Here's One Fire Towed Back 'Home' to Trucks

OTTAWA, Kan. (AP) — When the fire trucks couldn't go to the fire, they brought the fire to the trucks.

A diesel engine caught fire outside the city limits and the trucks were prohibited from leaving town. The railroad hooked a switch engine to the train and pulled it into the city limits where the firemen did their duty.

2 Frenchmen Die in Attacks In Cambodia

SAIGON, Indochina (AP) — Two Frenchmen were killed and 13 persons were injured in a series of terrorist attacks over the weekend in Phnom Penh, capital of Cambodia. In the list of injured were seven Frenchmen and two Swiss.

One Frenchman was killed and 12 persons were injured when a grenade was thrown into a dance hall. An employe of the Swiss Consulate in Saigon, who was passing the weekend in Phnom Penh, was among the injured.

A little later two French policemen making their rounds were attacked by the terrorists. One of the policemen was killed by pistol shots and the other was severely wounded.

Jean Ristruel, French commissioner to Cambodia, called off a trip he was scheduled to make to Saigon because of the attacks. He protested to Cambodian Premier Pen Nouth. A meeting of French and Cambodian officials was called on measures to be taken to assure the safety of French residents.

If ice is put into water and the two cooled the temperature of both will remain 32 degrees Fahrenheit until all the water is frozen.

U.S. to Favor Seating Soviet At Korea Meet

(Story also on page one.)

UNITED NATIONS, N.Y. (AP) — The United States announced Sunday night it would vote for Russia's participation in the forthcoming Korean political conference "provided the other side desires it."

A carefully worded resolution—sponsored by Australia and New Zealand — apparently averted a threatened floor fight in the U.N. General Assembly between the United States and Britain over the issue.

Although the two big Western powers said they were prepared to support the proposal, they disagreed sharply on its interpretation.

U.S. Delegate Henry Cabot Lodge Jr. said it met U.S. demands that Russia should sit on the Communist side. British sources said it meant just what it said: That Russia could come if the North Koreans and Chinese Communists desired it.

The United States and Britain remained split over the proposed participation of India in the conference. Britain joined with Canada, Australia and New Zealand in sponsoring India's participation. Lodge promptly announced the United States would not vote for the proposal.

These were two of the four resolutions produced in a week of behind-the-scenes talks by the 16 countries which have fought under the U.N. banner in Korea. They will be put before the 60-nation assembly when it meets Monday afternoon.

The other proposals:

1. A recommendation that any of the 16 U.N. allies could take part in the political conference if they desired. About ten countries are expected to accept. The Republic of (South) Korea also would attend.
2. A 16-nation resolution expressing satisfaction with the armistice and paying tribute to the soldiers who fought for the U.N. in Korea. Lodge told a news conference the United States has consistently been willing to have the Soviet Union participate in the conference "on the Communist side in order that it shall bear its share of responsibility and accountability for peace."
- "We didn't think Russia should be there on our side or as a neutral," Lodge said. "In that position, we have not been going it alone. There is substantial agreement on that."
- Speaking of Indian participation, Lodge said: "That is the one point on which we don't see eye to eye with our associates."
- He said he saw no way to include India under terms of the armistice agreement, which referred only to representatives of the two sides.
