

Street Paving Program Due to Start This Week

First paving work is scheduled for later this week in this summer's 40-block city street and alley surfacing program, City Engineer J. H. Davis said this week-end.

Work will start on streets near Hansen avenue in South Salem and will continue later this month on Hansen avenue proper, where an improvement is designed to create a new, easy-grade through route from S. Commercial street to S. River Road, via the Candalaria and Laurel Springs districts.

On the city paving schedule is the Hansen improvement in two sections, the block from Sunrise

to Crestview and the two blocks from Acacia Drive to Laurel Springs. In between lies 600 feet of the road outside city limits, and this section is earmarked for county paving at the same time.

Owners' Petitions
Several streets of the Hansen avenue and the Candalaria districts are included in this year's paving program, virtually all of which is being done as a result of property owners' petitions for paving at their expense through 16-year bonding.

In this area these are on the paving list: West Vista from Earhart to its west end; Felton, from Hansen to city limits; Earhart, from Hansen to Missouri; Holiday Drive, from Prospect Place two blocks south.

Most of the street surfacing will be of 30-foot width, using asphaltic concrete. Contract has been approved already for Warren Northwest to lay the surface on all but 16 of the projects. Bids will be called soon on them.

City Crews
City crews do the grading and put in the curbs first. About 10 blocks of this work is now completed.

Most of the 33 projects are of one-block length; none is longer than three short blocks or two long blocks. The total amount of paving is about the same as last summer's.

Here is the approved city project list in addition to the Hansen Ave. area streets:
Trade street, from Winter to Cottage; 18th, from C street two blocks south; Margaret street, from Engel avenue to west city limits; Engel avenue, from Kingwood Drive to Margaret; Hickory street, from Hazel to Laurel.

N. 25th, from Market to Windsor; S. Cottage, from Hoyt to Judson; 9th street, from Wallace Road to Murlark; Madison street, from 21st to 23rd; S. 22nd, from Mill street, to the SP tracks; Kansas avenue, from 17th to 18th.

Kearney street, from Commercial to Fir; alley from Kearney to Bush streets, between Fir and Saginaw; alley, from Superior to Washington, between Fir and Fairmount; Rose street, from Breyman to Chemeketa; Cascade Drive, from Parkway Drive to Rosemont; Rosemont avenue, from 8th to Cascade.

East Nob Hill, from Hoyt to Judson; Tevot Pl., from Glen Creek Drive to its south end; Grandview Place, from Montrose to Summit; Jack street, from Delmar to Stark; N. 25th, from Englewood avenue to Ellis; Jefferson St., from Church to Cottage; Urban Lane, from Parkway to Kingwood; C streets, from 17th to 18th.

Britain Gets Secret Note From Chou

LONDON (AP) — Diplomatic officials said Friday night Premier Chou En-Lai sent a secret message to Britain on the subject of Formosa's future and related problems.

This was reported as India's V. K. Krishna Menon conferred with Prime Minister Eden about prospects of an international settlement on Formosa. Menon was in Peiping two weeks ago seeking a basis of negotiation between Red China and the United States.

Informants did not disclose the contents of Chou's message to Eden beyond saying it seemed important.

Chou's message was carried by Humphrey Trevelyan who flew to London Thursday night from Peiping, where he has been serving as British charge d'affaires. He saw the leader of the Red Chinese government just before he left.

Menon gave Eden a close account of his discussions with the Peiping bosses — the first the British have thus far received — and it was understood he expressed the view that slowly but surely the way will be cleared for a settlement.

After Menon left Peiping last month Red China released four American airmen held captive there. Officials here believe 11 other fliers will be released soon but not necessarily immediately.

"I believe this (release of the four airmen) may be the opening of the door toward the settlement of these problems" — meaning East-West tensions, Menon said upon arrival here.

Menon discounted suggestions he is mediating in the Formosan dispute. Nevertheless it is known he has been sounding the Chinese Reds, and that he intends seeking British and American support, for an idea designed to set up a basis of negotiation between Peiping and Washington.

The idea is that a neutral nation — possibly India — should sponsor a conference and should invite the United States and Red China to it. Each country would be asked to bring along a "nominee" power.

That would permit the Americans to choose the Nationalist Chinese regime. Presumably the Chinese Reds would select a European Communist nation.

Sao Paulo, mushrooming at the rate of 35 new buildings a day, now is challenging Brazil's largest city, Rio de Janeiro, home of 2,650,000 people. It hopes eventually to surpass Buenos Aires, Argentine capital and South America's largest city.

Non-English?

LONDON — Here's Margaret Rowe, 19-year-old "Miss England," whose selection has stirred up something of a row in London. Her contours, some say, are non-English. Her measurements are 37-24-37, and the judges say her selection was prompted by a desire to compete seriously for the Miss Universe title in Long Beach, Calif., this year. (AP Wirephoto.)

Thailand Urged To Open Schools

BANGKOK, Thailand (AP) — To keep Chinese youths from going to Communist China for higher education, the Central Intelligence Bureau is trying to persuade the government to reopen Chinese secondary schools in Thailand.

