

## Excellent-Bred Jerseys Go Comparatively Cheaply at Sale

(Story also on page 1)  
A lot of excellently bred Jerseys went comparatively cheaply Tuesday night at the annual Your Opportunity sale held at the Oregon State Fairgrounds. This was held in connection with the 87th annual American Jersey Cattle Club convention which will close here Thursday.

Only 14 of the 43 cows sold will stay in Oregon. John and Lola Gale of Canby bought three for \$1,075. One of their purchases was a Pelson cow from Vancouver, B. C.; another was from Domingo Onerderra farm at Boise, Idaho, and the third was one from the Finnicum farm at Dayton.

**Yearling Heifer**  
Aubrey L. Grayson bought a yearling heifer from Newell Mills of Fallon, Nev. Heavily Oregon purchaser was Sweet Jersey Farm of Sixes, whose owner, A. W. Sweet, bought five.

Other purchasers were E. S. Smoot of Centerville, Utah; John Holleran of Wayzata, Minn.; Neill Mathews of New Plymouth, Idaho; Forest and Ruth Clark of Turlock, Calif.; Victory Jersey Farm of Tulia, Texas; Jim Curtin of Vancouver, Wash.; J. T. Bell of Nampa, Idaho; Frank A. Turner of Nampa; R. I. Holladay of San Diego, Calif.; Eugene Fisher of Halsey, Ore.; Lewis Johnson of Vale; Bill Simas of Elk Grove, Calif.; J. E. Royland of Cloverdale; H. T. Alvarez of Jacksonville, Fla.; H. L. Troop of Cloverdale; J. K. Stuart of Bartow, Florida; John R. Sibley of Spencer, Mass.; Neill Mathews, New Plymouth, Idaho; Horace Logan, Nampa, Idaho; Jack Die and Bernard Frese, from Sebastopol, Calif.

## Jury Upholds Indictment Of Mrs. Smith

PORTLAND — A circuit court judge's ruling Tuesday upheld the grand jury indictment of Mrs. Marjorie Smith on a first degree murder charge.

She will have to enter her plea June 7 to the charge that she plotted the car-bomb slaying of her husband, attorney Kermit Smith, in April.

Victor L. Wolf, 45, earlier said in open court that Mrs. Smith laid the plot, and he planted the bomb at her direction. He cited an old law, and asked that the judge, rather than a jury, consider his case.

## Barber Sentenced To Life in Prison

KLAMATH FALLS — Circuit Judge David R. Vandenberg Tuesday sentenced Curley Coon, 52, Klamath Falls barber, to life imprisonment for the slaying of his wife, Lily, 51.

Coon was convicted of second-degree murder last Friday. Testimony was that the woman was beaten to death after a drinking party.

Defense attorneys indicated they would ask a new trial.

## Haymes Wins Fight Against Deportation

WASHINGTON — Dick Haymes, Rita Hayworth's singing husband, Tuesday won a U. S. District Court fight to avoid being deported.

Judge Burnita S. Matthews ruled he was not subject to deportation because of flying trip he made to Hawaii in the spring of 1953 to keep a singing engagement and court Miss Hayworth. He married the film star later.

The Immigration Service claimed in returning from Hawaii Haymes re-entered the United States "from a foreign port or place or from an outlying possession." Since Haymes is also an alien ineligible for American citizenship, the service ruled he was subject to deportation. When a deportation order was issued last November, Haymes appealed to the District Court.

## 4 Die in Jet Bomber Crash

SHREVEPORT, La. — A jet bomber crashed to earth Tuesday shortly after taking off from Barksdale Air Force Base and carried four airmen to flaming death.

The B47 Stratojet made a steep climb after the take off from about 300 to 500 feet," one eyewitness said. "It leveled off momentarily and then banked sharply to the right. The plane's nose and right wing struck the ground about 300 yards from the south end of the main runway."

The big craft burst into flames as it hit the ground. Wreckage was scattered over a 200-yard area.

## Borrowing of \$14 Million for Gas Work Okehed

Public Utilities Comm. Charles H. Heltzel authorized the Portland Gas & Coke Co. Tuesday to borrow \$14,000,000 to help finance its conversion to natural gas.

The company will begin using natural gas from the San Juan basin next year.

The company was permitted to issue \$6,000,000 of 4% per cent sinking fund bonds, and to issue \$8,000,000 worth of promissory notes.

## State's Geese to Extinguish Weeds

The State Forestry Department plans to buy a flock of geese.

Vern McDaniel, superintendent of the Oregon forest nursery, said Tuesday the geese would be used to eat the weeds at the nursery.

