Cat Rescued From Tree

A Siamese cat, bound by either fear, contempt or temper, spent all Thursday night and most of Friday 20-feet high in a fir tree and would probably be there yet but for the help of Salem firemen.

The cat, one of three belonging to Don W. Watson, 1185 Glen Creek Rd., was either frisking with his companions or running from a frightening object when he clawed upward into the tree.

HENS KNOW LETTERS
SALISBURY, Md. — Bliss U. Nelson of nearby Rockawakin thinks he has some educated hens. Periodically he shells eggs with initials on the shells. The latest alphabetical egg was laid by a White Rock and initialed with the letter "B." Nelson has found other eggs with "I," "N" and "O" on them.

SAVE DOLLARS

You can save dollars on your TV receiver by knowing which are the primary and which are the secondary controls. The primary controls are for customer adjustment and if used according to manufacturers instructions can save a service call at times. The secondary controls usually include: Volume, channel selector, fine tuning, contrast, brightness, vertical and horizontal hold controls. These were all designed for your use. However, there are many other controls which were intended by the manufacturer for the technician's use only. For example, maladjustment of the drive control can result in premature tube failure or misadjustment of noise threshold can result in an unstable picture. You can save dollars by leaving these adjustments for the technician. When the secondary controls need adjusting call

Nut Growers Get Warning

CORVALLIS — Nut growers were warned here by Oregon State College horticulturists to disk in orchard cover crops as soon as possible to save moisture. The horticulturists, noting predictions of warmer and abnormally dry weather for the next 30 days, said moisture requirements will be high this summer because of heavy filbert and walnut crops.
