

Don't Look Now...

but... in case you have not kept up on what's cooking over West Salem way, drive over. They are dumping the loveliest looking dirt preparatory to landscaping the west approaches to the bridges. It can be a mighty attractive entrance to the city if done right...

Slight of hand—... The man who invented the little number you put on your license every year was either lefthanded or an acrobat. When you reach back of it and hold the washer while you screw the screw in place in front you'll find it most convenient to stand on your head, unless you have three hands, all of them right.

"Rough Road"... says a sign out where Center street crosses the new cutoff. Yes, from the looks of the way it has cut into

some very nice looking property, it was pretty rough on a lot of people.

Brush off... our youngest, just under 4 the other night kicked up considerable dust when his sister was invited to spend the night with a friend and he was not. When he and Mamma took her over, he produced a suitcase which he claimed to have packed so he too could spend the night. The four year old's idea of overnight equipment consisted of a pair of clean jeans and a very large clothesbrush. Anyway, he got to stay overnight, pajamas or no.

Undercover... it would take very little persuasion on the part of a car salesman on a day like Saturday, to convince us that we can't live without a snappy convertible... Maxine Buren
