### **Woodburn Adopts** New System of Fire-siren Blasts

Statesman News Service WOODBURN - A new firealarm system is in operation for the Woodburn rural and city areas, according to Floyd Maricle, fire chief.

Hereafter, one blast on the siren will indicate that the tanker truck is to be sent to Gervais or out on a grass or chimney fire requiring only a few firemen. Three blasts will indicate a fire involving a house, barn or building requiring all members of the

fire department. The old system of one blast indicating a fire outside of Woodburn and two for a fire within the city limits has been discontinued. The new signals are designed to conserve manpower by not calling out all firemen on all calls.
