Excitement's Over

Coot Stew, Squirrel Pie Given As Suggestion for Holiday Dishes

By MAXINE BUREN
Statesman Woman's Editor

It is time to be absolutely no reference to Thanksgiving in this story other than to mention that what's past is past. If the stuffing isn't in the turkey and the turkey in the oven by now, there isn't much chance of dinner being served very soon. And unless dinner is well on its way to completion, you'll never have time to read this story.

So with this confusing statement made, let's get on with the tale:
We aren't finished with New England cooking by a long shot. (And here someone might read into the lines a faint reminder that Thanksgiving originated in New England), so looking over the notes we took on our autumn visit to the east coast we find reference to wild game, which might be of interest here.

Several times during our talks with New England cooks the subject of coot came up in the conversation, each time it brought a bit of mild discussion. Some think coot stew is good, others say the cooks should follow the old recipe that says "cook the coot in water with a brick for several hours. When the brick is soft, throw away the coot and eat the brick."

But it must be popular, for every Yankee cook book gives it, and squirrel pie, too, and coot of course is a water fowl, squirrel is not.

COOT STEW
Skin 2 coots (do not pick). Wash in salt water and let stand overnight in a solution of 1/4 cup salt and water to cover. Place stew kettle and boil for 10 minutes. Remove and pour off water. Return to the kettle and add 1 teaspoon salt, 1/4 teaspoon pepper and fresh water to cover. When tender enough to break the joints, remove from water. To the liquor, add 4 medium-sized onions, chopped, 6 large potatoes, diced, 1 sweet potato, 1 cup diced turnip and cook until almost done. Add coots that have been cut up. Thicken slightly and serve.

SQUIRREL PIE
Dress 4 squirrels and cut into suitable pieces to serve. Soak overnight in slightly salted water. Wash well and parboil 15 minutes. Rinse well in hot water and simmer in two cups water for about an hour or until tender. Remove meat from bones and put into a pastry-lined deep dish, which has an inverted cup in the center. Thicken and season gravy, add 2 tablespoons butter, and pour over meat. Top with tiny baking powder biscuits or pastry crust. Bake at 450 degrees until crust is well browned. At least 4 squirrels are needed to fill a 2-quart dish and they will serve six persons. The bottom crust is sometimes omitted.

GOOD REASON
In a small cemetery in Newport R. I., stands a tombstone bearing the inscription "To the first man to eat a tomato." The "love apple" has come a long way since the time of this man's decease. At first they were eaten raw with sugar, or stewed with seasonings and a generous lump of butter. Now in New England they are pan fried in thick unpeeled slices or scalloped with onions and breadcrumbs.
Parsnips, turnips, sweet potatoes and squash are popular in the New England states. We saw few greens, though I'm sure they grow them when wanted. Pumpkins were piled in huge heaps at every corner store. There was, we are sure, a fine crop of pumpkins.

One of the nicest customs we noted on the trip was the number of large or small pumpkins sitting on the doorstep (there are few porches) as a gesture of recognition of the harvest season. Many front doors were decorated with bunches of variegated ears of dried corn, another harvest-time custom, much like that of putting swags of greens on the front doors for Christmas.

Artist's Work Is Accepted

The show opened November 19 and will be up until January 2. The prints are all signed and are for sale.
Miss Wolf's piece is a woodcut of a madonna designed for a Christmas card. It is small, and
