TAIPEI, Formosa (UP)—Greg MacGregor of the New York

Times complained Wednesday of-

ficers of the U.S. 7th Fleet delayed or suppressed every dispatch he sent during two weeks at sea. MacGregor told Vice Adm. Al-fred M. Pride he was not even allowed to send a message telling the Times where he was or why they were receiving no reports

The correspondent said naval officers were "very generous with suggestions for changes in my

copy, which they hinted would keep me on the good side of the

Navy and get my dispatches transmitted."

"The admiral told me he was

very much surprised and disturbed

and would take steps to clarify and correct the situation im-mediately," MacGregor said.

HOLLYWOOD—IT'S TIME TO shows you've paid for. PASS THE HAT INSTEAD OF To date, payments have been

THE BUCK: You want more rewarding and enthusiastic. Regood TV shows. turns indicate that most people So do we. That will pay from a quarter to a dollar per family for good shows not otherwise available through adc o m plaint vertising sponsors, and that such throughout the income for one good movie, for nation. And it's example, can gross from better going to remain than a half to better than a full con stant until million dollars if pay-as-you-go is we all recog- installed nation-wide. That means nize the one Hollywood, as a movie center, can

glaring defici-ency of television and agree to with television than in fighting it correct it.

TV has absolutely no economic support of its own. It subsists vie theatres will close and motion on what it can get from countless pictures will resort to television other industries, advertising showings almost exclusively. This hand-outs from soap, cars, beer TV income can be in ADDITION and razor blades. It's got to build to the usual theatre grosses of and earn an income more direct-ly on its own. And that means week you name there are more pay-as-you-see programming and willing, potential movie attenders

Many will argue that there should be enough advertising sponsors to foot the bills for sufficient quality entertainment of the ficient quality entertainment on as an attending theatre audience. 10 cents, three-for-a-quarter rate didn't bring in any more revenue than the old fashioned nickel rate. TV, but these people are more major television programs right picture will take in ten million now is resting, and rather heavily dollars in a couple of hours. Well, upon a scant 20 firms, and there a third of our sets won't be tuned just aren't any more large en- in to such a show, simply because ough to foot such heavy bills. Any additional high-quality TV shows forthcoming are going to have to would be tuned to other favorite be financed from but one direc-tion, and the finger is pointed balk at the charge or even be straight at you and us.

An outstanding pioneer in this pay-as-you-go field is Zenith, who has run tests in New York and Chicago to prove first that the system can work very smoothly and that the general public won't squawk over a reasonable charge for added entertainment in the us more good TV entertainment, form of new motion pictures, out- but those who are doing so now standing Broadway shows and can't afford to spread their sporting events.

Progress has been interesting, conclusive and rapid. Already Zenith's original name for the system, Phonevision, is obsolete, because use of your telephone line for unscrambling pictures and sound is no longer necessary. Subscription is now the more cor-rect term. The simplest method would be just that, subscriptions for a weekly, intricately-punched card to be inserted in a gadget at-tached to your set, automatically

## **Thief Steals** Marshal's Saddle

THE DALLES (UP) — An un-known thief has saddled himself with a prize that might not set as comfortably as he thought, according to Harold Sexton, U. S. Marshal for Oregon. The thief stole Marshal Sexton's saddle, and two others, from a ranch 45 miles south of here last weekend.

Experts estimate that about 20 million Americans have colds on any one winter day.
