

# U. S., Reds to Start Work of Choosing Korea Parley Site

By SAM SUMMERLIN  
**PANMUNJOM** — American and Red diplomats agreed Monday to get down to work immediately on naming the site, time and nations invited to a Korean peace conference.

The thorny problems will be taken up by two subcommittees meeting simultaneously, starting Tuesday.

One will discuss the composition and site of the fateful peace conference. The other will seek to fix the time.

U. S. Envoy Arthur H. Dean announced the plan Monday after a 1 hour 13 minute meeting with Chinese Red and North Korean representatives.

They succeeded in adopting an agenda for their preliminary talks Saturday after three weeks of deadlock.

**Dec. 15 Suggested**

Dean said he had suggested to the Reds that Dec. 15 be named as the starting date of the peace conference. He said the United

Nations favored San Francisco, Honolulu or Geneva, but "we are open-minded about the place to meet."

He said he stressed again to the Reds the Allied determination to limit the nations invited to the conference to those who had participated in the Korean War.

The Reds want Asian neutrals invited. Their list includes Soviet Russia.

**Dean to Confer**

Dean said he would meet with the Chinese envoy, Huang Hua, and the North Korean envoy, Ki Sok Bok, on the subcommittee charged with settling the composition and site of the conference.

Edward Martin, State Department expert on the Far East, and Col. Stanton Babcock will work on the subcommittee which must set the date.

Dean said South Korea would be represented at the meeting on composition and place by Vice Minister of Foreign Affairs Cho Chang Hwan and at the meeting on time by Col. Lee Soo Young, veteran truce negotiator. Each will attend as an observer.

**Meet Uneventful**

The U. S. ambassador said Monday's meeting was "uneventful" with "no fireworks on either side."

The subcommittees will meet in separate buildings astride the demarcation line.

They will decide Tuesday whether to keep their work secret or issue communiques after each meeting.

Washington sources reported that the United States would be willing for India to sit in on the conference provided it is agreeable to South Korea's President Syngman Rhee who has been bitterly opposed to this.

**Russian Position**

The United Nations already has decided Russia might attend on the belligerent side at the invitation of the Chinese and North Korean Reds.

Dean and U. S. Vice President Nixon, who toured Korea over the weekend, expressed satisfaction over the agenda agreement. It was the first progressive step since Dean opened his talks with the Communists Oct. 26.

"This is just the key that opens the door," Dean cautioned. "The real hard work is just commencing."

**More Negotiations**

The Allied camp is prepared for more wearing weeks of negotiations with the North Korean and Red China Foreign Ministry officials.

So far, the Reds have dragged their feet on even the smallest issues. It required three weeks for the diplomats to even decide what to talk about in preliminary conversations.

There is a strong feeling that the Reds may have in mind delaying the start of the conference until late January. By such a postponement, the Reds could escape having the embarrassing prisoner of war question aired at the public forum.

The armistice allows the political conference to discuss for 30 days the fate of thousands of former Red soldiers who renounced Communism.

However, time runs out in late January for these prisoners. By then, the truce says, all prisoners who have refused repatriation must be released to civilian status and helped to go to a country of their choice.

# Politicos Don't Agree on Effect Of White Case

By JACK BELL  
**WASHINGTON** — The chairman of the Democratic and Republican National Committees disagreed Sunday on whether Communist-in-government will be a campaign issue next year.

Discussing the Harry Dexter White controversy in a TV interview (CBS "Man of the Week"), GOP National Chairman Leonard Hall said Communism would be a major issue in 1954.

He particularly stressed that in the four months under the new security law, 1,456 security risks had been ousted from government employ.

But Democratic National Chairman Stephen A. Mitchell disagreed. He told a Beloit, Wis., news conference:

"I don't think the people will eat warmed over spy."

He said Atty. Gen. Brownell's charges that former President Truman promoted White despite reports from the FBI that White was a spy were "backed up by all the tricks of propaganda and party system."

Mitchell called it a plan "very deliberately conceived and carefully sprung."

Meanwhile, veteran politicians agreed that so far the Republicans and Democrats have fought to a political tie in the White case. Both sides, however, were expected to fire heavy barrages this week.