These were closed because of political activity in them. The bureau believes this activity can be adequately controlled.

Out of a population of about 16 million, there are about three million persons of pure or mixed Chinese blood in Thailand.

The U. S. Census Bureau expects the population of California to be more than 18 million by 1956, and to have more than New York State.

POLICE TAKE 'TREASURE'

MILAN, Italy (AP) — Antonio Ver-nazza, an 18-year-old gardener, happily shouted "Treasure" when his spade struck an iron chest. The treasure was a well-oiled machine gun and several rounds of ammunition which the police confiscated.

'Recognized' Social Disease Lung Cancer

SAN FRANCISCO (UP) — Lung cancer must now be recognized as a "social disease" amounting in fact to an epidemic, according to a California health official.

Dr. Lester Breslow, chief of the Bureau of Chronic Diseases of the California Department of Public Health, said Thursday that lung cancer caused more than 22,000 deaths each year in the United States.

He said lung cancer was no less an epidemic because its incidence has quadrupled in the past 25 years instead of the past 25 weeks.

"Only during the past three or four years have we become faintly alarmed at the increase of this disease, which still has not reached its peak," Breslow told the National Conference of Social Work.

"Having created the disease through his own activities, man now faces the responsibility of determining the precise causes and establishing control measures."

He said the fact that lung cancer arises from "man-made" conditions means that it must be regarded as a "social disease."

"It occurs more commonly among men than it does among women," he said, "and it is more frequent in urban areas than in rural."

He said three sets of conditions are now under investigation to determine the origin of the disease—cigarette smoking, air pollution and specific occupations.

"Cigarette smoking has received the greatest attention during the past year or two as a major factor in the causation of lung cancer, but that does not explain all lung cancer."

Dr. Morton L. Levin of the New York State Department of Health, Albany, N.Y., said that the results of many different studies "indicate that the risk of developing lung cancer is significantly greater among male cigarette smokers than in non-smokers, and that the risk increases with the number of cigarettes smoked per day."

'Oil Well' Just 1,000 Gallons

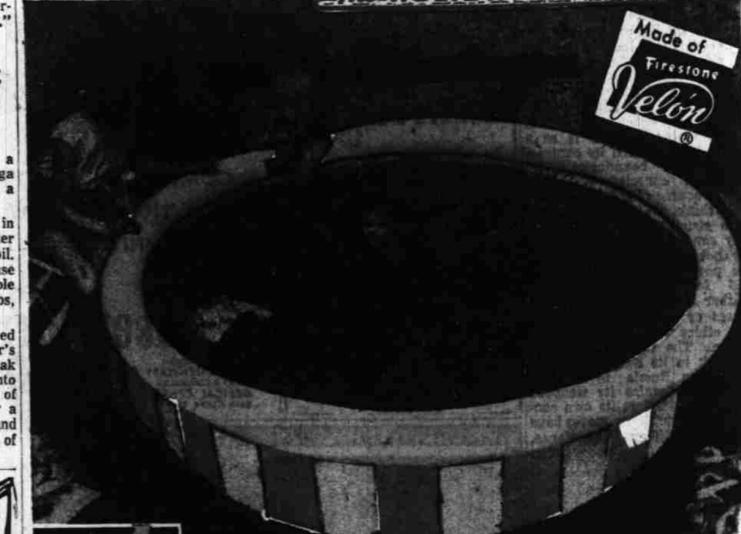

MALMOE, Sweden (AP) — For a time Emil Oberg of Orkelljunga was as happy as a Texan with a new oil well.

Thirsty, he turned the spigot in his kitchen for a glass of water and out ran a stream of thick oil. He tried other taps in his house and soon had filled every available receptacle, including two bathtubs, with oil.

But his dream of wealth faded when he discovered a neighbor's fuel oil tank had sprung a leak and poured 1,000 gallons into Oberg's water well. Instead of riches he was out of pocket for a new electric waterpump, pipes and digging of a new well because of damage from the oil.

EXPANDO ACCORDION POOL

A NEW ERA IN WADING POOL HISTORY
PATENT PENDING BY THE HOLIDAY LINES

Alternate Colored Steel Panels for a Gay Carnival Look!

1. As advertised—Saturday Eve. Post—June 11.
2. In a few seconds one person can set up without a single tool!!
3. Sturdy Steel Wall—Folds like an accordion into compact package alternate colored steel—For a gay carnival atmosphere.
4. The toughest—most durable pool made.
5. Plastic—Laminated—Embossed Firestone Velon.
6. Complete with water drain & vacuum cleaner adapter for easy inflation.
7. No hard or sharp areas.

ONE PERSON CAN ASSEMBLE
Size 8'x21"
Price \$44.95

FOLDS INTO COMPACT PACKAGE

15 Other Sizes Available
From Small Wading Pool 51" x 13"
To Giant Family Size Pools
22 Feet by 42 Inches Deep
