PLAN # 306 AP

CAREFUL PLANNING can pack three bedrooms and bath, large living-dining room and efficient kitchen in 1,000 square feet of space. This plan shows one way to do it for an economical nobasement house. Plenty of closets, a utility room and a storage shed in the carport eliminate need for a basement. The economical rectangular construction of the house is disguised by carport be bleached by tying them up as on one side and covered terrace on the other. This is plan 306AP by Walter T. Anicka, architect, 617 Forest St., Ann Arbor, Mich. The architect suggests mineral wool insulation and asphalt shingles for the roof.

### Questions - - Answers | to seed in midsummer. Endiversity | to see

Question - Last year the this time of the year as our men flower stems on some of my iris go fishing and we women stay became limp and the buds hung around the place. Also perhaps down and didn't open. This some that look good in summer?

Leaf crops grown spring the leaves came up stiffly N. D. C. and with good color. There are, Answer — For native shrubs bowl salads, include corn salad as yet, no buds but some of the larger leaves are beginning to gon Grape. Laurestinus, Moundroop. What is wrong? The soil tain Laurel, azaleas (not the low land garden cress, which gives a is not rich. L. D. W.

Answer - Sounds like a bacterial disease which comes from others), some of the common old continued moist weather. The rhizomes are not involved and mock orange are all good. You the plant will likely recover the plant will likely recover. There doesnt' seem to be much that will do well along the Sansoil about the plants—not deepare about the best helps. One Vegas, Nev. for our vacation in grower told me that he had June. into the soil around the rhizomes and this seemed to help.

When this is watered into the soil, or even of Flowers, Where is it? And is worked lightly into the top, con- it open to the public Visitors. trol will be quite effective.

Question — Have a cabin up along Santiam. Want to do some planting. Theres' quite a few trees on our couple of acres, but would like some shrubs. Are there any that are not native that would look and do all right?

Answers — The Fleet of Flowers is a Memorial Day service held each year at Depoe Bay. The program begins at 2 p. m. And it is definitely open to the public as it is best seen from the highway at Depoe Bay. If you want to view it, it is wise to get that would look and do all right? Or are there some native shrubs to get near enough to see much. I like to be beneath the bridge like some that would bloom about

Leaves for **Daily Salad** 

A tossed salad served daily at the family dinner will do more for your health than any vitamin tab-lets you can buy.

When you grow your own salad leaves you can serve a variety which no one who depends upon the market staples could ever eq-

Even the youngest children will welcome a salad that is well blended and properly dressed. The dressing is not the subject of this discussion, however. It seeks to point out the variety of salad leaves which can be easily grown in any home garden, and made availible

Leaf lettuce is preferred by most chefs over head lettuce for salads. It is also far richer in vitiamins. It comes in two types the butter leaves, and the crisp leaves. The butter leaves are thicker, and darker green, with finer flavor, experts say. Crisp leaves are lighter green in color, thin and somewhat brittle. Examples are Black Seeded Simpson, a butter type and Grand Rapids, a crisp leaf type. Experts give first place in their esteem to the butter
