Hazel Green School Club Meeting Set

Statesman News Service

HAZEL GREEN — A special meeting of the Hazel Green Mother's Club has been called for Thursday at 8 p.m. at the old schoolhouse to discuss the hot lunch program.

A speaker from the State Department of Education will tell how the lunch program could be managed.

For the past several years one dish, usually containing both meat and vegetables, has been served daily during the winter months. Until the past two years, when the custodian, Mrs. Mary Schafer, became the cook, mothers took turns at the chore.

Because of the lack of room at the old school, it was not feasible to serve a whole meal so the hot dish was supplemented by other lunch brought from home. There will be more room in the new building which will soon be completed, so a complete lunch might be served.

It is hoped that the wishes of the community may be determined at the Thursday meeting so plans for the lunch program can be complete at the beginning of school.

No Compromise This Time!

It was over twenty years ago that he took title to his first motor car—and, since that time, he has owned and driven almost a dozen different automobiles.

And yet, every time he accepted the keys to a new car, he knew in his heart that it was a compromise.

For—like so many millions of his fellow men—he had his heart set on a Cadillac!

Well, there's no compromise this time! The magic moment has arrived. The papers are all in order... the keys are in his hand... and the car of his dreams is waiting for him to take the wheel. It's his!

And, if you could but ride with him on that first journey, you'd understand what it means to have a motoring dream come true.

You'd see excitement in his eyes as he rolls majestically through the city's traffic—and puts his Cadillac through its thrilling paces on the open road.

You'd see honest pride in his face as he sits, calmly

and serenely in the driver's seat, and catches the admiring glances of his fellow motorists.

And you'd sense the joy in his heart as he turns down that familiar street and heads for the happiest homecoming of the year!

In short, you'd witness a motorist in his finest hour—living out an experience that has no counterpart in the world of transportation. It is a thrill and an inspiration and an education—all rolled into one.

A friend of ours put it this way. "There are two kinds of automobiles," he told us. "There are Cadillacs—and there are all the others."

Whether or not you've driven "all the others", we can't say. But of one thing we are certain: Until you've spent an hour in the driver's seat of a 1954 Cadillac, your motoring education is not complete.
