

Tourists Swim Where Buffalo Once Roamed

By GENE T. KINNEY
Oklahoma City (AP)—Oklahoma, the land of cowboys, Indians and oil, is becoming a playground of the Southwest. The forests and streams where the Red man shot buffalo and fished at the turn of the century have been transformed into a multi-million dollar business by white men.

The old natural beauty remains. To it has been added a group of lakes that rival those of leading resort states. Out-of-state pleasure-seekers spent 168 million dollars here last year, state officials estimate. That's nearly triple 1950 and the fledgling industry shows no signs of slackening its growth.

Behind the recreational development lies the big dam projects

House Probe Called Unfair

NEW YORK (AP)—The League for Industrial Democracy Thursday called a House committee investigation of tax-exempt foundations "thoroughly unfair and un-American."

The LID a month ago was attacked in committee testimony as spreading socialist propaganda while enjoying a tax-exempt status.

The organization's executive director, Harry W. Laidler, in a letter to committee members, said they had set a "dangerous precedent."

He also in effect accused those who had criticized the LID of deceiving the committee and distorting and misrepresenting the league's work and purposes.

It was the second tax-free group in a week to issue a blast at the committee, headed by Rep. B. Carroll Reece (R-Tenn.).

The Carnegie Corp., one of the country's largest foundations, beated the committee for ending public hearings before the foundations had a chance to give their side publicly.

Laidler wrote that the action reminded him of a judge who permitted the prosecution to address the jury but then told the defense attorney: "Sit down, sit down, you'll confuse the jury."

Andean Landslide Toll Reaches 103

MEDELLIN, Colombia (AP)—Twenty-seven more victims of Monday's Andean landslides were recovered Thursday, bringing the toll to 103.

More than 60 are still missing under the tons of earth and rock that tumbled from the mountain-side five miles from here.

BOY RECOVERING
Michael Ray Wallace, 7, of 1255 Vista Ave., injured seriously when he fell from his bicycle into the path of a car on Pringle Road last Sunday, was reported in good condition at Salem Memorial Hospital Thursday night.

\$283 Lost in Burglary at Four Corners

Statesman News Service
FOUR CORNERS—State police and the Marion County sheriff's office Thursday were pressing an investigation of the burglary of the Four Corners Pharmacy—a crime that yielded \$283.55, most of it in cash and currency.

Discovery of the burglary was made by one of the owners, Andrew E. Johnson, when opening the place for business Wednesday. The other partner is Norris M. Zinn, also of Four Corners.

Police said entry into the store was made by prying one-half inch thick bars off a restroom window. A total of \$225 was taken from a cash register and from a locked cupboard. Also included in the loot were eight low-priced watches.

Untouched was a considerable sum of currency, as well as a supply of narcotics and other valuable merchandise. The overlooked money was in plain sight of the culprits.

Slowdown of Polio Hoped By Inoculation

GREYBULL, Wyo. (AP)—Hope was expressed Thursday by the deputy health officer of Big Horn County the inoculation of 1,400 children has succeeded in slowing down a polio epidemic which so far has struck 32 persons in the county.

Dr. Anthony S. Rogers said no new cases have been reported to him in the last several hours. However, he warned, "I expect a few more isolated cases."

"I think," Rogers added, "the mass immunization of the children now is taking effect."

Some 1,400 school children in Greybull and Basin were inoculated last week with gamma globulin furnished by the state.

The protective measure—which exhausted two-thirds of the state's supply of the serum—was undertaken after infantile paralysis struck down a number of people in the two small towns and resulted in the death of one 8-year-old child.

Two Towns, Same Name, May 'Feud'

CARLSBAD, N. M. (AP)—The secretary of the local Chamber of Commerce was going armed with two pistols, a knife and a blunderbuss he calls a "hawg rifle" Thursday waiting for "upstart Californians."

The Carlsbad, Calif., chamber started it off Wednesday by writing a letter asking this city to change its name to "avoid confusion."

Louis Whitfield, secretary of the New Mexico chamber, accused the California city of 4,383 of trying to "bask in the glory" of the New Mexico Carlsbad of 36,000.

Brandishing the hawg rifle, he dared the Californians to "come and make us change our name."

The New Mexico chamber is still waiting for the letter the California Carlsbad wrote asking the name change.

"Maybe," Whitfield suggested, "the Pony Express hasn't left that 'burg' yet."

Although fossil giraffes are found in Europe and India, the wild living animals are now found only in Africa, south of the Sahara.

City Fireman Rejects Pay, Awaits Ruling

A Salem fireman and city officials await with keen interest a forthcoming ruling from the state's attorney general.

The fireman, Harold L. Maynard, 1228 Eighth St., is back on the job after a ten-day suspension handed him upon his return from National Guard camp at Ft. Lewis.

Maynard has rejected a pay check from the city for the period spent at camp, indicating he wants to await the ruling from the attorney general.

The fireman was suspended on two counts of insubordination, according to Chief E. L. Smith. The two causes of action were Maynard's failure to report as available for duty immediately upon his return to Salem and his refusal to report to the city the amount of his military earnings. City Attorney Chris Kowitz recently ruled that, in effect, the city is not liable for full pay for military training. The ruling held that the city is liable only for the difference between the military pay and salary of the regular job. On the other hand, a state law stipulates that public employees be given two weeks leave without loss of pay or benefits.

During the Dark Ages the building of forts in Western Europe was hampered by the fact that warriors of that period despised the necessary handicrafts.

Injured Pair Still Critical

SILVERTON—Still listed in critical condition at Silverton Hospital Thursday night were Ralph McCulley and Ciyant Lowery, both of Silverton, who were injured in a Sunday highway accident near Monitor.

McCulley and Lowery were hurt when a car driven by Buddy Dwane Groah, also of Silverton, plowed into a ditch on Meridian Road, one-half mile from Monitor. Three other persons sustained minor injuries in the accident.

ACORNS FROM THE **Oak Rooms** WITH DEL MILNE
GOSH . . .
Even old Del was surprised when I counted 16 kiddies' noses in the Oak Room on July 5th—just while I gorged myself! I bet a lot of Papas were surprised, too—to find that our waitresses bend over backwards to help. Why, they'll even split plates (that is, the meat on them) to help the family budget. And, of course, children's portions are available. Yep—like I've always said—the Hotel Marion is a wonderful place for the family to dine!
Remember—in Salem—it's the
