The Fall Look For Campus . . .

DARK COTTONS ON CAMPUS . . . Popular for back-to-college wear is the dark cotton, such as this practical and budget-priced dress.

DORMITORY FAVORITE . . . Nightshirt in barber-pole stripes.

By DOROTHY ROE
Associated Press Women's Editor
Young designers of St. Louis, who keep their fingers on the nation's college pulse, come-up with the news that this year's campus smoothies favor dark cottons for first back-to-school outfits and that they are hailing the new slim silhouette with enthusiasm.

While there still are plenty of full skirts in evidence, especially for date wear, you'll be seeing many slim skirts worn with overblouse or loose pullover sweater around the campus this fall. The dyed-to-match cashmere sweater and tweed shirt is a top favorite with the academic crowd. So is the bulky Italian style sweater, knit on the same lines as the loose cotton T-shirts that have been seen on all our best beaches this summer.

A Bonus Crop Beautiful Flowering Plum Often Yields Supply of Canning Fruit

By MAXINE BUREN
Statesman Woman's Editor

A plum can be beautiful and utilitarian, and there may be a gold mine of material for preserves and jams in your gardens. While you've been selecting beautiful flowering plums to liven up the early spring landscape you were also adding a future crop of darn good plums for your winter supply shelves.

This fact was brought to focus in our mind the other day when attending a party in the back yard of a home, we looked up into the dark red leafy tree and discovered what appeared to be a bumper crop of plums, just like those on our own equally red tree. Simultaneously another guest remarked that this reminded her, she must get her plums into jars.

These deep red fruits have a deep red flavor—namely a rich and rather potent taste that lends itself to preserving or jamming or pickling. It is much like the good old damson plums of the old days.

For a conserve, make this recipe:
PLUM CONSERVE
4 pounds plums 1 cup nutmeats
4 medium sized oranges 8 cups sugar
1/2 pound seeded raisins

Pit and grind plums without removing seeds, grind oranges. Add with raisins and sugar and let stand until juices start. Stir occasionally. Boil until thick, adding aunts last 10 minutes of cooking. Bottle hot. Stir to keep from burning.

Plums in vinegar are real old timers and once called plum euchre.
PLUMS IN VINEGAR
4 pounds firm plums 4 pounds sugar
12 cloves 5 cups red wine vinegar
2-3 sticks cinnamon

Prick each plum with a needle in several places. Place close together in an earthen ware dish (glass baking dish will do.) and sprinkle them with cloves, broken cinnamon sticks. Dissolve half the sugar in half the vinegar, bring to a boil, skimming surface occasionally. Simmer about 5 minutes. Pour syrup over plums, cover and let stand 2 days. Drain off, and save liquid, repeating process with same amount of vinegar and sugar. Let plums stand a day longer and drain.

Put all the syrup into a preserving kettle, bring to a boil. Add plums and when sugar syrup again reaches a boil, remove plums to hot sterilized jars. Roll the syrup for 10 minutes and cool. Pour over plums, seal and store.

Modern Etiquette

By ROBERTA LEE
Q. If a woman employ in a business office is on friendly enough relations with her employer, or with another male employ of the office, to call him by his first name, is it proper for her to do this within the hearing of any visitors to the office?
A. Never, under any circumstances! She should address him as "Mr. Johnson." It lowers the dignity of the office to do otherwise.

Q. If many wedding gifts have been received, wouldn't it be all right and proper for the bride to send engraved cards of thanks?
A. Never! If a bride does not consider the gifts worth her time and effort to write personal notes of thanks, then it seems a shame that the donors devoted any time and money to her.
