

GI En Route To See Solons With Rifle

WASHINGTON (AP) — A report that an AWOL Air Force sergeant was enroute here armed with a high-powered rifle to tell congressmen his grievances against the military set off an excited police alert Tuesday.

Capitol guards set a watch about senators and House members from Florida and New York, since the firman was said to live alternately in those two states. He was reported driving a 1952 auto bearing Florida license.

Officials at Westover Air Force Base, Mass., identified the missing airman as M. Sgt. Victor Petoniak, 43, a veteran of 24 years service. They said he left the base without permission several days ago while "undergoing observation at the base hospital."

The officers said Petoniak was known to own a high-powered rifle but they didn't know whether he had it with him.

Capitol police said the Air Force reported that Petoniak called Andrews Field in nearby Maryland this afternoon to say he was en route here. He was quoted as saying he wanted to see his senators and congressmen to try and get something done about "certain grievances."

Special alerts were sounded at all entrances to the Capitol and the Senate and House office buildings. A search of the grounds was made too, but by time business for the day ended, no one answering Petoniak's description had turned up.

Daily World Official Fired

SEATTLE (AP) — Terry Pettus, Northwest editor of the People's Daily World and under sentence to the federal penitentiary for Communist-conspiracy, has been fired from his job on the paper.

Pettus admitted Tuesday he had been ousted but refused to discuss the reason except to say they were "not political" or personal.

The 49-year-old admitted Communist is one of five Communists sentenced last October to 5 years in prison after being convicted of conspiracy to teach and advocate the overthrow of the government by force and violence. He also is under an additional sentence of 3 years for contempt of court during the six-month trial.

The successor to Pettus, who was ousted several weeks ago, is Will Parry, longtime reporter for the People's World. The paper has carried almost continual series of appeals for funds to aid the defense of the five convicted Communists, all of whom are out on bail.

Bomb Theory Advanced in Jetliner Crash

LONDON (AP) — A time bomb may have been placed aboard the British Comet jet airliner which crashed in the Mediterranean Jan. 10, Civil Aviation Minister Alan Lennox-Boyd said Tuesday night.

Lennox-Boyd, returning from an on-the-spot probe of the crash, told reporters he did not want to "align" himself with such a theory but:

"Considering the medical evidence, it is a possible interpretation of what might have occurred." The crash killed all 35 persons aboard the comet.

Doctors participating in the inquiry on Elba, near the crash scene, have noted that the 15 bodies recovered had burns on the legs which could have been caused by an explosion.

Britain to Assist Firms Trading With Red China

LONDON (AP) — The British government pledged all possible aid Tuesday to British firms wanting to trade with Red China.

Lord Reading, minister of state for foreign affairs, told the House of Lords that British businessmen wanting to "discuss trade in goods" would be given all proper facilities in the government's power to get to China.

Reading's pledge, made in reply to questions from members of the House, apparently is part of a new program designed to push this country's trade with Communist nations. The government still observes the strict Allied embargoes on export of potential war goods to these countries but, according to official sources, these embargoes are being reviewed and revised constantly.

New Jersey Installs Democrat Governor

TRENTON, N. J. (AP) — Robert B. Meyner was inaugurated Tuesday as New Jersey's first Democratic governor in 10 years and vowed he would fight crime and political corruption during his four-year term.

The handsome 45-year-old country lawyer, who won national attention last November with his upset election victory, was sworn into office before 3,000 persons.
