Marshall—Open for lunch daily 11:30 a.m. Special Sunday dinners.

446,500 Work On Non-Farm Jobs in April

Oregon had 446,500 persons working in non-farms jobs during April, which was 9,900 more than in March, but three per cent below the same time last year.

The unemployment compensation commission said, in releasing the figures, that April employment was 15,000 more than the low point of last winter. The all-time high mark was 495,300 last summer.

The decline in employment compared with a year ago is caused by fewer jobs in the lumber and construction industries.

The commission said there were 75,100 lumber and logging workers in April, compared with 83,500 a year before. Food processing, machinery manufacturing, ship repair, and paper mills also were down from last year.

Employment by schools, cities and towns was up to 55,400, a gain of 3,400 more than a year ago.

Public Records

CIRCUIT COURT

Lions Club Hears Foreign Students

American home appliances and the like would be a wonder to millions of Europeans, but similarities are probably more important than differences in home life of here and abroad.

This was a repeated thought in the remarks of three foreign teen-agers Thursday noon before the West Salem Lions Club at the Marion Hotel. The three are among 400 foreign youth studying a year in U.S.

One of the Salem visitors was Inge Teismann whose German home was bombed out in the war and whose education is being rounded out at Franklin High School, Portland, after schooling at the small high school of Guelternloh, Germany.

House Work Different
Inge called attention to the difference in household work. She and her family live on the third floor of a house occupied also by two other related families. There the preservation of butter meant numerous trips from third floor to basement cooling room; here she opens the hand refrigerator in the kitchen of the Portland family with whom she's staying.

And washing clothes here isn't an all-day chore with washboards and hand wringers, either, reported Inge.

But the German teen-ager found not all American homes have "foam rubber cushions and steel frame furniture," as many of her German friends were inclined to believe on the basis of advertising they saw.

And she found out, too, that the very practical applications of democracy by individuals and families is something Europeans can't realize.

A student council at work in high school is different enough, said Inge, but an even stronger impression is made on her by the fact that the third-grade girl in the American home where she now lives is treasurer of her class at school and learning how democracy works.

Observing that family life in this country has much the same needs, wants and ambitions as family life in a suburb of Oslo, Norway, Helge Lie said his year in a Vancouver, Wash., home while attending Vancouver High has brought him to the conclusion that the U.S. is great in mind and spirit, as well as in military and political strength.

The third young foreigner, Horst Meller of West Berlin, now at Cleveland High in Portland, said he, too, had found much in this nation to overcome the common European opinion that Americans "are a very immature people."

Not "Country of Millionaires"
"I found that not all American men are too busy making money to care about family life," said the young German, "and I can see that this isn't a country of nothing but gangsters and millionaires."

The students were accompanied to Salem by Mrs. J. F. Williams, representing American Field Service in the Portland area. She said AFS believes that the International Scholarship program for teen-agers will go a long way toward the goal of world peace, by enabling many young Europeans to see the American system and American family life during their education experience.

CARD OF THANKS
We are sincerely grateful to friends and neighbors for their many kind acts of sympathy during our sad bereavement. Our appreciation cannot be adequately expressed.
The Hall family.

84 Mumps' Cases Listed During April

Mumps led the list of communicable diseases in Marion County during April with 84 cases reported, according to the County Health Department report.

Only 40 cases of measles were reported for the month compared to 159 cases a year ago.

Other diseases listed in the report include chickenpox, two, influenza, 10, pneumonia, two, poliomyelitis, two, rheumatic fever, one, scarlet fever, four, tuberculosis, four, and venereal diseases, four.

In the monthly birth and death report, both figures were below April 1953. A total of 208 births and 65 deaths were reported in April, compared to 216 births and 69 deaths a year ago.

\$10 Million in Bonds Sold by Vet Division

The State Veterans' Department sold 10 million dollars worth of bonds Thursday to C. J. Devine & Co., Smith, Barney & Co., and Associates, of New York City.

The low bid offered an effective interest rate of 2.75 per cent, which is .279 per cent more than the rate on bonds sold last February.

There were seven bidders Thursday. The bonds, which now have reached a total of \$3 million dollars, are used to finance home and farm loans for veterans.

The second and third low bids were: First National Bank of Portland, 2.278 per cent; and United States National Bank of Portland, 2.3082 per cent.

Doctor Talks On Surgery Techniques

Dr. and Mrs. K. Alvin Merendino and children, of Seattle have been visitors in Salem for several days, during which time Dr. Merendino, associate professor of surgery at University of Washington Medical School, has lectured to the Marion-Polk County Medical Society and at the Salem Memorial Hospital. He discussed new surgery techniques.

Mrs. Merendino and four daughters, Ciria Anne, Nancy, Susan and Nina visited with Mrs. Edward S. Vanderhoof and her four daughters. Dr. Vanderhoof was associated with Dr. Merendino at the University of Minnesota and at Ancker Hospital, St. Paul, Minn.
