

## Ike's Journey Reminiscent Of Campaign

By MERRIMAN SMITH  
United Press White House Writer  
WALLA WALLA, Wash. (UP)—  
Backstairs at the air-borne White House:

What a trip this is! To reporters and photographers, and some of President Eisenhower's staff, the tight schedule and plane-hopping are reminiscent of the 1952 campaign.

As the President returned to Denver earlier this week from six days of loafing at Fraser, Colo., Press Secretary Jim Hagerty said, "Men, this is the end of the vacation. Nothing but work from now on."

How right he was. Two major speeches today. McNary Dam on the Columbia River in the morning, Hollywood Bowl in Los Angeles tonight.

The reason the President spent last night here in Walla Walla was to share his presence between the states of Washington and Oregon. His plane landed here Wednesday but he took off for Los Angeles Thursday from Pendleton, Ore.

As a member of the Eisenhower staff explained, "It's like Fort Worth and Dallas—a President doesn't dare visit one without going as fast as possible to the other."

### Destination Secret

Hagerty gets his own vacation at the conclusion of the President's current Western trip. His holiday destination is a big secret. Jim says he is disclosing his vacation site only to the President and the White House switchboard.

"After we get back to Denver from Los Angeles," Jim told the White House news crowd the other day, "I won't see you guys again until Oct. 19."

"Gawd," exclaimed a reporter. "Back here in Denver?"

"No," Hagerty said. "In Washington."

Which cleared up at least one point. The President will be back in Washington by Oct. 19. More likely, on the afternoon of Oct. 14 or the morning of Oct. 15.

### Hero to Valet

Custom has it that no man is a hero to his valet. That doesn't go for Mr. Eisenhower's valet, John Mooney, who idolizes the chief executive. And with some reason.

Last Monday morning, Mooney was riding from Fraser to Denver in a White House station wagon bearing the President's baggage.

The vehicle broke down with a flat tire on Berthod Pass, however and in a few minutes, along came the presidential limousine.

Mr. Eisenhower spotted Mooney standing by the highway, had the car stopped, and Mooney got in the back with the President and his host at Fraser, Aksel Nielsen, riding the rest of the way to Denver on a jump seat.

## Power Firm Seeks Supply From Canada

SPOKANE (AP)—The Washington Water Power Co. said Thursday it is negotiating with a Canadian company to buy surplus electric power to add to the firm power supply of the Northwest Power Pool.

Kinsey Robinson, president, said WWP contemplates building a 100-mile, 230,000 volt line to operations of the Consolidated Mining and Smelting Co. of Canada near Trail, B. C. If the International Joint Commission and other governmental bodies approve the plan, it could add 125,000 kilowatts of firm power to the pool, he said.

Robinson said WWP proposes to purchase the surplus power output at the Trail plant, plus the increase in power that would result at federal plants on the Columbia River in this country.

He said the power output at Washington and Oregon plants would be increased through integration of the Federal dam system here with water storage of Kootenay lake, upstream on the Columbia River.

The Water Power would spend \$4,300,000 to build the line, Robinson said, and the Canadian company would spend \$1,500,000 at its plant to produce the surplus power.

## 2,700 Typhoid Shots Given in Klamath County

KLAMATH FALLS (AP)—Although there have been only two cases of the disease reported, about 2,700 typhoid immunization injections have been administered to Klamath County residents this week, county health officials said Thursday.

The two cases were reported last week from a suburban Klamath Falls community.

## Drive Appears For German Unity

BONN, Germany (AP)—Labor forces in Europe appeared headed Wednesday night toward a drive to inject German unity into the London conference.

The Socialists in Germany demanded Chancellor Konrad Adenauer bring up the subject, contending sovereignty and rearmament for the West—even should it be granted—is only a stopgap measure.
