

# Peron Anticipates Argentina Revolt With Million Dead

NEW YORK — The New York Herald Tribune Monday published a prediction by former Argentine President Juan D. Peron that he will return home this year on the crest of a revolt that may claim a million Argentine lives.

# Russian Aid To Asia, Africa Not in Budget

WASHINGTON — American officials studying the Soviet Union's budget for 1956 said Tuesday they find no evidence the Russians are planning to back up with cash their foreign aid offers to Asian and African nations.

The Russians have talked big—a hint to Egypt about 300 million dollars or so for the Aswan Dam, perhaps 100 million dollars for Afghanistan development, 95 million for an Indian steel mill.

But the Russian budget, disclosed in broad outline some three weeks ago and under study here ever since, has nothing in it like the \$4,850,000,000 in U.S. foreign aid which President Eisenhower requested of Congress yesterday.

However, absence of definite foreign aid items in its budget apparently is no bar to Russia's efforts to cultivate friends.

Monday, for example, the Kremlin told a New York magazine circulated in Latin America that the Soviet Union is interested in stepping up trade and diplomatic relations in that area.

Repeating to questions submitted by the editor of the magazine Vision, Soviet Premier Bulganin offered Russian-made capital goods and machinery in exchange for Latin American farm and mining products. He also promised technical aid.

U.S. officials have been in close watch for any Soviet gesture toward Latin America—particularly any attempt to peddle surplus arms like those sold to Egypt. Allen Dulles, head of the Central Intelligence Agency (CIA), indicated in a recent speech that there were signs the Communists might try to push surplus World War II arms in the Western Hemisphere.

The Soviet Union's 1956 budget totaled 570 billion rubles. It is impossible to translate that accurately into dollars. The ruble theoretically is worth four to a dollar, but there are so many factors that any calculation is bound to be inaccurate.

Of the total, 16 per cent or 93 billion rubles is unexplained. The assumption is some foreign aid and a lot of atomic research may be covered by that mystery fund.

# Sen. Bridges Says Nominee Mistake by Ike

WASHINGTON — Sen. Bridges (R-NH) said Tuesday the administration "made a mistake" in insisting on nominating Robert F. Bowie to be an assistant secretary of state, and that he couldn't predict what it would do to party harmony.

Bridges made this comment to reporters after the senate foreign relations committee set next Tuesday for hearings on Bowie's nomination.

Bridges said he and some other GOP senators he did not name had "suggested that the nomination be held up."

"That suggestion has not been followed," Bridges added. "I can't predict what will happen."

Bridges said he had tried to get the nomination held up because of his interest, as chairman of the senate GOP policy committee, in preserving party harmony.

He did not say what objections have been raised to Bowie. There have been reports that he, Sen. Knowland (R-Calif.) and others were opposed to Bowie on grounds Bowie has been quoted as saying privately he favors admission of Red China to the United Nations.

Bowie is now on the late department planning staff. President Eisenhower nominated him last week to be an assistant secretary of state. Bowie and the state department have declined comment on the opposition which has developed.

# \$3 Billion in Steel Industry Expansion Due

(Picture on Wirephoto Page)  
NEW YORK — The steel industry plans to spend about 3 billion dollars over the next three years to expand productive capacity by 15 million tons, an industry survey shows.

Benjamin F. Fairless, president of the Iron and Steel Institute, announced the survey results Monday and said they forecast the biggest three-year expansion program in the industry's history.

Fairless estimated the additional capacity would cost \$300 a ton, bringing total cost of the program, to about three billion dollars.

For the past 10 years steel companies have been expanding at the rate of about 3 1/2 million tons a year and have spent seven million dollars on expansion and modernization, Fairless said. The survey figures show this expansion rate will be increased for the next three years by an average of 1 1/2 million.

"More to Come" And there will be "more to come" to meet the needs of the rapidly growing population of our country, Fairless said.

This expansion, he said, shows the industry's confidence in the economic growth of the United States.

The over-all steel industry expansion plans were announced a short time after General Motors Corp. disclosed that it intends to spend one billion dollars on expansion and improvements this year.

