

U.S. Allies Urged to Confront Reds With Violations in Korea

By JOHN M. HIGHTOWER
WASHINGTON (AP)—The United States is urging Britain and other allies to join in making the Chinese Communists face up to the consequences of their violations of the Korean armistice agreement, it was learned Sunday.

Only by facing this situation honestly, the State Department has argued, can the democratic nations have any real hope of getting agreements with the Chinese Reds which will be respected in the future.

Salem Firm Burglarized

A burglary at the Salem Auto Parts Co., 365 N. Liberty St., resulted in theft of an undetermined amount of money, city police said Sunday.

Officers said the firm was entered sometime between closing time Saturday and early Sunday morning. A cash register reportedly was opened but owner Frank Ward said it was not yet determined how much money was taken. An upstairs office and desk in the firm were ransacked but Ward said approximately \$1,000 in checks in a desk drawer were untouched. There were indications, however, that some tools may have been taken.

Police said the cash register was removed from its mounting and left on the floor behind a counter. Investigation indicated entry was made by breaking a glass panel in a rear double door. Ward said the same method of entry was made in a burglary at the firm last December.

REA Association Demands Hoover Commission End

WASHINGTON (AP)—The National Rural Electric Cooperative Assn. urged Congress Sunday to abolish the Hoover Commission on Government Reorganization.

The association said Herbert Hoover, "repudiated by the American people" in his bid for reelection as President, "has returned to a high place in the land as chairman of the commission to carry out his earlier aims of serving the vested interests against the common people."

The cooperative, which says it represents more than 3 1/2 million rural power consumers, centered its fire on a commission report of a week ago which recommended a broad reorganization of the government's 104 lending, insuring and guaranteeing agencies.

Airliner Crash Lands at Chicago 66 Escape Injury

CHICAGO (AP)—A four-engine American Airlines plane with 66 persons aboard crash-landed at Chicago's Midway Airport Sunday and nosed into the runway at about a 90-degree angle.

None of the passengers or crew was injured seriously, officials said.

Among the 60 passengers was singer Connie Boswell who is crippled from polio. She and her husband, Harry Leedy, were en route to New York to make records.

After landing safely, she sang "We came home on a wing and a prayer"—words from a song which was popular during World War II.

An American Airlines spokesman said the nose wheel buckled as the plane was landing on three engines. The spokesman said the pilot had feathered the No. 4 engine on the right side because of minor mechanical trouble.

Dulles Warns of War Possibility

NEW YORK (AP)—Secretary of State John Foster Dulles said Sunday night the United States "dare not be blind to the fact" that it may again be forced to "forego peace in order to assure the blessings of liberty."

In an address at a convocation of the United Negro College Fund at the Metropolitan Opera House, Dulles said:

"Peace is the product of many wills, and not merely of one alone. In the past it has been necessary to forego peace in order to assure the blessings of liberty. We dare not be blind to the fact that that may happen again."

Eugene Girl Wins Elks Scholarship

PORTLAND (AP)—Dorothy Ann Gamblin of Eugene Saturday was named winner of the top award at the Oregon Elks scholarship banquet.

She received a four-year scholarship of \$600 from the state organization and was given a \$400 check by the Elks National Foundation.

William Shive Beehen, Klamath Falls, received the second place award of a \$600 four-year scholarship. Carlene Inman, Pendleton was third place winner with a \$400 cash award.

Winners, who can go to any college in Oregon, were judged on the basis of scholarship, leadership, resourcefulness, and extracurricular activity.

BANK ROBBER ESCAPES
VANCOUVER, B.C. (AP)—Convicted bank robber William Allen Babcock, described as a "menace to society," escaped from Oakalla Prison here Sunday.

Instructor

Sgt. Myron Warren (above), member of the safe investigation detail of the Portland Police Department, who will serve as instructor at advanced police training classes Wednesday and Thursday at Salem's City Hall. Lt. Farley Morgan of the state police will be the instructor at classes to be held here Monday.

Six Charged After Burglary At Dallas Firm

Six persons, three of them juveniles, were arrested at 2 a.m. Sunday morning and charged with possession of stolen property after a report of a burglary at a Dallas service station, city police said.

The arrests were made after Dallas and Salem police joined forces in apprehending occupants of a car in the 1400 block of Edgewater Street in West Salem. Dallas police radioed to Salem officers for help while trying to overtake a vehicle which fled from Dallas shortly after the burglary.

Those lodged in city jail on the charges included Harry William Dettlison, 30, Salem; W. S. Hittson, 34, of 1445 B St.; and Robert Ernest LaChapelle, 27, of 1580 Center St. Officers listed two of the juveniles as 16 and the other 17. The minors also were charged with juvenile delinquency.

Police said a grease gun and two-gallon oil can, items listed as stolen earlier in the night from the A. J. Esau service station at Dallas, were found in the halted car, a 1947 Nash. The station owner reportedly identified the items as those taken from his establishment.

