

### Poor Vision, Slick Streets Bring Mishaps

Poor visibility and slick streets were listed as possible contributing factors in four traffic accidents in Salem early Sunday morning, city police reported.

Shortly after midnight a car operated by Mrs. Katherine Warner Arnold, 3220 Duncan ave., collided with a parked dump truck in the 3200 block on Duncan Avenue.

Police quoted Mrs. Arnold as saying she went through a stop sign at Duncan Avenue and Silvertown Road after her foot slipped off the brake and accidentally hit the accelerator pedal. Police said her car sideswiped two trees and tore up a wire fence and 10 rose bushes before striking the truck, owned by Leonard Richard Hagner, 2915 Silvertown Rd. The car sustained considerable damage, police reported.

About 4 a.m. two cars were damaged in a collision in the 1100 block on Madison Street. Police said a car operated by Richard S. Swift of Kreitzberg Aviation, collided with a parked car owned by John Farmer, 1140 Madison St.

A collision at the intersection of McNary Avenue and Ruge street resulted in damage to two cars operated by Gene Gaylord Biddle, 130 McNary Ave., and Charles Sparano of Portland.

The fourth accident occurred about 10 a.m. at 17th and Ferry Streets. Police said vehicles driven by LaVonne I. Greene, 2370 Adams St., and George E. Warneking, 1485 Marshall Dr., received minor damage in the collision.

### Big Russian Kiddies' Store Due to Open

MOSCOW — Work is under way here on what will be the biggest children's store in the Soviet Union. To be known as the "Kiddies' World," the department store will be the first in the Soviet Union to have escalators.

The children's store will occupy an entire block in the center of Moscow. A building used mostly for offices in recent years is being reconstructed for the new project.

Kiddies' World is expected to be open for business by the end of this year—in time for the Grandfather Frost (Soviet Santa Claus) shopping season.

### 50,000 View Pope's Public Appearance

VATICAN CITY (AP) — Pope Pius XII appeared in public Sunday night for the second time since he became ill more than two months ago. A crowd of 50,000 who had just concluded prayers for Roman Catholics behind the Iron Curtain received him with joyful shouts of "viva il papa."

The 78-year-old pontiff appeared at the window of his Vatican Palace apartment just as night was falling and as the great crowd was leaving St. Peter's Basilica.

As the worshippers lined up from the Basilica into St. Peter's Square shouting for the Pope, he appeared at his window and stood for nearly four minutes lifting his arms widely in the blessing gesture he has given at countless audiences.

### Whole Story On H-Bomb Asked Told

SAN FRANCISCO (AP) — The American people should be given all possible information about the hydrogen bomb because "their lives are involved," Val Peterson, federal civil defense administrator, said Sunday.

Peterson, here for conferences with local civil defense officials, declared "this thing is the people's business—I believe utterly in the ability of the American people to make the right decisions when they have adequate information."

Peterson described the H-bomb as "tremendously devastating weapon." He said vast changes have resulted in civil defense planning as a result of H-bomb experiments.

"With the atom bomb we pursued a duck-and-cover protection theme. Now we have to have a more realistic approach because our cities will be absolutely gutted. We've got to evacuate people if we get enough warning."

"We can rebuild cities," he added, "but we cannot rebuild the lives of people."

Peterson declared he has been attempting to get more information on the H-bomb released but "we're dealing with a very difficult situation."

"No American wants to assist the enemy any more than we have to by giving him information he might not have. So prudence requires that we be very careful."

### 'Reckless Driving In Building' Laid Against Cyclist

WAUKEGAN, Ill. (AP) — Walter Puckett won a bet and got himself arrested Sunday for riding his motorcycle around an oval bar in a Waukegan tavern.

Puckett's ride on top of the bar ended abruptly, police said, when his machine struck and injured Mrs. Olean Roberts of Waukegan as she stepped out of a washroom. She was treated at a hospital and released.

Puckett, 22, won the bet he had made with a friend. But police charged him with "reckless driving inside a building" and released him on bond pending a hearing.

