

Reuther Jubilant Over Ford Contract

DETROIT, Mich.—John S. Bugas, left, vice-president for industrial relations, Ford Motor Company and Walter Reuther, president of the CIO auto union are pictured in Detroit, Mich., June 7, as they jointly answered questions on the new contract agreement. Reuther says Ford agreement is the biggest economic package ever negotiated by the CIO auto workers union. Bugas says Ford agreed to go along with the guaranteed wage plans after considerable debate among company officials. (AP Wirephoto.) (Story on page one.)

Grange Opposed to Partnership Dams, Asks Federal Funds

KLAMATH FALLS (AP) — The state Grange took a stand Tuesday in favor of public power development. Delegates passed resolutions opposing two proposed partnership dams in Oregon and opposing interstate compacts such as the one recently proposed for planning

and power allotment for Columbia Basin states. They also urged return of the Bend-Klamath Falls power line to the Bonneville Power Administration.

OPPOSE PROJECTS

The dams opposed were the Cougar and Green Peter projects proposed for the McKenzie and South Santiam rivers. The proposal has been for the federal government to put up the money for flood control and similar dam features, with the Eugene Water Board putting up funds for power facilities at Cougar Dam and the Pacific Power & Light Co. putting up funds for power at Green Peter. The local partners then would get the power produced at those dams.

Another resolution urged the state Agriculture Department to pay more attention to the quality of potatoes in retail stores. Speakers said there is no inspection at the retail level, and potatoes often do not measure up to the grade label.

RESOLUTION TABLED

The grange refused to mix in the controversy over fluoridation of water. A resolution to oppose such water treatment was tabled.

Grange officers were instructed to seek legislation giving the state public utility commissioner control over intra-state rail rate cuts. Another resolution opposed any transfer of racing revenue to the state general fund. The state's racing revenue now goes in part to county fairs and other agricultural shows.

Grange Master Elmer McClure asked the delegates to renew their request for a lieutenant governor position in the state's hierarchy.

Grads Hop to Ike Version of 'Music Chairs'

PEEKSKILL, N.Y. (AP) — A presidential version of musical chairs kept grads of West Point's class of 1915 table hopping Monday night.

Although the class reunion was strictly a private affair spread out over three dining rooms of the Old Stone Inn, a few details leaked out Tuesday.

To keep the proceedings chummy, President Eisenhower suggested everyone switch tables for each dinner course.

This sent the 175 guests, including 33 generals and a number of wives, and the President's bow tie into motion.

The women especially found the black bow tie (worn against a sand colored sport coat and dark trousers) diverting. Each time Eisenhower moved the tie went askew, and an obliging lady would fix it for him.

Eugene GI Sees Border Incident

HEIDELBERG, Germany (AP) — U.S. Army Headquarters Tuesday identified an American soldier arrested by Czech border guards at Waidhaus, Germany, last Saturday as Sgt. Walter S. Winter of Philadelphia, Pa.

Winter was arrested when he strayed a few yards into Czechoslovakia during a holiday trip to the border point.

Sgt. Gerald M. Byrnes of Rt. 3, Box 244, Eugene, Ore., and a German girl who were with Winter did not cross the frontier line and were not bothered by Czech guards.

Farm Magazine Buys Competitor

PHILADELPHIA (AP) — The Curtis Publishing Co. Tuesday announced the sale of Country Gentleman-Better Farming magazine to Farm Journal, Inc.

The purchaser will merge the magazine with its own publication, Farm Journal, in the September issue.

Both are monthly magazines. According to Audit Bureau figures, Country Gentleman-Better Farming has a circulation of 2,566,314 and Farm Journal 2,870,380.

Only One Laborer Crosses Picket Line

ST. HELENS (AP) — An estimated hundred and fifty striking AFL workers were at the Fir-Tex Insulating Co. and Western Insulated Board Co. plant entrances Tuesday morning, and they said only one laborer entered.

The plants announced plans to resume production Monday after being strikebound since March 31.

Vehicle Strikes, Kills Eugene Youngster, 5

EUGENE (Special) — Fred Elmer Terry, 5, of Eugene was killed Tuesday when struck by a car driven by Rama Helen Tiffany, also of Eugene, it was reported by state police, who added that the boy ran out from behind a car parked on Roosevelt Blvd.

Movie Makes Semi-Heel of Famed Comic

By JAMES BACON
HOLLYWOOD (AP) — How does the oldest of "The Seven Little Foys" feel about a movie that makes a semi-heel of his famous showbusiness father?

