### The San Man Sez:

A hamburger can be just another sandwich, hardly worth the trouble to eat and definitely not worth your money. OR... a hamburger can be made as carefully as the most expensive dishes. It can be made of Government inspected beef which is ground just before use. It can be tenderly cooked to preserve its juiciness, and served with a special relish dressing to enhance the natural flavor of the meat. This popular sandwich becomes a rhapsody in good eating, and when it's THAT good it's called a SANBURGER. We sell them for only 35 cents, and they are easy worth it.

### Check Law Said Against Constitution

KLAMATH FALLS (AP)—Oregon's insufficient funds check law again was declared unconstitutional Thursday, this time by Circuit Judge David R. Vandenberg.

He concurred in a recent opinion by Circuit Judge H. K. Hanna, Medford, that the law does not apply equally to all persons.

Vandenberg sustained a defense demurrer to the indictment of J. Wesley Ambrose, 48, a salesman who had been held in jail since Feb. 9 on a charge of feloniously issuing a check with insufficient funds. He ordered Ambrose released.

The judge said that the law leaves it up to a grand jury or a magistrate to decide whether a person shall be prosecuted for a felony or a misdemeanor.

Vandenberg said this could happen: "Two men could be arrested, each for passing a \$10 check with insufficient funds in the bank. One of the men could be charged with a misdemeanor and get off with as little as a \$5 fine. The other could be charged with a felony and, if convicted, be sentenced to state prison for a term of five years."

In the Medford case the State Supreme Court is expected to make a final ruling on the law's constitutionality.
