Modern Etiquette

Q. If one is eating in a public place where small butter pats are served in little paper containers, is it all right to let the knife rest on the pat when not in use?
A. Never. The knife, when not in use, should rest along the upper right part of the plate—and never, of course, with the handle of the knife resting on the table.
Q. Is it required that a bride return all her first calls, or just those she prefers?
A. The bride should return all these calls, and as early as possible. It would be very rude to return some, and omit others.
Q. Is it ever proper for a girl to ask a man to dance with her?
A. Only if the man is her husband, brother, brother-in-law, cousin, or perhaps an old childhood friend.

Kashmir Still Top Attraction For Tourists

SPRINGGAR, Kashmir (AP)—Kashmir, despite political unrest and the unsettled Indian-Pakistan dispute for its control, is still India's top tourist attraction. A record 40,000 tourists visited Kashmir valley last season. There were only 1,400 foreigners, the rest Indians. It has been the Queen of summer resorts in India for 400 years. It was first discovered by the Mog-

Mr. and Mrs. Lawrence F. Ripp (Karla Jane Hanson) who were married November 12 at St. Joseph's Catholic Church. The bride is the daughter of Mrs. Charles F. Hanson of Silverton and the bridegroom is the son of Mr. and Mrs. James Ripp of Sublimity. The couple will live in Salem. (McEwan Studio).

Don't Look Now...

but . . . you may have lakes in the back yard and drips in the dining room, but at least you aren't lost in a blizzard somewhere between the carport and the house.
Strike up the band . . . Sitting at breakfast the other morning we were surprised to see a colorfully clothed crowd gathered in the yard of our closest neighbor about a city block away. A moment's focusing of eyes and we saw they were standing, as if in parade. Further clearing of vision and brinacells revealed that it wasn't folks at all, but a clothesline of long garments, stiffened by the freezing weather. That, of course, was on a Monday.
Horseplay . . . Livestock (consisting of two well filled out and winter-coated horses) were fun to watch as they casually went on eating the grass, snow or no. They'd run their soft noses around to make a hole in the snow, and then would eat their greenery as usual.

But always they were ready for the extra ration of grain the soft-hearted hostler offered.
Never safer . . . was a planting of shrubbery than at the Haysville interchange. Anyone who wants to take life in hand and pluck some of the holly from the state's landscaped plot should be allowed to. And incidentally, once you get past that spot, going north, might as well plan to spend the night in Portland, you'll never get off the freeway, which seems to be free of everything but turn-arounds.
Cold facts . . . During the recent spell, we heard not one complaint about the weather reports getting monotonous. Taking particular notice, we found the reason for this is that no two authentic reports were the same. I heard two different predictions on two different radio stations from supposedly the same source within a few minutes. (Neither proved true, but that didn't matter). . . . Maxine Buren

Secretary of Church Has 'Tough Job'

GRAND ISLAND, Neb. (AP)—A church secretary may have a tough job.
A survey here found them running lost and found services for their congregations; serving as bridal consultants and church bookkeepers; handling church public relations and looking into cases of Sunday School absenteeism, to say nothing of taking dictation and typing.
Mrs. Jessie Yost, secretary of Trinity Methodist Church, says she has done nearly everything but preach and perform marriages.
One of her bosses, Dr. James Chubb, says of the church secretary: "She is a shock absorber who meets the people on the phone and as they come through
the office, classifies their needs and refers them to those who can help them."
In their off-duty hours many of the secretaries sing in the choir, teach Sunday School, call on shut-ins and help with youth activities.

DELAYED DISCOVERY

BISMARCH, N. D. (UP)—Someone siphoned 15 gallons of gasoline out of Clyde Hoovestad's truck here recently and that was bad enough. But Hoovestad didn't know about it until he was halfway back from Minot, 100 miles north. That's when he ran out of gas.