**Shoulders Returns From Hawaii Trip**

**ST. LOUIS** — Louis Shoulders, former St. Louis police lieutenant who cracked the Bobby Greenlease case, arrived back home Sunday night after a vacation in Hawaii with the woman he hopes to marry.

Shoulders said he had not been asked to testify in the kidnapers' trial which starts at Kansas City Monday.

Shoulders and Miss June Marie George vacationed on the island of Maui, where Shoulders' son, Bruce, is employed.

The former officer, suntanned and sporting a short haircut, appeared in a pleasant mood when newsmen met him at the airport.

But when reporters questioned him about the case he said: "Go away and leave me alone. I have been patient enough. Now leave me alone."

Then Shoulders and Miss George walked to a waiting car, where his brother, Harvey, and an unidentified couple waited.

Shoulders said earlier he was going to try to get a divorce from his wife here.

"I'll make a settlement with her," he said. "We own a piece of property jointly and I'll give it to her."

Asked why he returned to St. Louis, Shoulders replied: "Sometimes you got some business things coming up." He would not elaborate.

He said his future plans were indefinite.

**Car Rams Boxcar, 2 Men Injured**

**KLAMATH FALLS** — Two men were injured seriously early Sunday when their automobile rammed into a boxcar parked on a siding.

The impact derailed the boxcar and threw the two men, A. Kellert, 67, Kirby, Ore., and his son, Harry, 25, through the windshield of their car.

Police said there was a heavy fog in the area at the time of the smashup.

**Bombs Explode In Cuba City**

**HAVANA, Cuba** — Continuing what seems to be a synchronized terrorist campaign on the main cities of the country, four small bombs exploded Saturday night in Santiago de Cuba. The blasts caused alarm but no damage or victims were reported.

It also was reported from Santiago that police seized an unexpected cache of arms while searching in apartment where the tenant had slain his wife, taking his own life afterward. Police said the arms included five rifles and four pistols.

**Hallinan Plans to Seek New Trial**

**SAN FRANCISCO** — Attorney Vincent Hallinan, convicted Saturday night of federal income tax evasion, plans to seek a new trial.

Hallinan, 58, last year's independent Progressive Party presidential candidate, was convicted on five counts of tax evasion. He was acquitted on two counts. His wife, Vivian, also charged on seven counts, was acquitted on all.

Hallinan is free on \$2,500 bail. His conviction, involving evasion of \$36,739.32 during the years 1947-50, carries a maximum penalty of five years and \$10,000 on each count.

# Morse Tells Plan to Curb Excess Crops

**PEDEE** — Speaking to a predominantly farm audience at the Pedee Farmers Union Saturday night, U. S. Senator Wayne Morse outlined his plan to eliminate farm surplus products.

He proposed that the U. S. form agreements with backward countries which permit American investors to develop resources in those countries for private profit. In return American surplus commodities would be exchanged, he said.

Morse renewed his demand that President Eisenhower call a special session of congress to study farm problems. He added that there is some thought in Washington that if action is delayed until next spring, it may be too late to aid the farmer.

**Not "Giveaway"**

In his plan to reduce farm surpluses, Morse declared that it would not be a "giveaway" program but rather a cooperative enterprise among nations to increase world trade. He deplored the storing of food as a way to raise or peg prices. He said that from 30 to 60 percent of stored food came out of warehouses unfit for human use.

The Senator was scornful of talk that tagged farm subsidies as "creeping socialism."

**To Carry Fight**

In discussing the Hells Canyon issue Morse said he and other liberals in the Senate would fight through to the Supreme Court if necessary. "If this administration continues the raid on natural resources of the nation, the speech I'm going to make in the next session will make my 22-hour marathon of the last session look like an introduction," he declared.

At Hells Canyon would allow maximum development of all the river's resources and provide a yardstick to keep private utility rates down.

Dewey Cummins, president of the Pedee Farmers Union, presided at the meeting. Before his talk, Senator and Mrs. Morse were guests at a no-host supper served by women of the local.

**Wreck Kills Creswell Man**

**COTTAGE GROVE** — Wesley Howard Berhow, 24, Creswell, Ore., died early Sunday in a hospital here from injuries suffered in an automobile crash two hours earlier.

