Inside TV ...

Hollywood Brains Help TV to Grow

By EVE STARR

HOLLYWOOD — TELEETORIAL—THE MARCH IS ON: While television has long been a young man's game, as with most industries in their diaper stage, as it consolidates its gains it is fast attracting older heads and their tremendously helpful experience.

The evident march of movie moguls into TV is gaining momentum and is shaping up into a happy parade. The ability and all-around strength of motion picture brass such as David O. Selznick can be a great benefit to the progress of the newer industry and a lift to the quality of its entertainment.

Selznick will enter TV with an imposing background of 30 years of outstanding production, twice an Oscar winner as best motion picture producer of the year, and noted for his development of such stars as Vivien Leigh, Ingrid Bergman, Gregory Peck, Jennifer Jones, Joan Fontaine and Katherine Hepburn. His "Gone With the Wind" chalked up the biggest gross in history. With the vast know-how of Selznick added to television's great fund, along with the talents and experience of other leaders like Disney, TV is racing towards the perfection we've long anticipated.

Not until late in October will Selznick make his debut, but it will be with a resounding bang. He's now fitting together an unprecedented two-hour multi-network show to commemorate the Progress of Light. It will be Light's diamond jubilee and will be a dramatic interpretation of the spirit and meaning of American life past, present and future. He plans a few new techniques new to TV and, always identified with the new and unusual, he's bound to give us a spell-binding show.

While we're eagerly awaiting a welcome to Mr. Selznick into video, and know that his presence will add much to its progress, we're even more enthused over this further proof of a trend—the march of the big men of the entertainment world onto our television screens.

HOLLYWOOD—SHORT DEBUTS: When summer fades the regular "Comedy Hour" will bloom again, entering its fifth season of outstanding shows and stellar names. This was the first program to bring us big-name comedians on a regular schedule, as well as the first to evolve the rotating format for stars.

"They Strike By Night" promises to be an exciting series based upon the Underground in Europe during the war there. Old stuff to us by now, with so many plays and serials covering that cloak and dagger field, such mystery and adventure can continue to hold our interest indefinitely if well written and presented. But it'll be brand new stuff to Larry Harmon who will make his debut as a TV producer with this new series, now in pilot film stage. Larry has many years of radio acting behind him and has worked in 100 films. His TV experience to date has been limited to the title leg in Hal Roach Jr.'s television filmed series "Bozo the Clown," but it seems he's now headed for bigger and more serious things.

Electric 'Mobile Top Speeds at 20

CHILLICOTHE, Mo. UP — As a hobby, Jesse Newman drives a shiny black 1919 Milburn Electric car with less than 9,000 miles on the speedometer.

The box-like vehicle has room for five passengers in its blue-plush-lined interior. It is powered by 10 wet cell batteries.

"Going downhill with a full head on, we can hit about 20 miles an hour," Newman says.