Fairless said many of the steel expansion programs were already under way. He estimated, that money spent for expansion this year would amount to about \$1,200,000,000. He added:

"The new expansion will involve great engineering, industrial and financial problems. Companies must again seek new sources of ores, open additional new mines and construct new Taconite processing facilities. New sources of raw materials necessitate construction of new railroads and ships. This is in addition to construction of new blast furnaces, rolling mills and other finishing equipment."

"Steel's greatest problem," Fairless said, "is to get the money required to carry the expansion that the country expects."

Since the end of World War II, the nation's steel capacity has been raised by 36 million tons, or 40 per cent, to a total of 128 million tons. Projects planned for the next three years would bring total capacity to 143 million tons.

# Wrong Person At Hospital as Baby Arrives

SALT LAKE CITY — Things were slightly mixed up when a baby arrived for the William Higgins.

Daddy was at the hospital. And mama was home. Higgins was working at his job as an orderly at Holy Cross Hospital. He had expected a call from his wife all morning. It didn't come, so he called the landlady at 1 p.m. Monday and asked her to check on Mrs. Higgins.

The landlady called back breathlessly five minutes later: "She's just had the baby all by herself."

When Higgins reached home shortly afterwards he found his wife calmly tending a 7-pound boy. While most of the excitement seemed to be over, Higgins took his wife and baby to the hospital anyway. They were reported doing fine today.

# Mother Dies Of Stabbing as Children Look

MILFORD, Conn. — Police said two small children with knife wounds in their chests cringed on their parents' bed all day Monday as their mother lay stabbed to death on the living room floor.

Their mother, Eugenia Sharon, 42, had been stabbed to death, police said. Their father, John, 40, was missing and hunted by police for questioning.

Dr. William J. H. Fischer, medical examiner, said Mrs. Sharon had been dead eight to 10 hours when a neighbor entered the small, one-family home and found her body.

# Defense of Israel Gets Party Backing

JERUSALEM — A four-point preparedness program to bolster Israel against the threat of Arab attack is being pushed by Premier David Ben-Gurion's Mapai party.

The plan, drawn up to counter the feared effects of Communist arms shipments to the Arab states, would place Israel on a near-war-time austerity footing.

The program, which will be debated in Israel's parliament, would:

1. Remove all luxuries from Israel's economy.
2. Launch an extensive civil defense program.
3. Mobilize more manpower in the higher age groups for farm work and parsons of military age from leaving the country.
4. Levy a defense tax to finance a program including a new advisory national defense council.

Ben-Gurion told trade union leaders at a Tel Aviv meeting early this month that, "if war becomes unavoidable in the coming summer," Israel would have to draft a quarter of a million persons. This would be about 2 1/2 times the number of Israelis under arms during the Palestine war.

Ben-Gurion warned his government would have to call up large forces ahead of a possible emergency to prevent surprise attacks on border points. He added that large sums of money would be needed to buy and store arms.

Ben-Gurion and the Mapai have pledged not to press for preventive war. But they have warned that Israel would use all her resources to beat off any attack.

I watched the show in color at NBC in Hollywood. Technically, it was almost perfect. The color was beautiful. An airplane flew overhead at one point, but the actors merely raised their voices a little and the effect was perfectly natural. "Thank heaven," a network executive muttered, "this play wasn't laid in 1890!"

But if the experiment was a success technically, it was something less than a success artistically. The cast needed another rehearsal or two and showed it. They were fighting their lines all the way through and were slow in picking up their cues. It was understandable. TV had never done anything like this before. For once, the play wasn't the thing. If viewers understood this, they must have realized they were sitting in on an exciting portent of things to come in TV, cameras cut loose from the boundaries of four walls and free to roam at will around the world to tell their dramatic stories.

REPUBLIC, WHICH has long since released some 300 old B pictures and Westerns to TV, has now rushed into the market with 76 of its prize old films, including seven John Wayne starrers. Idea is to get there ahead of Columbia and RKO, which are also releasing large blocks of pictures to TV, before the market becomes glutted.

EMPLOYMENT NOTE: With a studio audience of no less than 1500 people filling the Moulin Rouge every day, "Queen For a Day" has had to hire a staff of ten girls who do nothing but read through the cards filled out by the 1500 people who want to get on the show and take a crack at all that loot.

