

Police Check Story

MIAMI, Fla.—Detectives return with Walter Lee Yow, right, 44-year-old ex-convict, to check his story in the Judith Ann Roberts kidnap-slaying. Detective Charles Sapp, left, accompanied Yow from Marietta, Ga., where he had been picked up on a bad check charge. Detective Paul Nichols, right rear, met them on arrival at Miami airport. Ike Studying Tariff Boost In Zinc, Lead

WASHINGTON (UP)—Three Western senators discussed with President Eisenhower today the possibility of increasing tariffs on lead and zinc imports.

The senators later said that President Eisenhower, who has before him a tariff commission recommendation, is "on top" of the matter. The commission reportedly recommended that the tariffs on the two metals be hiked to help the ailing domestic mining industry.

Mr. Eisenhower has until July 21 to accept the recommendations or tell Congress why he doesn't. But the senators indicated Mr. Eisenhower might ask for more time.

Sen. Henry C. Dworshak (R-Idaho) said Mr. Eisenhower assured us that he appreciates the problems of the industry and is determined to do something about it.

Dworshak was accompanied to the White House by Sens. Clinton P. Anderson (d-NM) and Carl Hayden (d-Ariz).

Alaska Gets Pulp Industry

KETCHIKAN (UP)—A new Alaskan industry was dedicated today.

The 50-million dollar Ketchikan Pulp Co. plant at Ward Cove, Alaska, was the site of a ceremony that attracted more than 100 top names in industry, finance and government. Ketchikan pulp is a joint venture of the Puget Sound Pulp and Timber Co., Bellingham, Wash., and American Viscose Corp.

Territorial Gov. Frank Heinzelman led the Alaska delegation at today's ceremonies.

RECONSTRUCTION JOB

ROCKFORD, Ill. (AP)—The home of J. P. Masters will have to be built again. The nearly-completed \$60,000 house was being readied for occupation when a bulldozer hit a buried gas pipe and pulled off a valve in the basement.

An hour and 10 minutes later, the explosion blew the house into rubble.

First Customer Gets Prices Cut

BEIRUT, Lebanon (AP)—You have to get up early to outsmart a Beirut bazaar merchant. At any other time of the day, these merchants drive a hard bargain. But if you are the first to enter the shop that day, you become a favored customer. If you show signs of leaving without buying, the merchant may slash his prices 90 per cent. He might follow you to the street and beg you to name your price.

His panic stems from an ancient tradition which says a merchant must sell the first customer of the morning or risk bad business all day.

This is one of the many trading habits which have clung to the "souk", or bazaar, of this Levantine seaport since the ancient Phoenicians bought and sold here thousands of years ago. In many areas Beirut has become a modern city, but in the heart of town the souk still retains the appearance and habits of another age.

27 'Witnesses' Will Be Tried In September

Portland (UP)—Twenty-seven Jehovah's Witnesses are scheduled to go on trial in Federal Court here in September on charges of evading the draft.

They are to be tried at the rate of two a day by U. S. Dist. Judge Claude McCulloch. First to be tried will be Everett L. Bloom, Roseburg, and James A. Berquist, Oswego.

Two members of other churches are also waiting trial on the same charges. They are Milton Faxon, son of the pastor of the Christian Church in Toledo, and Albert Stain of Salem, who belongs to the Assembly of God.

The Witnesses refused draft classification on conscientious grounds, claiming they were ministers and not subject to military duty.

Dellmore Lessard of Portland will represent the Witnesses at the trial, and is expected to be aided by Hayden C. Covington, New York attorney who is also vice president of the Witnesses religious publishing branch.

The 4,192 cars produced in the United States in 1900 were valued at nearly five million dollars.

Flexible Farm Plan Hailed as Major Step

WASHINGTON (UP)—Sen. Homer Ferguson (R-Mich) today called for adoption of the program called for adoption of the Eisenhower program as the first step toward agricultural reconversion to a peacetime basis.

In a major Senate farm speech, Ferguson said the present system of high rigid price supports on basic crops worked well in the wartime emergency when all-out production was needed.

But, he asserted, "we have to make the transition some time. The longer we wait the more difficult it will become."

To continue present fixed supports at 90 per cent of parity on basic crops, Ferguson said, would

be comparable to continuing production of defense goods at Korean War rates.

Ferguson's speech came while the Senate was still a week or more away from its major farm debate. The Senate Agriculture Committee completed work last week on a bill which proposes to continue, for one year, basic crop supports at 90 per cent of parity.

The administration had wanted more flexibility, from 75 to 90 per cent of parity, but President Eisenhower said last week he is happy about the House action.

The House last week approved a farm bill setting up flexible price supports ranging from 82 1/2

to 90 per cent of parity. The Senate committee voted for the 90 per cent extension by the narrowest possible margin, 8 to 7, and Chairman George D. Aiken (R-Vt) will lead a floor fight to have it stricken out. He has indicated he will sponsor an amendment calling for an 80 to 90 per cent scale.

OREGON REAL VALUE
Visitors to Oregon receive a real touring value while traveling about the state—there is no sales tax, no cigarette tax, and only a six cent tax on gasoline.

Virginia and Oregon are the only states in the union that collect neither a sales tax nor cigarette tax.

Runway Pads For Jets Set

PORTLAND (UP)—The Port of Portland commission has approved construction costs of the pads both ends of the main runway at Portland International airport to protect the surface against burnings from jet aircraft.

Construction costs of the pads will be repaid to the commission by the Air Force, the commission said.

The most powerful atom smashers are huge circular affairs, the largest having a diameter more than twice as great as the length of a football field.

US Sex Attitude Shocks French

LOS ANGELES (INS)—A Frenchman says he is downright shocked at the U. S. attitude on sex.

He claims that the so-called "Paris postcards" can take second place to American advertisements.

The Frenchman, Pierre Andre Gruenais, book editor and critic, declared:

"You criticize the French about the men who sell dirty postcards on Paris streets and the frankness of our literature. But here I see pictures of nude women in advertising for beer and gasoline and even on playing cards in

Child Killed in Fall From Crib

PORTLAND (UP)—Kathryn Leah Taulbee, two-year-old daughter of Mrs. Vern Wood of Portland, was pronounced dead at a hospital here Tuesday after falling from her crib at the Wood home.

homes. We wouldn't dare do that in France.

"Most astonishing to me however, is the frankness with which people discuss sex. Women, especially, and not from low families either, are the frankest. They ask the most astonishing questions about one's private life."
