A SENSIBLE NEW WAY TO Control your weight!

This new Sunkist Orange weight-control plan helps you hold down weight to an attractive, healthful level and keep it there.

This is not a reducing plan as you know them. It's far simpler and makes much better sense. There is no dangerous dieting, no tiresome calorie counting, no back-breaking exercises, no expensive pills or drugs.

You simply follow this rule:

Eat a Sunkist Orange 30 minutes before lunch and dinner each day.

Then eat moderately at mealtimes, as you should. This becomes amazingly easy because eating the fresh orange with its healthful "meat" (rich in cellulose) helps curb your appetite the natural way and gives you new meal-time hunger control.

This new eat-an-orange plan is working for others. Why not give it a fair trial, say for three weeks? Take advantage of the big SLM-JANE orange sale at your market and start today.

Why so many modern diets call for fresh oranges When you eat less, your supply of vitamins, minerals and other food essentials is reduced. Fresh oranges help maintain a proper balance of these values because they are a storehouse of health. Both their juice and meat are rich in vitamins and minerals. And their important protoporphyrins actually help you get more of the health essentials from the other foods you eat. Whether you are on a weight-control plan or a strict reducing diet, include fresh oranges... fresh Sunkist Oranges, the finest brand you can buy anywhere.
