State Purchasing Department Buys Quality, But Not Luxury Safe Larceny

By THOMAS G. WRIGHT

Staff Writer, The Statesman The state may eat steaks and drive a new car, but they'll not

be filet mignons or Cadillacs. That's policy of the purchasing division of Oregon's Department of Finance and administration, now in its third year of opera-tion as buyer for the thousands of items needed by the state. "Premium merchandise has no place in the state's business,"

rules Harry Dorman, state director of finance. Specifications for each of the Official Says many items the state needs have

sion's specification department, aimed at getting the state the most for its money, both in quality and quantity. So no matter if some department

head (except the government) asks for a Cadillac, it will probably turn out to be a Ford or a Chevrolet or a Plymouth which the specifications department consid-Two cars received moderate ers the best transportation the

Requests, strictly for competitive bidding, are never allowed to list a specific trade name or page of the Arizona Republic. The Dr., and Charles M. Schultz, Au- brand, nor are departments allowed to limit their requests so rigidly that only one brand would newspaper was given Kelland's meet the specifications.

> **Bring Criticism** Such regulations, written into the state's purchasing laws, bring men who have been placed in down some of the criticism on the division. Vendors, especially those not bidding regularly, find the 157page, 9-section purchasing manual too burdensome and, because of the strict regulations, many suppliers decline to bid on state re-However, all they need to read are two pages of the detailed brochure.

Despite the dropping off of disgruntled suppliers, the state has plenty of bidders, sometimes too many. Some lists run to 35 to 40 bidders, all of whom receive pur-chase requests adding considerable to the cost of running the Finance Department, now estimated at \$269,000 for the biennium.

Buyers use telephone directories, past contracts and requests from companies to build up the bidder lists. They all continue to keep getting the purchase requests as long as they bid or return the forms with no bids. If a bidder fails to return three times or fails cruel and inhuman treatment and to keep a contract he is automatically dropped. Can Reject Bids

Bidders seldom try to take advantage of the state even where only one or two are likely to make offers on a particular item or project. The state reserves the right to reject all bids if they consider

The erasure law, rule prohibiting alternate bids, and specil cause most of supplier complaints, division officials assert. State law governing purchases say any bid carrying an erasure which has not been initialed and certified must be thrown out. The rule is to prevent any aspersion on the de-partment which might be charged with altering a bid to help a favorite bidder.

Alternate bidding is considered an attempt to "throw dust in the

eyes" of the buyers by the purchasing division. Exact specificaand the lowest bid fitting those specifications is accepted unless the bid is thrown out completely. So the division takes a dim view of alternates which of course do

The specifications, based on research and standards of the specifications section, draw criticism (This is second of three articles or chiefly from bidders who formerly partment operations.)

Statesman, Salem, Ore., Sunday, Sept. 19, 1954—(Sec. 1)—5 **Engineer's Death Cut History Project Short**

Marion County history, the | + weather and civic aspects of en-gineering were hobbies of the late Marion County Engineer Hedda Swart, who died unex-

pectedly early Saturday morning. Funeral services will be held Tuesday at 10:30 a.m. at Clough-Barrick Chapel. Private concluding services will follow at City View Cemetery, Rev. George

Death came to the widelyknown, long-time county engineer at his home, 2820 S. 12th St., following a heart attack.

Swart's lean, sturdy figure was familiar sight on county roads, which were his first love. He session was James Herndon Cline, played an important part in help-40, of Fredericksburg, Va., who ing to establish and build many was held for trial on a charge of of them during his almost 40 years in office. He was also interested in coun-

ty and Salem planning and zoning. He was one of an original group named 27 years ago to explore county-wide planning. During one 25-year period he did not miss a single meeting of the organization.

He also served continuously on the Salem Planning Commission since its organization 28 years ago. He was chairman of this group for several years. Recently he had been engaged

County. He had filled several notebooks with data gathered from musty, original county court minutes—a slow, laborious job. Soft-spoken Swart had stored away thousands of nuggets of recollections concerning roads
