## States Given Control Of Labor Problems In Small Businesses

WASHINGTON (AP)—The federal government Wednesday gave the states the job of controlling labor relations problems of additional thousands of small firms and their employees.

## Priest Rapids Dam Seen as Warm Issue

OLYMPIA (UP)—Theoretically, construction of a dam at Priest Rapids on the Columbia river could lead to a fight rivaling the Hells Canyon controversy, State Power Commission Chairman Walter S. Gordon said Wednesday.

The House of Representatives Tuesday completed congressional action on a bill authorizing construction of the Priest Rapids dam. All the bill needs now is President Eisenhower's signature.

Although construction of the dam possibly could lead to a battle, Gordon said he desires to see the Grant county public utility district able to carry out its congressional grant to build the 360-million dollar project.

"We don't want to preclude the best interests of the state by talking about hypothetical fights that could develop," Gordon said. "We are delighted that the Grant county PUD has received congressional approval to build the dam."

It will depend on the PUD to come up with a plan acceptable to the commission. If the commission has a better plan, it undoubtedly will draw it to the attention of the PUD, or seek a permit to build the dam at Priest Rapids.

If a dispute should develop between the PUD and the commission, then development of the project may, as has the Hells Canyon proposition, become a long drawn out hassle before the Federal Power Commission, which would grant the permit for Priest Rapids.

Gordon said engineers were near completion of plans the commission has in mind regarding the Priest Rapids project.

## River Work Bids Called

PORTLAND (UP)—Army Engineers in Portland said Tuesday they would invite bids for construction of dumped stone revertment along the left bank of the Willamette river at Half Moon Bend, four miles northeast of Corvallis in Benton county.

## Twenty More Bodies Found In Landslide

MEDELLIN, Colombia (AP)—Twenty more bodies were recovered Wednesday as rescue workers cleared away tons of earth and rock which cascaded down from an Andes mountain peak Monday, engulfing two buses. The death toll is expected to exceed 100.

Thirty-four bodies had been brought in earlier from the scene about five miles from Medellin. The first landslide Monday smashed a cottage, burying a mother and her four small children.

## Home Repair Salesmen Said Trained to Defraud Owners

WASHINGTON (AP)—Senate housing investigators, turning briefly away from million-dollar windfalls, heard testimony Wednesday that home repair salesmen were "trained and schooled" in ways to defraud small home owners.

Andrew Nicol, an investigator for the Bergen County, N. J., prosecutor's office, said the schools were set up "all over the country," and the home repair program, using FHA-insured loans, was operated in some cases as a "typical confidence game."

Fraudulent use of the home repair program, which still is in operation, was included in the charge which led the Eisenhower administration to start a full-scale probe of the Federal Housing Administration (FHA) last April. But the Senate has given most of its attention to the more spectacular million-dollar profits made under an expired postwar apartment building program.

Paris, France, has 200 streets named for saints.

# CHRYSLER WORLD RECORD IN 24-HOUR RUN IS YEAR'S TOP VALUE NEWS TO BUYERS!

'54 Chrysler shown setting second AAA-supervised endurance record in less than a year... this time at the famous Chrysler Proving Grounds! 2,836 miles in 24 hours, 'round-the-clock... 118.184 MPH average speed... lap after lap over 124 MPH... no "time out" except to re-fuel!

Now's the best time for you to buy and drive a '54 Chrysler... identical with the one that averaged over 118 miles per hour for 24 hours' continuous run! Same engine. Same transmission. Same tremendous performance qualities!

This is a Strategic Time to Buy... right now when we're making it so unusually easy to do so! We can also promise you that once you drive this beautiful record-breaking performer, you'll know you've made the right buy!

No Other "Stock" Car in the world lets you drive with today's highest-rated V-8 engine: 235 HP FirePower. Plus the most automatic no-clutch transmission ever put in a car... PowerFlite. Plus the only authentic Full-time Power Steering and Safety Power Brakes!

Step in and see how it feels to be "Number One" on the road... in America's greatest performer. Come learn why today's Chrysler is today's finest buy!

The power of leadership

is yours in a beautiful CHRYSLER

How telephone people are working in color TV. For some time now, the microwave radio relay and coaxial cable systems that carry your long distance calls have also been carrying black-and-white television programs. And long before color television made the headlines, telephone people were testing these circuits to see how well they'd work for color. This helped us develop the new equipment

needed to handle color telecasts. Now some programs for public viewing are being carried in color from city to city over the Bell System's coast-to-coast network. And we're going ahead with plans to install the equipment needed to transmit color TV up and down the Pacific Coast. For it's telephone policy to look ahead—planning today to meet your communications needs of tomorrow.

Back in 1927, telephone people demonstrated the first city-to-city TV, over a telephone line between Washington, D. C. and New York.

As TV grew, we equipped our radio relay and coaxial cable systems to carry programs from city to city... to meet the needs of broadcasters and the public.

Whether we're carrying TV 'cross-country—or serving the telephone in your home—we're constantly working to make our services ever more valuable to you.

Pacific Telephone works to make your telephone a bigger value every day
