

Rogue River Reclamation Funds Gain

WASHINGTON (UP)—The House Interior Committee approved a bill today to authorize the \$22,000,000 Talent division of the Rogue river reclamation project in Oregon.

The action was taken by a voice vote on a measure by Rep. Harris Ellsworth (R-Ore.).

The project would furnish irrigation water for about 18,000 acres of land along Bear creek, a tributary of the Rogue. It includes an increase in the capacity of the Emigrant reservoir from 8,300 to 45,000 acre feet, and construction of the 60,500 acre-foot Howard Prairie reservoir.

A 16,000 kilowatt power house below Howard Prairie dam also is planned. The Reclamation Bureau originally proposed a 10,000 kilowatt installation, but bureau officials told a subcommittee earlier the larger plant appears to increase the feasibility of the project.

The committee also approved a bill extending the repayment period for the north unit of the Deschutes project in Oregon to 78 years and authorizing construction of Haystack reservoir as part of the unit.

U.N. Cannot Block Funds, Court Rules

THE HAGUE, Holland (UP)—The International Court of Justice ruled today that the U.N. General Assembly cannot prevent compensation payments to 11 American loyalty investigators.

A total of \$180,000 was ordered paid to the 11 after their dismissal.

The United States, the major financial contributor to the United Nations, strongly objected to the compensation payments.

The court was asked to decide whether the General Assembly is empowered to overrule the United Nations administrative tribunal which ordered the payments.

Today's court decision, upholding the awards, was by a vote of nine to three.

The court's advisory opinion said:

"The court finds that according to a well established and generally recognized principle of law, a judgment rendered by a judicial body, such as the administrative tribunal, has binding force between the parties to the dispute."

Pickets Halted By Injunction

HOQUIAM, Wash. (UP)—A Grays Harbor Superior Court injunction Monday halted picketing of the Grays Harbor Veneer Company plant by three members of the Puyallup Box Shook Union (AFL).

The order requires the union to show cause why the injunction should not be made permanent Friday afternoon.

The firm which employs 350 men, is under the jurisdiction of local 9-2521, plywood workers of the CIO International Wood workers of America. It was not involved in the current strike in the fir, plywood lumber and logging industry.

Three pickets identified themselves as members of Puyallup union and said they were sent down with instructions to picket the plant. The crew did not attempt to cross the line.

'Drag Fleet' Strike Idles 290 at Astoria

ASTORIA (UP)—Strike of the Astoria "drag fleet" has idled about 275 persons in Astoria canneries and some 20 boat and crews are idle, it was reported here today.

Bottom fishermen halted work recently to back up demands for higher prices for their catches. Packers maintained that competition from foreign imports made it difficult for them to compete on the market even at present prices. Druggers said they could not afford to fish at the prices offered.

There has been no attempt to negotiate the dispute even though weather conditions were ideal for dragging the heaviest poundage of bottom fish of the season.

Wreck Fatal Near Yakima

YAKIMA (UP)—Isaiah Shore, 31, a soldier stationed at the Yakima firing center, was killed early today when the car he was driving crashed head-on with a truck and trailer about four miles north of here.

State patrolmen said Shore was from Lewiston, Ida.

The driver of the truck, Floyd Whiteside of Yakima escaped injury.

Garage Burns At Toppenish

TOPPENISH, Wash. (UP)—Fire gutted a building of the Central Motors at Toppenish here early Tuesday.

Cause of the fire was unknown. It was discovered shortly after 11 o'clock last night. Firemen had it out at 6 a.m. today.

Sig Carlson, manager of Central Motors, estimated the loss at \$75,000.
