I THINK IT'S

MY PICTURE TUBE

This is the layman's first reaction when the sound is alright but the picture tube isn't even lit on his new television

First check to see if the brightness control is turned clockwise as far as it will go. Then if there is still no light, the chances are that it is only one of several small tubes which provide high voltage necessary to provide light on the picture tube. Usually this trouble can be corrected in your own home by a service

When you have trouble, call 9 A. M. to 9 P. M. Daily Phone 4-5512

1410 S. 12th St.