STARRDUST: Milton Berle's one-year vacation from TV is now resolving itself into a projected Broadway musical comedy, "The Bella Air Ringing," to co-star Judy Holiday. I will predict right now off it will run for one year and its last Broadway performance will be telecast in color as a two-hour spectacular, doubling in brass as Berle's first TV show of the 1957-58 season. — Sammy

# Passport Cost Hiked by Senate

WASHINGTON — The senate has passed a bill increasing the cost of a passport application from \$1 to \$2.

The measure goes back to the house which previously voted to increase the fee to \$3.

The application fee is in addition to a \$9 fee for a passport itself.

# CATTLE SALE SET

DURANGO, Mexico — The federal government, seeking to build up the quality of Mexican cattle, plans to buy 15,000 head of Herefords for sale among cattlemen of Durango state on easy terms. Undersecretary of Agriculture Latoro Ortega estimates the cost at \$18,600,000.

# First Dramatic TV Show Shot Outside

HOLLYWOOD — STARR REPORT: Those of you who watched NBC's "Matinee Theater" last Wednesday were watching TV history in the making, whether or not it was readily apparent. Actually, it shouldn't have been. The play's the thing.

George Gebel, who only two years ago was making a comfortable \$50,000 a year in night clubs, will gross \$2,000,000 in 1956 — of which he will get to keep less than \$50,000 he used to gross! He also wants to cut down his TV appearances from 30 to 20 per season.

SHORT SHOTS: Margaret and Barbara Whiting will be aboard the Ed Sullivan show come Jan. 22. First time out in its new 8:30 time spot, starting even with "Climax." "Dragnet" took the ratings honors by 25.3 to 18. And "The People's Choice," which inherited the old nine o'clock "Dragnet" spot, got its highest rating ever! It figured. After watching "Dragnet" for half an hour, it's only natural to switch to the beginning of a new show rather than cut in on an hour-long show at the half-way point. Yes. A new Warner Bros. film series, "Port of Call," being produced by Jack Warner, Jr., is now in production. (Copyright 1956, General Features Corp.)

DELAY END EIGHTH GENEVA — The U. N. Economic Commission for Europe is trying to do away with delays in motoring across international borders through a sort of simplified auto passport. Traffic experts are sounding out individual government opinion. The aim is to break frontier red tape by Easter holiday time.

# WEDNESDAY BROADCASTS

Television Highlights  
KPTV WEDNESDAY'S HIGHLIGHTS (CHANNEL 27):  
12:00 noon—NBC Matinee Theater—"Bottom of the River"—a social warner tries to organize some incorrigible youngsters into a decent boys' club.  
3:00 p.m.—Matinee Theater—Ann Corio, Bill Henry, and Johnny "Scat" David star in "Sarong Girl."  
11:05 p.m.—Nite Owl Theater—Jean Parker, Wallace Ford and Jed Prouty star in "Roar of the Press."

KOIN-TV WEDNESDAY'S HIGHLIGHTS (CHANNEL 6):  
10:00 a.m.—Armchair Theater—"National Honeymoon": Dianna Lynn, Dick Hayes.  
7:00 p.m.—U. S. Steel Hour—The famed husband and wife team of Jessica Tandy and Hume Cronyn co-star in Arnold Bennett's classic story "The Great Adventure."  
10:00 p.m.—Studio 37—"Rope Enough," with Tom Drake, Jean Byron and Corey Allen—several apartment house tenants group together to force a confession from a small-time crook.  
10:50 p.m.—Showtime on Six—"Inspector Hornleigh": Gordon Barker, Alastair Sim.

KLOR-TV WEDNESDAY'S HIGHLIGHTS (CHANNEL 12):  
12:00 noon—Afternoon Film Festival presents "Always a Bride," starring Peggy Cummins, Terence Morgan and Ronald Squire—a treasury investigator falls in love with a pretty girl who is collaborating with her father in a series of confidence schemes.  
7:00 p.m.—Wednesday Night Fights—Sandy Saddler defends his featherweight title against Flash Elorde, of the Philippines in a 15-round fight.  
8:00 p.m.—Disneyland presents "A Tribute to Joel Chandler Harris," creator of "Uncle Remus," "Brer Rabbit" and "Tar Baby."  
11:00 p.m.—Hometime Theatre—"Flying Blind," starring Richard Arlen and Marie Wilson.