Bob Hope plays the late Eddie Foy Sr. in a screen biography rare for its lack of sugar-coating. Hope's Foy is an irresponsible performer who neglects his wife and children something awful.

The climax comes when he arrives home from a long tour to find his wife dead from a lingering illness that he didn't even know she had. He reforms after that and takes his seven youngsters into the vaudeville act with him.

Somehow the idea is conveyed that this is accomplished more in the interest of showmanship than parental responsibility.

Producer Bryan Foy admits that the kids seldom saw their father until they got in the act. At Sunday Dinner

"But pop always ate Sunday dinner with us when he was in town. He was pretty good about that." Bryan said the screen biography is a true one in that Foy is portrayed "as us kids saw him."

Senate Committee Votes for Dollar Minimum Wage

WASHINGTON (AP) — The Senate Labor Committee by voice vote Tuesday recommended that the national minimum wage be set at \$1.00 an hour. It is now 75 cents.

Approval of the \$1.00 figure came after a 11-2 vote rejected President Eisenhower's proposal for a 90-cent minimum and an 8-5 vote turned down the \$1.25 recommendation of the CIO and AFL.

Chairman Hill (D-Ala.) of the Senate Labor Committee said plans are to bring the bill before the Senate Wednesday with the expectation of almost certain passage.

Ike's Foreign Bill Passes Committee

WASHINGTON (AP) — A Senate-House conference committee Tuesday settled on a foreign trade measure preserving the main features sought by the Eisenhower administration.

The compromise may pass Congress next week.

As the administration initially proposed the bill would extend for three years the reciprocal trade agreements law and allow the President to cut tariffs by 5 percent in each of those years. The tariff reduction would be in exchange for concessions made by other countries.

NO TRUCK STRIKE BREAK

LOS ANGELES (AP) — Negotiators failed to reach an agreement Tuesday night in the West's truck strike and tieup. Federal Conciliator John L. Fenton said that he will meet again Wednesday with both sides.

Canada Warns Of Effects of Atomic Attack

OTTAWA (AP) — The Canadian government warned Tuesday that an air attack on North America with thermonuclear weapons could cripple the military and industrial potential of Canada and the United States.

"Should we ever be attacked with thermonuclear weapons, it is plain that our immediate problem would be national survival," the government said in a white paper on defense presented in Parliament.

Then, outlining what the government has done and is planning to do:

"In cooperation with the United States, we are providing additional warning networks and increasingly effective and coordinated air defense forces on this continent.

"By so doing, we are, of course, meeting a common need for home defense and, beyond that, we are also, assisting in the protection of the industrial potential of North America and the retaliatory capacity of the U.S. Strategic Air Force."

Interior Division Backed to Buy Roads to Timber

WASHINGTON (AP) — The House Interior Committee Tuesday approved and sent to the House legislation authorizing the secretary of the interior to acquire rights-of-way and timber access roads in the West.

Such authority under present laws has been given on an annual basis. Under the bill approved by the House committee and one which has been passed by the Senate, the authority would be given for five years.

The Interior Department requested the legislation for the acquisition of rights-of-way and existing connecting roads adjacent to public lands to provide an adequate timber access road system. The public lands include the Oregon and California Railroad and Coos Bay Wagon Roads grant in Oregon.

Theft Path Clear As Victim in Jail

EUGENE (AP) — Hoyt Loudermilk complained to police Tuesday that while he was being held in jail some thief got into his apartment and made off with a \$20 radio.

He made the complaint in jail, where he is serving out a \$200 fine for driving while drunk. He said he asked William Brown to look after his belongings, and that Brown discovered the theft Monday.

Loudermilk started serving time last week, and at \$2 a day—still has 94 days remaining.

FLIGHT RECORD CLAIMED

PRESTWICK, Scotland (AP) — Pan American claimed Tuesday a new record for passenger airliners — 9 hours, 55 minutes — on the 3,560-mile flight from Prestwick to New York.

4-H Members Picnic at Bush

Nearly 150 Salem 4-H club members, their parents and leaders attended a picnic Tuesday night at Bush park.

Five families received 4-H service awards for outstanding club work. They were: Frederick Wonderly family, 1305 S. 12th St.; Earl W. Smith family, 1639 Longview; Dale Mallicoate family, 2475 Fisher Rd.; Kenneth H. Seipp family, 598 N. 20th St.; and Ross L. Huckins, 4385 Battle Creek Rd.

