World Peace Said to Rest On Individual

Statesman News Service

HUBBARD—The peace of tomorrow depends on what individuals do today, said Mrs. Marion T. Weatherford of Arlington, president of the Federated Women's Clubs of Oregon, when she spoke before a well-filled hall during the annual benefit tea sponsored by the Hubbard Woman's Club Friday afternoon.

She pointed out in her talk that the nation is a direct reflection of its citizens. Announced by Mrs. Weatherford were the third district convention in Forest Grove, April 8; the state convention in Portland, April 21, 22, and 23, and the National convention in Denver May 20 through June 4. The program included a piano solo by Miss Suzanne DeArmond, two numbers by the North Marion Union High School saxophone quartet and a vocal solo by Mrs. Darrell Schei accompanied by Mrs. Lester Keller. Mrs. E. T. Roe, Mrs. Harry Schei and Mrs. Keller were in charge of the program. Guests were present from Hubbard and Woodburn.

Committee Urges Delay In Forming United Fund

The possibility of a United Fund campaign in Salem this year was decreased Monday as a result of a motion made by the Chamber of Commerce committee appointed to study the problem of community solicitations.

Chairman Russel Pratt said his committee would recommend to the Chamber of Commerce board of directors that "... in the committee's opinion the United Fund is the best method of raising money for health and welfare organizations but it is not feasible to adopt it in 1954."

A United Fund organization would raise public donations for present Chest-supported agencies plus several activities which now sponsor fund raising campaigns of their own.

Look Toward 1955

The committee will also recommend that a group be appointed to continue the study with the view in mind of adopting the United Fund campaign in 1955, Pratt said.

Otto J. Wilson, president of the Community Chest, said the committee's motion will disappoint many persons in the community because there is considerable sentiment here for the United Fund. He added that "Salem will never be ready for the United Fund until someone or group takes the time and energy to spark it."

Fact-Finders

Pratt pointed out that his committee was merely a fact-finding group and had no authority concerning the final decision of the United Fund.

An additional motion was passed Monday, he said, to recommend that city ordinances governing solicitations in Salem be examined to check whether these ordinances can be strengthened to better regulate soliciting.

Fishing, Gold Hunt Made by Explorer Post

A combination gold hunt and fishing trip was conducted over the weekend by five members of Explorer Post 16 into the area of Little North Fork about five miles west of Elkhorn.

The boys were taken to the area via car by Louis Amort, the post's senior advisor.

On hand for the trip were Don M. A. r s h, Jerry Marsb, Caspar Snell and Robert Rohland. Participants, who left Friday and returned Sunday evening, explained that the gold hunt proved rather slim, but fishing was good.

Ford's New Ball-Joint Suspension gives you the Newest Ride on the Road!

This revolutionary new Ford front suspension soaks up road shock before it reaches you! Makes all riding and handling easier!

Seals out dirt. You can forget road splash because dirt and water can't get into the ball joints in Ford's new front suspension. Each of the four joints is effectively sealed by a unique rubber-and-metal shield. This means that contact surfaces of each ball and socket remain clean—wear is kept to a minimum.

THE "OLD" roads won't seem the same with Ford's new Ball-Joint Suspension "paving" the way for you. You'll enjoy a softer, more level ride because Ford's new system allows greater shock absorbing movement of the front wheels. Handling is far better, too, not only on turns but on the straightaways as well. That's because conventional kingpins have been replaced by simple, sealed ball joints that won't stick or bind. No other car in Ford's field can equal this modern ride—because no other has Ball-Joint Suspension.

Agile new performance, too, is yours in a '54 Ford. Whether you choose Ford's new 130-h.p. Y-block V-8 or 115-h.p. I-block Six you get the quick response and smooth, quiet operation of a modern overhead valve, low-friction deep-block engine. And no matter which of Ford's 28 new models you choose you enjoy recognized style leadership—with clean, modern lines... sparkling new colors... and harmonizing upholstery fabrics and trim.

Keeps that new-car feel. You'll enjoy Ford's new-car feel much longer because ball joints are spring-loaded to compensate automatically for any wear. Front wheels hold alignment far longer than with conventional systems. Ball joints can't stick or bind. Steering remains consistently easy.

Eliminates 12 wear points. Ford's Ball-Joint Front Suspension eliminates 12 of 16 points of wear found in conventional systems. Rubber-bushed supports at inner ends of suspension control arms not only reduce the number of wear points but also insulate chassis from road noises.

We cordially invite you to Test Drive a '54 Ford
