Jane Wyman Producing ' 20 TV Films

By JAMES BACON HOLLYWOOD & - Here's one producer who can chase me around a desk anytime.

Jane Wyman, at the moment, is both the busiest and prettiest pro-ducer in the business. She's in the midst of making 20 half-hour TV films in which she will be hostess and star and 16 others in which she will just be hostess.

It's a backbreaking routine but Jane, who loves work, already has appeared in three pictures. These include "Lucy Gallant," a story about Texas that even has that state's governor playing a featured role; "Miracle in The Rain," the Ben Hecht story and "All That Feaven Allows," a re-teaming with Rock Hudson.

A cynic might think that Jane is president in name only of her TV series but a day watching her on the set proves otherwise. When a set visitor asked what

title to address her by, she re-"I've got myself into so many jobs on this deal that I now an-

swer to 'Hey, you!' " The company has an executive producer so Jane answers to the title of madame president. It's an appropriate title for she will gross some 414 million dollars over the next three years on the series.

But most of the money apparently is going into the enterprise. Drily Variety, in a rave review of the first show over NBC-TV, remarked that it showed none of the penny-pinching and corner-cutting production of previous TV dram-

Pretty Goldwyn Jane, whether she realizes it or not, is sort of a pretty Sam Goldwyn. As one staff member, a Gold-

wyn alumnus, commented: She makes the final decisions in everything-casting, wardrobe, se's-the works. And she always asks: 'What's the best way to do it?' never the cheapest."

Jane is happiest when working hard. On this set-up, she's even got her pretty daughter, Maureen, working as her script secretary. 'And she works as hard as her

mother," Jane boasts. This brought the obvious question to Maureen. Does she want to follow in her mother's footsteps?

"I don't know," she hesitates. "Five o'clock is awful early to get up in the morning."

Careful With Whistles HOLLYWOOD (A) - You, Joe Donkes, can whistle or hum while you work-but not if you're in the cast of a motion picture.

In moviemaking, anything that you hum or whistle can not only be held against you but it can be held against the studio-to the tune of hundreds of dollars. Music in pictures, even a casual whistle on a street corner, must be cleared with the proper publishers or own-

That explains the long look on the face of Al Fisher, Columbia's music research expert. He's currently researching 25 tunes-some of them just a few bars each-that will be used in "The Eddy Duchin Story.

Copyright laws give the biggest handache, Fisher says, and next comes songs that may be owned one or more publishers. Easiest all is the original song made excially for the picture.

'Only one man or maybe twothe composers are involved," he

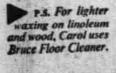

FISH CROP LOST

GRAND HAVEN, Mich. (AP)-Eight of Grand Haven's 12 fishing tugs stayed tied up this sea son, and two of those operating are fishing for chubs and white-fish, instead of lake trout. Fish-ermen say that sea lampreys, eel-like parasite fish, have all but eradicated trout in Lake Michi-

"Clever gal, my Carol!"

I'm tickled pink with the smart way my Carol handles her housework. Take wood floors for instance. Most gals complain about all that scrubbing and waxing. But not my Carol! She cleans and waxes them in one easy operation with Bruce Cleaning Wax. It takes her half the time and a lot less elbow grease. And we've yet to have a guest who hasn't commented on our beautiful wood floors. My Carol and her Bruce Cleaning Wax really make easy work of a hard job. I'm mighty pleased with both of them.