### Governor's Alaska View Draws Rebuke

WASHINGTON (AP) — Gov. B. Frank Heintzleman's proposal that only the populated and developed portions of Alaska be admitted into the union drew opposition Sunday from Delegate Bartlett (D-Alaska) and from the chairman of the Alaska Statehood Committee.

Bartlett, in a statement, characterized the part state-part territory suggestion made Saturday by Alaska's governor in a letter to Speaker Joe Martin (R-Mass.) as "a nicely calculated effort to hurt the statehood cause."

Robert B. Atwood, Alaska Statehood Committee chairman and editor-publisher of the Anchorage Times, said the proposal has been considered many times and "rejected as in accord neither with the national interest nor the interest of Alaska."

Chairman Miller (R-Neb.) of the House Interior Committee recalled that he made the same proposal some six years ago and it was turned down. Miller said he thought it "was good then and now" but that he didn't think it would be accepted.

Atwood and Bartlett said that Heintzleman, an ex-officio member of the Statehood Committee, an official agency of the territorial government, did not consult with them before making his proposal. Heintzleman has been here several weeks.

### Salem Cyclists Win First in Field Trials

The Salem Motorcycle Club walked off with top honors Sunday in observed field trials conducted at the club's headquarters on Macleay Road. A total of 24 contestants from northwest Oregon were in competition.

Trials consisted of eight observed sections around five laps with a possible high score of 1,000.

Sweepstakes winner was Albert Braun of Salem, who tallied 950 points. First place in the light weight division went to George Herschbach of Salem, with 955 points, and Robert Watson, also of Salem, won second with a score of 946.

In the medium division John Taylor, president of the Salem club, was first with 925 points; Chuck Taylor, Salem, second with 909; Robert Barta, Cottage Grove, third with 894; and Paul Bishop, Portland, fourth with 892.

In a special women's event, Mrs. Jean Purcell of Salem, was first with 962 points.

### NY Waterfront Busy Again

NEW YORK (AP) — Longshore activities resumed peacefully Sunday along New York's vast waterfront. And the big port made ready to start moving mountains of cargo piled on piers during the 29-day strike.

The city's longest dock walkout ended Saturday as some 6,000 wage-hungry longshoremen swarmed back to work. Prospects were bright that all 20,000 pier workers would be employed full-time Monday.

Sunday normally is a dull day along the docks.

The shipping industry has estimated the walkout cost the port a half billion dollars, plus more than eight million dollars in wages, and some observers expressed fear that business diverted to other ports never would return.

### Mormons Open Meeting

SALT LAKE CITY (AP) — The 124th annual conference of the Latter-Day Saints (Mormon) Church opened in Salt Lake City Sunday with an estimated 20,000 Mormon faithful jamming into Temple Square to hear reports and speeches by high church officials.

The three-day conference, together with its companion semi-annual conference held each year in the fall, are the most important events in the church year and regularly attract Mormons from all over the United States and from other countries. At these conferences, members hear reports of church progress and messages of doctrinal and religious inspiration.

### Morse Urges Support for Neuberger

PORTLAND (AP) — Sen. Wayne Morse of Oregon, passing through Portland Sunday night, said he would urge Oregon voters to support Democrat Richard L. Neuberger over Republican Sen. Guy Gordon.

Morse, who made speeches at Medford and Eugene Friday and Saturday, is scheduled to speak at a Democratic rally in Aberdeen, S.D., Monday night.

He said he is not supporting any Republican candidates in Oregon or throughout the nation in this year's campaign.

### GOP Leaders Confident of Tax Victory

WASHINGTON (AP) — Republican Senate leaders were reported increasingly confident Sunday they can turn back a Democratic drive to raise income tax exemptions for all taxpayers and their dependents, thus cutting their tax bills.

At the same time, Senate Democratic sources said they thought their chances of success now are no better than 50-50. A short while ago they had high hopes of winning.

Senators on both sides of the issue were wary about commenting publicly, largely because they agree that a sharp change in economic conditions in the next two months could upset all of their present calculations.

Democrats still think they will win handily in the Senate if unemployment continues to climb into the summer months.

The fight over the income tax reduction will come on a big tax revision bill, on which the Senate Finance Committee opens three weeks of public hearings Tuesday.

