When

someone's counting on you...

you can count  
on  
life insurance

Big eyes and tiny grins have special meanings for any father. For along with the pleasures of a new occupant in the nursery come responsibilities for the years ahead.

These are responsibilities your life insurance is designed to help you meet. Through life insurance 93 million people are pooling their funds to build greater family financial security than they could achieve alone. These combined funds now total \$84½ billions... strong backing for the benefits guaranteed in the policies.

This is one of the reasons why you can count on life insurance... and why it is America's most widely used form of thrift.

Planning your family's life insurance is such an important matter that you are wise to get the best help you can. Naturally, the person to see is your own life insurance agent.

You'll also find many helpful suggestions in the new booklet, *Your Life Insurance—and How to Use It*. It tells you how to use life insurance for family protection, for educational purposes, for your own retirement. Your free copy will be mailed promptly; simply send your name and address on a postcard to Dept. C.
