Homecoming At Mt. Angel College Oct. 11

Statesman News Service
MT. ANGEL—The annual Homecoming for former students of Mt. Angel Women's College and Academy is set for Sunday, Oct. 11, from 2 to 5 p. m.

The college, academy and campus will be available for visiting throughout the afternoon. Tea will be served in the academy gym, and the business meeting will be held in the college auditorium.

This year, the graduates from the years ending in "three," from 1893 to 1953, will be given special recognition. It was agreed at last year's meeting that each year a different set of students would be so honored.

Present officers of the alumnae association are: Theresa Dehler, president; Gladys McGee-Fessler, Bertha Bronkey-Bentley, Margaret Frank, Suzanne Walker and Vernice Mickel-Gale, are vice-presidents and Sister M. Ida, OSB, secretary-treasurer.

Highway Facts Heard by Club At Mt. Angel

Statesman News Service
MT. ANGEL—W. C. Williams, assistant state highway engineer, gave Mt. Angel business men some pertinent facts and figures on Oregon highways at a dinner meeting of their club Monday night.

The new coach and assistant of Mt. Angel Prep, Ray Utz and Mario Monaco, got their first introduction to the club. Mayor Berchold made an earnest appeal for funds for Korean children.

Utz, fresh from his team's first victory, expressed his pleasure at working with such an "eager" group of boys.

Father Cyril, pastor, endorsed the mayor's appeal.

Williams explained how the five-year program for major highways had cut in on the secondary roads, like those leading to and from Mt. Angel, leaving few funds to be spent on them. He hoped, however, that in a year or two the highway department could concentrate on these lesser highways leading to the main arteries of the country.

He commended the town for its persistent, wide-awake committees, councilmen and mayor who keep knocking on the door of the highway commission asking for road improvement.

Some interesting figures showed that 11 million was spent each year on maintenance of roads in the state, \$700,000 to remove snow from the highways, \$300,000 for sanding and \$250,000 for stripes and lines. Williams also stated that blacktop or asphalt pavement costs less than