### HST 'Knows Too Much to Talk on Bomb'

ST. LOUIS (AP) — Former President Truman said Sunday night he "knows too much about the hydrogen bomb to talk about it," but hopes the bomb will be a contribution to peace.

Truman made his remarks at a brief press conference after a testimonial dinner honoring Rabbi Samuel Thurman of St. Louis, one of the chaplains at Truman's inauguration in 1949.

"We made every effort possible to get disarmament and the outlawing of lethal weapons for peace," he said. "The Russians always refused and we met over 250 times."

"If the hydrogen bomb can bring about peace, it is one of the greatest things in the world and worth all we've spent for it," Truman said.

In his speech at the dinner the former President said organization of the "moral, God-fearing forces" was the only way to bring peace and freedom to the world.

### Strong Quake Shakes Island

SAPPORO, Japan (AP) — The northern Japanese island of Hokkaido was shaken by a "rather strong" earthquake at 8:14 a.m. today (3:14 p.m., PST., Sunday).

Kyodo News Agency reported the center was placed about 50 miles off Urukawa, in the Pacific Ocean. No damage or casualties had been reported. The same area was shaken badly about two years ago by a stronger quake that caused a tidal wave.

Hokkaido is the northernmost of Japan's four major islands.

### Death Brushes Driver

PORTLAND (AP) — Kenneth Francis, 20, Portland, lost control of his car as he was crossing the Burnside Bridge early Sunday.

The car tore out a section of railing and hung over the side of the bridge. Police helped Francis out of the car, then booked him on a charge of reckless driving.

### Processing of Polio Vaccine Gives Trouble

WASHINGTON (AP) — The U. S. Public Health Service said Sunday night there had been some difficulties in the commercial processing of a polio vaccine but it was confident none that was unsafe had been released for use in the mass immunization program.

Walter Winchell in a Sunday night broadcast said a new polio vaccine "claimed to be a polio cure" instead "may be a killer."

Winchell said the Public Health Service tested 10 batches of the new vaccine. He said:

"The government's Public Health Department, I am told, found that seven of the 10 contained live—not dead—polio virus. It killed several monkeys. The name of the vaccine is the Salk vaccine, named for Dr. Jonas Salk of the University of Pittsburgh."

The Public Health Service, following Winchell's broadcast, said in a statement:

"We have found some positives in the lots of vaccine that we have tested, as have the other cooperating laboratories and if any vaccine is found positive, it would not be released for use in the mass immunization program."

"The minimum specifications for this program require that any lot of vaccine that is to be used will pass the safety testing in all three laboratories; using tests that have been approved by the advisory vaccine committee of the National Foundation for Infantile Paralysis.

"The Public Health Service is confident the foundation would not release for use in this mass immunization program any vaccine which was not considered safe according to the most exacting standards that can be established for such preparation."

Dr. Salk, in an interview March 11 at New Orleans, defended his vaccine and said that from new studies, it looked better than ever as a really practical way of ending the scourge of polio.

He said then he saw no reason to delay mass tests on children because of any doubts about its safety, supply, or potency.

Nearly 5,000 Pittsburgh-area children already had had the vaccine. Dr. Salk said not one had the slightest fever, or pain of swelling in the arm from the shots.

### Man Dies in Electric Chair After Birthday

BELLEFONTE, Pa. (AP) — William Patskin died in the electric chair early Monday, less than an hour after he observed his 46th birthday.

He was sentenced to death in October, 1941 for slaying his wife, Mary, on a lonely rural road in Lackawanna County.

The powerfully-built farmer entered the execution chamber smiling. He continued smiling until the mask was dropped over his head.

### Mac Laren School Escapes Caught

Three youths who escaped from MacLaren School for Boys at Woodburn Saturday night were taken into custody Sunday evening and returned to the school, state police reported.

They reportedly were picked up near Woodburn by MacLaren officials, police said. The three were identified as Robert Shank, 15, of Springfield, Howard Byron Campbell, 15, of Coos Bay Route 2, and Lee Roy Ness, 14, of Portland.