Deputy Coroner Robert Mills said Berhow's car skidded on wet pavement and smashed into a bridge abutment on the Pacific Highway one mile north of here. He suffered a broken neck.

Berhow recently came to Oregon from Mason City, Iowa, where his parents, Mr. and Mrs. Harley Berhow, still reside.

**Ships Collide Near Oakland**

**OAKLAND, Calif.** — Two ships collided in fog-shrouded San Pablo Bay Sunday but damage was not extensive and no injuries were reported.

The accident, northeast of San Francisco, involved the Marine Runner, operated by the Pacific Far East Line, and the Union Oil tanker Santa Paula.

A Coast Guard hearing will be held Monday.

**Typhoon Aims At Philippines**

**MANILA** — A typhoon, swirling at 100 miles an hour in the Pacific southeast of Luzon Island, was expected to hit Legaspi Monday afternoon and blow through the central Luzon provinces of Quezon, Bulacan and Pampanga Tuesday.

The Weather Bureau said the storm was moving northward at 14 miles an hour.

**Britons Engage in Monkey Chase**

**RYTON-ON-DUNSMORE, England** — Down Main Street came a wagonload of monkeys. The wagon overturned. Fifty screaming monkeys piled out through a hole in the roof, and 100 shouting villagers turned out to give chase.

The cunning villagers brought out enticing scraps of food, grabbed monkeys that fell for the bait and popped them into sacks.

At dusk the score was: 35 caught, 15 at large. Those still free were last seen heading for the bright lights of nearby Coventry.

# Appointed

**WASHINGTON** — U. Alexis Johnson of Glendale, Calif., recently appointed by President Eisenhower to be ambassador to Czechoslovakia, poses at his Washington home. Johnson, a career diplo. at, was born at Falun, Kan. He is 45. (AP Wirephoto.)

**4 Die, 16 Lost, Ship Collision Off England**

**DUNGENESS, England** — At least four men were killed and 16 others were missing after the French steamer Perou and the Italian freighter Vittoria Claudia collided early Monday in the English Channel.

All the dead and missing were from the 2,745-ton Italian vessel which sank 2 1/2 miles off the south east coast of England.

The British pilot cutter Pelorus reported by radio it had picked up five survivors and three dead men from the Vittoria Claudia's crew of 25.

The Perou said another member of the sunken ship's crew died aboard the French steamer from injuries received in the collision.

The extent of damage to the 7,264-ton Perou, which sails out of Le Havre, was not immediately reported.

A radio message from the Pelorus said she and "plenty of other boats" were still searching for the missing men.

**Rescue Flying Boat Missing**

**REYKJAVIK, Iceland** — An American 3rd Air Force amphibious two-engine rescue flying boat was missing Sunday night on a flight from Iceland to Greenland. Five men were aboard.

The plane was en route from England to West Palm, Beach, Fla. An hour and 20 minutes after taking off from Iceland at 8:25 a. m. (4:25 a. m., EST), the pilot radioed the plane, an SA16, had developed engine trouble and was turning back. That was the last heard from the plane.

**Army to Observe Thanksgiving Day Holiday in Korea**

**SEOUL** — Thanksgiving Day will be the first Army-wide holiday in Korea since before the war.

Troops also will be excused from "all routine duties" on Christmas and New Year's Day. Gen. Maxwell Taylor's 8th Army headquarters announced Monday.

The Army directive allows commanders of forward combat units to rotate their men "to permit a period of equitable relief from duties" on main battle positions.

Maintenance details will be on duty during the three holidays to "insure security" and offices will maintain skeleton crews to process "emergency" matters.

**Churchill Optimistic Over Peace Prospects**

**LONDON** — Prime Minister Churchill said Sunday "prospects for peace grow stronger and the feeling is that the world is on the mend."

He made the observation in a message to the Conservative candidate in a House of Commons by-election.

# Greek Royalty Taking Trip to Grand Canyon

**LOS ANGELES** — King Paul and Queen Frederika of Greece, smiling and waving but appearing tired after a busy three-day visit here, left by train Sunday to view the Grand Canyon.

They are scheduled to make their next public appearance Wednesday at Houston, Tex.