McDaniel said, however, he is still hunting for a way to stop the birds from eating the tree seed he plants. He thinks four or five falcons might do the trick.

## 'My Daddy's Coming Home'

SWEA CITY, Iowa—Harold Fischer III, 6, son of Capt. Harold Fischer Jr., points with pride to pictures of his father, double jet ace whom the Chinese Reds released Tuesday. "Maybe he'll take me swimming again," the youngster said, recalling happy times with his father, at the farm home near here of Mr. and Mrs. Harold Fischer Sr., his grandparents.—(AP Wirephoto.) (Story on page 2, sec. 1.)

## Ike Predicts Deadline for Polio Project

WASHINGTON — President Eisenhower said Tuesday the first phase of the anti-polio campaign — double inoculation of all first and second graders — "certainly" will be completed before the infantile paralysis season reaches its peak in August.

Enough Salk vaccine will be manufactured within the next 30 days to do the job, he announced at his news conference.

Within 60 days, the President added, he has the assurance of Surgeon General Leonard Scheele that both the first and second shots for all youngsters in the highest priority group will be administered.

The immunization procedure calls for three shots, the first two given fairly close together and the third after an interval of about seven months.

In a statement issued soon after his conference, Eisenhower said developments in the campaign during the last week have been "both eventful and encouraging." He referred to the agreement on revised safety standards reached by U. S. Public Health authorities and the six drug companies licensed to make the Salk vaccine.

"The surgeon general of the Public Health Service tells me that it is hoped to release some vaccine within a few days," the President said.

He acknowledged there have been delays in the program since it was launched early in April.

"Because of scientific work that was done during that delay science has learned new things about the way viruses behave in large scale manufacture and about the way we should make vaccine," he said.

Another precedent - breaking proposal by Manteuffel was that civilians should head all the departments of the Defense Ministry. He suggested the creation of a small defense council under the commander in chief, also a civilian. The parliamentary opposition should be represented on this council, he suggested.

## Reich General Asks Civilians Control Army

BONN, Germany — The West German armed forces should be subjected to a strict civilian control on the American pattern, former Gen. Hasso von Manteuffel urged Tuesday night.

A tank commander in World War II, Manteuffel is now a Free Democrat member of the Bundestag (lower house). He recently toured military installations in the United States with a party of deputies.

In a broadcast over the Hesse radio, he evidently drew on that experience in recommending that West Germany copy the American system in setting up its armed forces, to total a half million men, as a partner in the North Atlantic Treaty Organization (NATO).

He said the Bonn parliament should be able to check on military activity through questioning the top brass in committees, as is done by Washington congressional committees.

That would be a revolutionary measure in German military history. German generals have traditionally regarded themselves as immune from interference by anyone except the head of state.

Another precedent - breaking proposal by Manteuffel was that civilians should head all the departments of the Defense Ministry. He suggested the creation of a small defense council under the commander in chief, also a civilian. The parliamentary opposition should be represented on this council, he suggested.

## Rose Festival Officials Fear Lack of Roses

PORTLAND — Rose Festival officials Tuesday expressed concern about a possible lack of roses.

Because of unusually cool weather only a few flowers have blossomed so far this year and the festival begins in about a week.

The Royal Rosarians organization, which had scheduled a rose garden contest for June 8, announced it was postponing the affair until June 13 because there might be nothing to judge on the earlier date.

Leo Faust, president of the Portland Rose Society, was more optimistic.

"In 66 years of Rose Festivals we have never had a rose failure and we will have plenty this year. We may not have all varieties, but we will have plenty of blooms," he said.

Festival activities get under way June 8. The grand floral parade will be June 11 and the festival closes the following day.

**'REASONABLE' PRICES**  
WASHINGTON — Sen. Magnuson (D-Wash.) Tuesday called for "reasonable" natural gas prices to consumers in the Pacific Northwest, "with no clauses permitting automatic increases."

# Allstate announces NEW LOWER RATES

on auto insurance

Yes sir, there's a big reduction in Allstate's rates for both Liability and Collision coverages on private passenger automobiles! Allstate's careful selection of the drivers it insures makes this reduction possible—another highlight in Allstate's long record of saving money for its policyholders. No wonder Allstate sold more auto insurance in 1954 than any other company based on direct written premiums.

Today, over 2,750,000 car owners have the benefit of Allstate's nationwide, day and night claim service—service that's famous for fast, fair settlements, without red tape or quibbling.

Check Allstate's new lower rates for your car and see how much you can save. See or phone your Allstate Agent.
