

# McKay Declares 600 Bonneville Employees Released to 'Cut Frills'

SEATTLE (AP) — Secretary of Interior McKay said Wednesday the Bonneville Power Administration has lopped off 600 employees in a

move he described as "cutting out the frills." Describing the slashing of the Bonneville budget, he said it had

put BPA in a state of "semi-austerity." In his noon address and at his press conference, McKay also

said: "The administration will give full support to Pacific Northwest power and river resource projects,

despite "misrepresentation" by opponents. All Republican congressmen running for reelection in the North-

west this fall will win, but only after a tough battle. He has no opinion on whether Alaska should become a state.

**ROCKS PAY OFF**  
SIDNEY, Neb. (AP)—During the 44 years the Hatcher family fought to keep their 60 acres of land through drouth and other misfortunes, Mrs. Effie Hatcher

kept saying "this country must have something more in it than rocks and rattlesnakes." She was right. Now she can look out over the wheat fields and see three producing oil wells in their midst.
