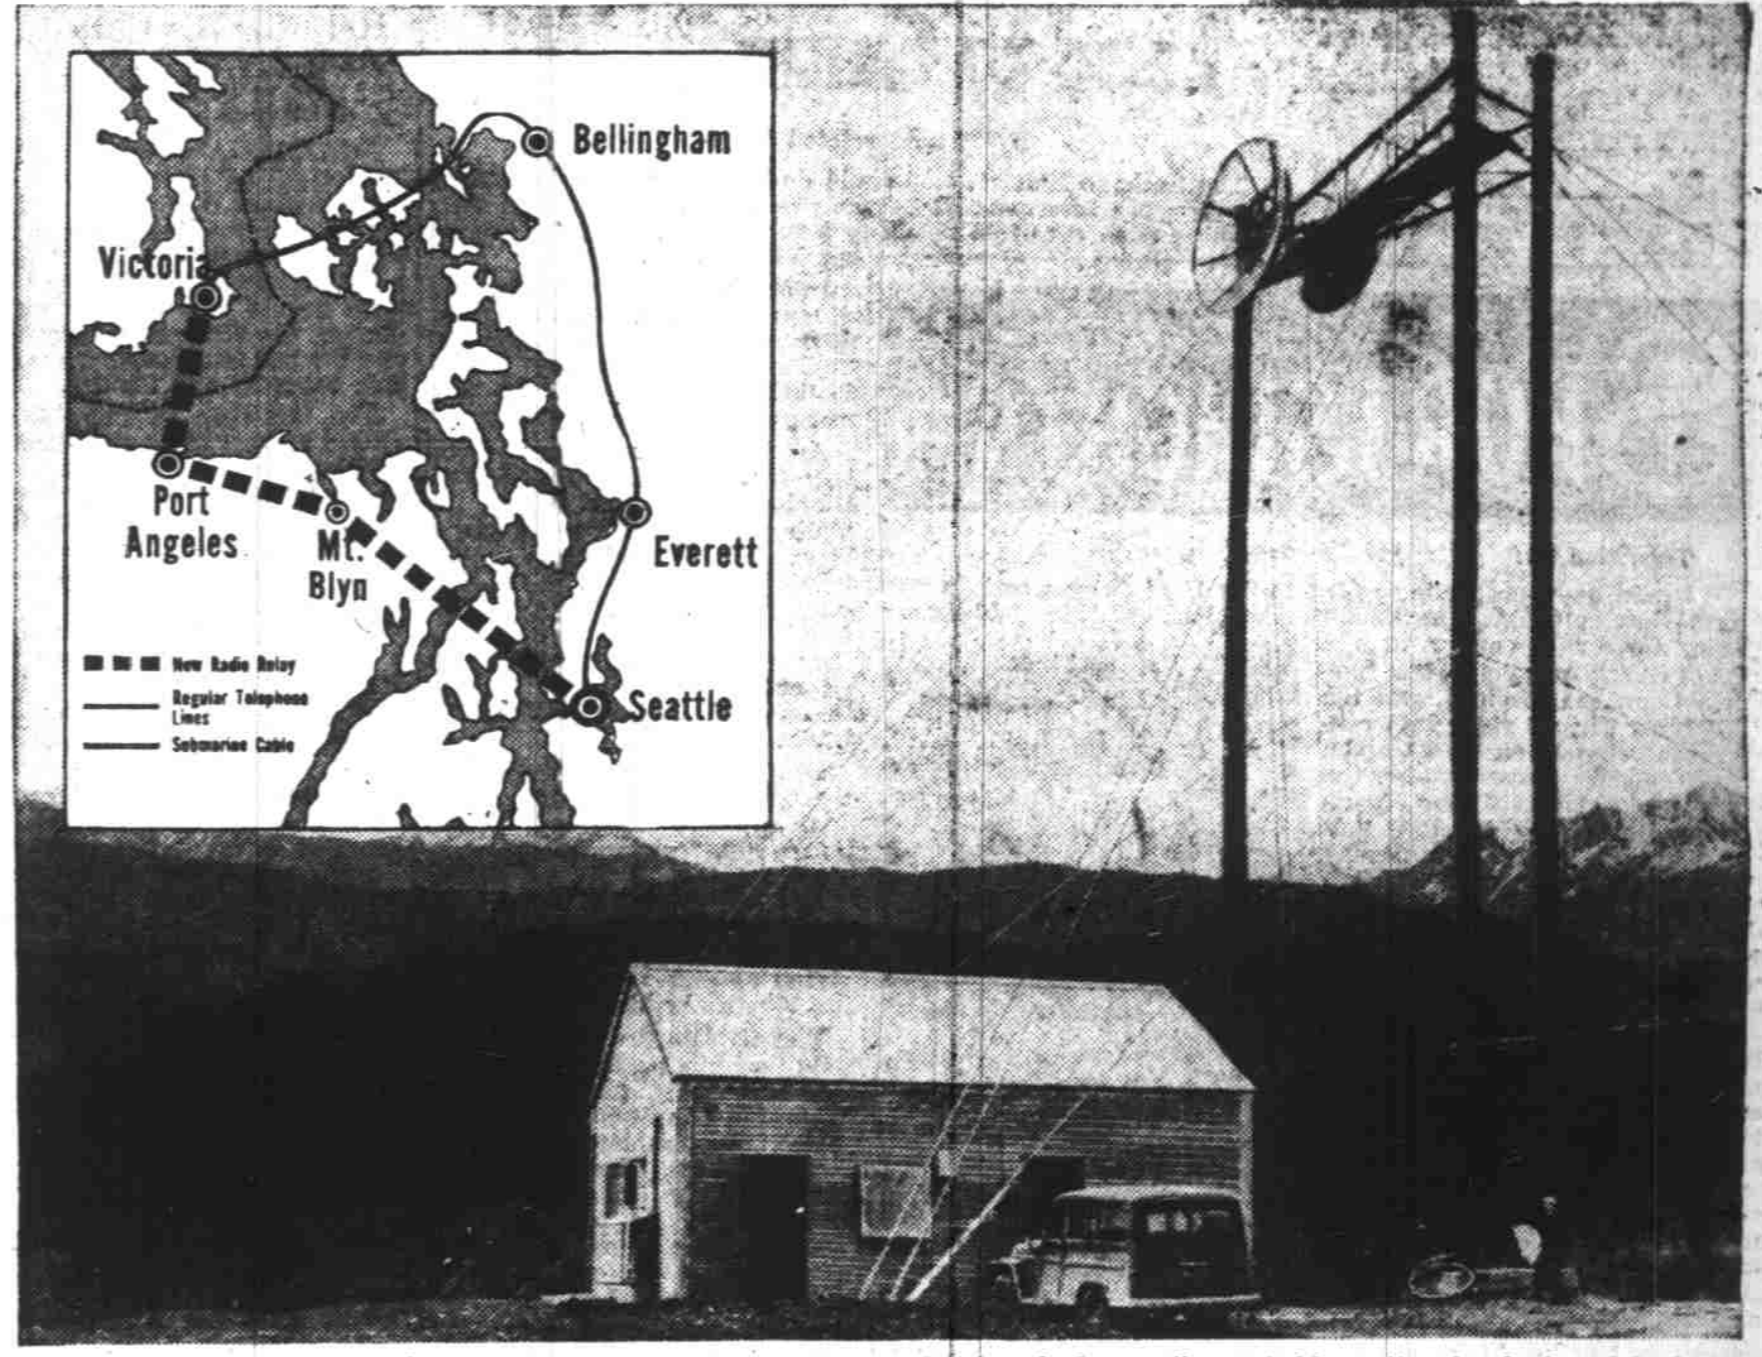

No opposition to the re-zoning plan was heard and decision probably will be made at the board's next meeting.

WAITRESS COLLAPSES — Dolores Ward, 706 N. Commercial St., waitress at the Senator Hotel, fell and struck her head Monday afternoon while at work and then about an hour later collapsed. First aidmen were called and she was taken to Salem General Hospital where she was being held for observation Monday night.

Until the age of 8 or 9, children normally are farsighted.

How To Hold FALSE TEETH More Firmly in Place — Do your false teeth annoy and embarrass by slipping, dropping or wobbling when you eat, laugh or talk? Just sprinkle a little FASTEETH on your plates. This alkaline (non-acid) powder holds false teeth more firmly and more comfortably. No gummy, gooey, pasty taste or feeling. Does not sour. Checks "plate odor" (denture breath). Get FASTEETH today at any drug store.

Gibson Refrigerators - Freezers Ranges - Air Conditioners See Them At Capitol Fuel Co. 198 S. Commercial Ph. 3-7721

This tower atop Mount Blyn, Washington, is an intermediate station for telephone calls carried by radio-relay back and forth across the international border between Seattle and Victoria, B. C.

UNDERWATER TELEPHONE CALLS TAKE TO THE SKY

Radio-relay now carries many calls over Pacific coastal waters

Long distance calls between Seattle and Vancouver Island, in Canada, are now traveling by air... beamed on microwaves from one radio-relay tower to another much as a searchlight's rays are directed. These calls were formerly carried through submarine cables on the floor of the 900-foot-deep Haro Strait. But, because of extreme tidal action, the Haro Strait telephone cable had to be replaced every three or four years. Now, the new radio-relay system will do the same communications job at less cost.

2. More and more long distance calls, as well as television programs, are now being carried on radio-relay facilities here in the Pacific West. This, and other improvements in recent years, is one of the reasons your long distance calls are going through fast these days... in most cases, while you hold the line.

Radio-relay helps keep costs of telephone service low

Installing radio-relay facilities in place of submarine cable opens new voice highways and helps reduce the cost of providing service. This is one of many ways we are constantly improving telephone service while holding its cost down — keeping it so low, in fact, that your telephone remains one of your best buys today.

1. Catalina Island, too, is being served by microwave radio. This link crosses the twenty-five-mile ocean channel between the Island and southern California mainland, supplementing service provided by underwater cable. This has increased the number of telephone circuits available to meet growing needs and saves installing additional cables.

Pacific Telephone