The six persons were held for Polk County authorities.

South Africa Cops Hunting 'Wolves'

JOHANNESBURG, South Africa (AP)—Police are blowing the whistle on street corner wolves in South African cities.

Fines and jail terms are threatened under an act heretofore used against women accused of soliciting for immoral purposes. Several cases are already pending.

Cain 'Hasty' In Wallgren Red Charge

WASHINGTON (AP)—Former Sen. Harry P. Cain said Sunday he was "hasty" and acted "improperly" in 1949 in accusing Mon C. Wallgren of being "soft" toward communism.

Cain, now a member of the Subversive Activities Control Board, said in an interview that he did not know then and does not know now whether the charge was true. He said he made it based on information from others without making the accusers say what "precise information" it was founded.

At the time he made the charge Cain was a Republican senator from Washington and Wallgren was a former governor of the state and a former colleague of Cain in the Senate.

Because of Cain's stiff opposition, President Harry Truman withdrew Wallgren's nomination as chairman of the National Security Resources Board, at Wallgren's own request.

Cain said Sunday that he made the "soft" toward communism charge while telling the Senate he thought Wallgren was not competent for the post. Wallgren denied the charge at the time.

Lie Detector Test Rumored In Slaying

Reports circulated Sunday that a person was subjected to a lie detector test Saturday in connection with the unsolved slaying of Silverton hop rancher Ervin Kaser.

But Marion County Sheriff Denver Young refused to confirm the reports, replying, "I won't say such a test wasn't made, but I also won't say one was made."

Young did say no new suspects have been uncovered in the case and added that a continuing investigation has produced no new other developments.

Still to be found is the murder gun, believed to be a .30 caliber rifle, which an unknown assailant used to slay the 49-year-old Kaser in front of his Silverton area home the night of Feb. 17.

Polish Sailor Desertions High

VIENNA, Austria (AP)—Communist political officers aboard Polish ships are getting a dressing down from Polish newspapers for the frequent desertion of crewmen in Western ports. The political officers are deputies to the captains.

They are accused in papers newly arrived in Vienna of simply spying on the sailors and making no effort to enlighten them on such questions as why Westerners enjoy a higher standard of living than Poles and why there is "chaos, inability, bad work and even thefts" in Polish shipyards.

Senate Group Says Powell Betrayed U.S.

WASHINGTON (AP)—The Senate internal security subcommittee Sunday accused John W. Powell of San Francisco, former editor of The China Weekly Review, of "unspeakable betrayal of America's cause in the Far East."

It said he "remains at large" in defiance of the Senate and declared he must be brought back before the subcommittee for further questioning.

In a report on investigations of the last two years under the former chairmanship of Sen. Jenner (R-Ind.), the subcommittee said: "There is no precedent in recent American history — if indeed there is precedent in all American history — for the conduct of John W. Powell."

"His unspeakable betrayal of America's cause in the Far East is matched only by his arrogance toward the Senate of the United States."

The subcommittee received testimony that Powell's magazine, published in Shanghai, was used by the Chinese Communists for forced indoctrination of American prisoners of war in Korea. Former POWs told of being beaten and tortured for refusing to subscribe to its articles.

The report said "The evidence strongly indicates that The China Review was both controlled and supported by the Chinese Communist government."

As a witness before the subcommittee last year, Powell refused to say whether he was a Communist or to answer numerous other questions about his relations with the Peking government.

He invoked the Fifth Amendment protection against possible self incrimination.

Stocks Prober Says Witness Praised Reds

WASHINGTON (AP)—Sen. Capehart (R-Ind.) demanded Sunday that Harvard economist John Kenneth Galbraith be recalled as a witness in the Senate's stock market inquiry to explain a 1949 pamphlet which, Capehart said, "praises communism."

Galbraith denied the pamphlet did any such thing. He accused Capehart of deliberately quoting one passage out of context, and said the 1949 publication was "supported in general" by Milton S. Eisenhower, brother of the President, and Allen W. Dulles, head of the Central Intelligence Agency (CIA).

Capehart stirred up this new storm in the stock market controversy in the course of a television debate (NBC's "American Forum") with Sen. Monroney (D-Okla.). Both are members of the Senate Banking Committee which, under the chairmanship of Sen. Fulbright (D-Ark.), has been studying market conditions.

Capehart said he would submit a resolution Monday asking that Galbraith be put back on the witness stand for questioning about the pamphlet, called "Beyond The Marshall Plan," which the Harvard economist and onetime Office of Price Administration official published six years ago.

Pearl Divers Strike; Seek Increased Cut

MADRAS, India (AP)—A thousand pearl divers refused to take the plunge at Tuticorin, South India, Sunday, stalling a state-run operation which hoped to net 27 million rupees (more than four million dollars).

The striking divers complained about the profit-sharing terms.