Busy Beavers, with club leader Kenneth Seipp, received a special award for having the highest percentage of members present at the picnic.

Curb on Obscene Matter Tightened

WASHINGTON (AP) — The House voted Tuesday to tighten the law aimed at curbing distribution of obscene matter across state lines.

It passed and sent to the Senate a bill making it illegal to ship such matter interstate, either by private or public vehicles.

Existing law prohibits the mailing of obscene matter and bars its shipment by common carrier. The maximum penalty for violating the proposed new law would be five years imprisonment and a fine of \$5,000.

Solons Begin Consideration Of BPA Funds

WASHINGTON (AP) — The Senate appropriations committee Tuesday began consideration of funds for the Bonneville Power Administration in the Pacific Northwest.

Bonneville, for the year beginning July 1, is asking Congress to appropriate \$15,350,000 for construction of new transmission lines and \$6,650,000 for operation and maintenance.

Dr. William A. Pearl, Bonneville administrator, said that as of June 30, 1954, the agency had turned in revenues to the treasury of \$349,746,787—or \$101,783,963 in excess of its scheduled repayment.

Polk County Surveying Its Dog Numbers

A police investigation Tuesday in West Salem disclosed that C. B. Godinton of Dallas is conducting a legitimate survey of Polk County dogs and that it is all right for him to cite owners of unlicensed dogs.

"I am making a pretty thorough survey of it," said he, adding a prediction that through his effort more Polk County residents than usual will voluntarily apply for dog licenses.

Godinton said his survey indicates that one-third of Polk County dogs are unlicensed.

Fees for a new dog are \$2 for males and spayed females and \$3 for unspayed females. If the owner has had a dog for longer than a year, he pays a \$2 penalty in addition to the license cost. Cited dog-owners must pick up their licenses from the county clerk within 10 days.

Police were asked to check Godinton after a woman resident questioned his powers. Godinton said he was picked for the post by County Judge C. M. Barnhart.

Polio-Vaccinated Youths Can Carry Disease, Salk Reports

ATLANTIC CITY, N.J. (AP) — Dr. Jonas E. Salk said Tuesday a child inoculated with his vaccine can still carry polio and pass the disease to others. But, he added, the important thing is that the vac-

inated child is a carrier for less time than the non-vaccinated youngster.

In an address to the American Medical Assn. and in a question and answer session with reporters, Salk tried to clear up some of the more critical questions in parents' minds about his polio vaccine.

Among other things, he said: One shot gives a large degree of protection, lasting up to six months or longer. Full treatment may give immunity for years.

Paralytic polio is less likely to occur after a child has had his first shot. His chances of getting polio are reduced.

A second shot can be delayed, perhaps as long as 30 months, without starting all over again.

Either the first or second shot can be given in the summertime when polio is more prevalent. Dr. Salk said in the case of the first shot there can be a risk but it is slight on a community-wide basis. It's a question to be decided locally, he added.

As for a vaccinated child passing on polio to others, Dr. Salk said this could explain some cases of polio occurring now in families of vaccinated children.

The vaccine is designed to prevent paralytic polio by creating antibodies in a child's bloodstream that protect against paralysis from polio virus.

Dr. Salk explained the vaccine cannot prevent polio virus from entering the child's body and infecting him. The antibodies only intercept the virus before paralysis.

Thus the vaccinated child can pass the virus from his body to other persons, just as any other infected child, although he will not be a carrier as long.

Senate Boosts Ike's Quota for U.S. Housing

WASHINGTON (AP) — Senate Democrats Tuesday dealt the Eisenhower administration a sharp reverse by voting a low-rent public housing authorization of 135,000 units for four years, far more than the President said he wanted.

The Senate then overwhelmingly approved an omnibus housing bill continuing the many-sided federal housing program another year and adding new provisions for construction of 100,000 dwellings for married servicemen and a college housing program.

The measure now goes to the House where the public housing dispute is certain to be resumed.

WASHINGTON (AP) — Democratic Sens. Morse and Neuberger of Oregon and Magnuson and Jackson of Washington voted for the omnibus housing bill which the Senate passed Tuesday.

Jail Prisoner Riot Quelled

ST. LOUIS (AP) — Police fired tear gas into a cell block in the aged city workhouse late Tuesday night to break up a riot of about 50 prisoners who had set fire to their mattresses and broken windows in a demonstration that lasted about two hours.

The prisoners fled out of the block with their hands on top of their heads after tear gas was used.