Before leaving, the royal couple had met informally with members of the press who had been covering their visit and Saturday night, at their own request, they stood side by side to shake hands with the more than 1,000 persons who had attended a banquet in their honor.

Queen Frederika was asked to speak at the banquet.

"We have heard several times tonight why you Americans like us," the charming monarch responded. "Now I would like to tell you briefly why we like you."

"Never have we found so much human sympathy and understanding as we have here in America and in Los Angeles. As an example the members of your press today agreed to permit us to go shopping alone."

"They really acted against their own interests. This is something that we appreciated."

**Ardent Policeman**

"As another example, when we arrived at the Coliseum this afternoon I noticed a policeman in the accompanying motorcade was dripping wet. He came to the window of the car and said to me, 'Thanks for letting me look after you. I would have done this barefooted.'"

"Are you surprised that we have fallen in love with you?"

King Paul and Queen Frederika Saturday saw their first U. S. football game in the rain at the Memorial Coliseum.

And although they were scheduled to watch only the third quarter of the UCLA-Washington game, King Paul three times said "no" when it was suggested they leave the press box as per schedule. They stayed until a minute before the game ended. The king also ate his first hot dog.

**Trieste Riot Threat Halted**

**TRIESTE** — Civil police Sunday broke up small groups of Trieste attempting to gather in downtown areas. Police acted after Allied Military Government officials warned of threats of possible new demonstrations.

Radio cars patrolled streets in larger numbers than usual and police motorboats kept the harbor under close scrutiny to prevent small craft from approaching three British frigates docked here.

A youth threw two grenades at an apartment of an Italian family. One crashed through a window and the other exploded outside. No one was injured and the damage was slight.

**Burned Body Of Man Found In Car Trunk**

**ERIE, Pa.** — Firemen found the burned body of a retired boat engineer stuffed in the locked trunk of his flaming auto in nearby Greenfield Township Saturday night. Police labeled it murder.

The victim was identified as George Harrington, 70, of 543 West Main Rd., Lakeville, Ohio.

An autopsy was ordered to determine the cause of death. Only the lower part of Harrington's body was burned.

John Coates, chief Erie County detective, said "we are quite sure it was murder." He said he and State Police theorize Harrington may have been slain by a hitchhiker.

State Police said Harrington left home Saturday morning in his car to distribute literature for the Jehovah Witnesses, a religious group, in Erie County.

# Caudle Doubts 'Spy' Used in White Report

**WASHINGTON (AP)** — T. Lamar Caudle said Sunday night that the controversial report on Harry Dexter White startled him with its damning evidence but he doesn't believe the word spy was used to describe White.

Interviewed on the NBC TV show "Meet the Press," Caudle said he still couldn't recall exactly what was in the report that passed across his desk when he was head of the Justice Department's Criminal Division in 1946.

Eight years is a long time, he said, but he had tried in vain to recall details of the report, which has never been made public.

Caudle said that he did remember the report was "red flag to me." He recalled that it consisted of raw or unevaluated evidence without conclusions, as is usual in such FBI investigations.

But Caudle did know that if the facts in the report were true "something ought to be done about it . . . something had to be done quick."

He said he knew White's nomination as a director of the International Monetary Fund was pending and he was afraid "something might slip by the President or the attorney general."

**Estell Named Vice Chairman By Young GOP**

**QUINTIN ESTELL, Silvertown attorney, was chosen vice-chairman for the 1st congressional district by the board of the Oregon Young Republican Federation at a business meeting Sunday morning.**

Chosen to represent the other districts in the concluding action of the 1953 Young Republican convention held in Salem on the weekend were John Christofferson, Portland, second district; Paul Mettinger, Pendleton, third; and Winton Carl, Medford, fourth.

The board voted to advance \$75 toward defraying expenses of Ron Johnson, Adams farmer, as the federation's delegate to the National Young Republican Farm Council meeting in Chicago early next month.

George Jones, newly elected state chairman of the federation, said the board felt the state should be represented at the council because of the current farm policy problems.

**OSEA Resolution Praises Officials**

Members of the Oregon State Employees Association, at the close of their annual council meeting in Astoria Saturday, voted to continue their effort to increase the efficiency of state civil service in the interest of state welfare.

They also passed a resolution thanking state officials for improved working conditions within state civil service ranks.
