Here will be a complete gymnasium and many other facilities that were lacking in the crowded old building now being replaced at 768 State St. The new structure will have two stories, mezzanine and full basement.

Elementary School Heads End Conclave

Resolutions dealing with school administrators' training, after-school duties for teachers, supervision of "intraining" teachers and contracts were passed in closing sessions Tuesday by delegates to the Oregon Elementary School Principals' Association in Salem.

Delegates, meeting at First Christian Church, adopted a controversial resolution recommending the "policy of continuing contracts after a probationary period, for school administrators in districts where the state tenure law is not in effect."

One delegate opposing the resolution, said that "if you are good you have a job, if you are not you should move."

Other resolutions passed called for further improvement of state requirements for certification of school administrators and to improve their training; asking the state to standardize policies regarding the giving of professional credits or pay to teachers and administrators who supervise "in training" teachers.

Delegates also asked the Oregon Education Association to make a study of practices and policies of school districts in the assignment of teachers to after-school duties such as for curriculum studies, programs for new teachers and workshop planning, for the purpose of standardizing such practices.

Other resolutions called for changes in the association constitution so that there will be six districts in the state instead of five, the sixth to be in Portland. Delegates also thanked the Salem Chamber of Commerce and First Christian Church women's organizations.

Lloyd Lewis of Prineville was installed as new president Tuesday. Other officers include Harold Shepard, Tillamook, first vice president; Lovina Wilson, Eugene, second vice president; Russell Hollinshead, Terrebonne, secretary; Florence Beardsley, Salem, treasurer; Virgil Moss, Bend, state membership chairman and national department delegate.

NLRB Receives North Bend Case

NORTH BEND, Ore. (AP)—A case that may result in a test of Oregon's new anti-picketing law went before a National Labor Relations Board examiner here Tuesday.

The case involves the AFL Teamsters and Stamper's J & J Tire Co. of Coos Bay. The union accused the firm of unfair labor practices in threatening reprisals against employees and refusing to recognize the union.

The firm has asked a circuit court injunction against picketing started by the union in July. The court has taken no action. The court case is expected to provide the test of the anti-picketing law.

Italy Divisions Move Closer To Yugoslavia

WITH THE ITALIAN ARMY NEAR THE YUGOSLAV BORDER (AP)—Camouflaged units of Italy's crack Folgore (Lightning) Infantry Division moved into positions Monday near the strategic elbow of Yugoslavia, Italy, and the Allied-occupied zone of Trieste free territory.

Troops, tanks, and artillery of the division moved under cover of early morning darkness into the area a few miles north of the shipbuilding city of Monfalcone on the Gulf of Trieste.

They were the first Italian troops known to have been thrown across a possible Yugoslav entry route toward the narrow neck which connects British-American occupied Zone A of Trieste with Italy.

They also are the first Italian soldiers to move within a few miles of Zone A, on which Yugoslav President Marshal Tito has threatened to march if a single Italian soldier enters the zone after British and American forces withdraw.

Dispatches from Udine said roads from there to the Gorizia frontier were rutted Monday night with the heavy tread of U. S. built Patton tanks.

Some residents of Gorizia were reported evacuating voluntarily to towns further from the troop-guarded frontier. Some persons arriving at Udine from the border zone said Yugoslavia has been moving "irregulars" or "partisan bands" into the Yugoslav side of the frontier.

The camouflaged troops began digging in within sight of the high hills across the Yugoslav frontier. Many of the units are less than two miles from the border and within seven miles of Zone A.
