Driver Suffers Broken Bones, Saves Kiddies

WELCH, W. Va., (AP) — Praise was some balm Wednesday for Luther Goebel's 16 fractures.

Here's what happened Tuesday on an icy road near here.

Goebel was driving a coal truck when a car skidded across the road in front of him. Goebel couldn't stop. He jumped from the truck, safely.

But Goebel looked again and saw the car was full of children. He ran after his truck, grabbed the steering wheel and headed it into a hillside.

The truck missed the car, but upset and spilled its coal all over Goebel.

His fractures mostly involved ribs.

Helpful Advice Offered On Winter Mower Care

A few simple preparations now for the winter care of your power lawn mower will pay off in handsome dividends next spring, according to Allen Hardware, 236 N. Commercial St., Salem's leading dealer for power lawn mowers.

Owners of power mowers need only follow these few elementary steps to insure an easy-to-start, properly operating mower next spring when the first mowing day rolls around, say Allen's experts.

1. Mower and engine should get a complete cleaning, removing all dirt and dust. Grass should be pulled from the ends of the reel and dirt removed from the chains and mower deck.

2. Drain gasoline from the tank by removing the fuel line. Start the engine to remove any remaining fuel. Gasoline left in the tank over winter may become stale, resulting in gumming of the carburetor. Oil should not be removed from the crankcase of the 4-cycle engine.

3. Remove the spark plug, squirt a few drops of oil into the spark plug hole and pull the starter through once or twice. The spark plug should then be cleaned and replaced in the engine.

4. To protect the machine from rusting over the winter storage period, a light film of oil should be applied to all moving parts and exposed spots.

5. The final stage in the winterizing of your power mower is to cover the machine to protect it from dust and from "adjustments" by children playing near it.

An additional helpful hint from Allen Hardware is to have any necessary repair work handled now, before the mower is needed for the spring work. Repair stations will do a much better job when they have sufficient time to work on the machine.

By carefully following this simple procedure you will be rewarded by finding your first spring mowing to be a pleasure, Allen Hardware promises.

Misguided Missile Cuts Gas Service

ALAMOGORDO, N. M. (AP) — A gas company official said Wednesday night that a misguided, guided missile from one of the nearby military test sites had cut off service to 22,000 persons in the area.

Carl Reed, manager of Southern Union Gas Co., said he was told the missile had punctured a gas line.

He said crews walking the pipe line ever since gas stopped at 5 p.m. found the line crimped and sealed about five miles north of the main installations of White Sands proving ground.

Army demolition teams were ordered into the area to clear the way before gas men would be allowed to repair the damage, Reed said.

Military authorities would not comment on the report.

Reed earlier commented about recent near misses by missiles where the pipe crosses the test area.

White Sands proving ground is in a test area of about 80 miles by 200 miles. Others in the area are Holloman air development center, suffering a lack of gas with Alamogordo, and the Ft. Bliss, Tex., firing range.

Observers suggested that the object that broke the line could have been any one of the standard rockets or missiles used at the bases — the Honest John, Viking, Nike or others.

Meanwhile, housewives who never got their supper potatoes browned faced the possibility of heat-less breakfasts also. Few homes or commercial establishments here use electricity.

Hearing Set on Pay Hike Demand Of Warehousemen

OLYMPIA (AP) — A public hearing will be held in Seattle Jan. 25 on a request by warehousemen for a 33 1/3 per cent increase in some storage rates. State Public Service Commission Chairman Ralph Davis announced Wednesday.

He said the increase was asked for open room storage rates of household goods.

The Washington State Warehousemen's Assn., which has filed the petition, contends that warehousemen have had increased operation costs in the past several years but have had no rate increases, Davis said.

The hearing will be held at the commission's office on pier 32.
